Agricultural Marketing Service

[Document No. AMS–LP–19–0022]

2019 Rates Charged for AMS Services

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice.

SUMMARY: The Agricultural Marketing Service (AMS) is announcing the 2019 rates it will charge for voluntary grading, inspection, certification, auditing, and laboratory services for a variety of agricultural commodities including meat and poultry, fruits and vegetables, eggs, dairy products, and cotton and tobacco. The 2019 regular, overtime, holiday, and laboratory services rates will be applied at the beginning of the crop year, fiscal year or as required by law depending on the commodity. Other starting dates are added to this notice based on cotton industry practices. This action establishes the rates for user-funded programs based on costs incurred by AMS. This year more than half of AMS user fee rates will remain unchanged or will decrease, but increases are necessary to many fees to cover costs. For consistency, audit fees will now be the same for all commodities at \$115.00 per hour.

DATES: May 1, 2019.

FOR FURTHER INFORMATION CONTACT:

Charles Parrott, AMS, U.S. Department of Agriculture, Room 3070–S, 1400 Independence Ave. SW, Washington, DC 20250; telephone (202) 260–9144, fax (202) 692–0313, email Charles.parrott@usda.gov.

SUPPLEMENTARY INFORMATION: The Agricultural Marketing Act of 1946, as amended, (AMA) (7 U.S.C. 1621–1627), provides for the collection of fees to cover costs of various inspection, grading, certification or auditing services covering many agricultural

commodities and products. The AMA also provides for the recovery of costs incurred in providing laboratory services. The Cotton Statistics and Estimates Act (7 U.S.C. 471–476) and the U.S. Cotton Standards Act (7 U.S.C. 51–65) provide for classification of cotton and development of cotton standards materials necessary for cotton classification. The Cotton Futures Act (7 U.S.C. 15b) provides for futures certification services and the Tobacco Inspection Act (7 U.S.C. 511–511s) provides for tobacco inspection and grading. These Acts also provide for the recovery of costs associated with these services.

On November 13, 2014, the Department of Agriculture (Department) published in the **Federal Register** a final rule that established standardized formulas for calculating the fees charged by AMS user-funded programs (79 FR 67313). Every year since then, the Department has published in the **Federal Register** a notice announcing the rates for its user-funded programs.

This notice announces the 2019 fee rates for voluntary grading, inspection, certification, auditing, and laboratory services for a variety of agricultural commodities including meat and poultry, fruits and vegetables, eggs, dairy products, and cotton and tobacco on a per-hour rate and, in some instances, the equivalent per-unit cost. The per-unit cost is provided to facilitate understanding of the costs associated with the service to the industries that historically used unit-cost basis for payment. The fee rates will be effective at the beginning of the fiscal year, crop year, or as required by specific laws.

The rates reflect direct and indirect costs of providing services. Direct costs include the cost of salaries, employee benefits, and, if applicable, travel and some operating costs. Indirect or overhead costs include the cost of Program and Agency activities supporting the services provided to the industry. The formula used to calculate these rates also includes operating reserve, which may add to or draw upon the existing operating reserves.

These services include the grading, inspection or certification of quality factors in accordance with established U.S. Grade Standards or other specifications; audits or accreditation according to International Organization

for Standardization (ISO) standards and/or Hazard Analysis and Critical Control Point (HACCP) principles; and other marketing claims. The quality grades serve as a basis for market prices and reflect the value of agricultural commodities to both producers and consumers. AMS' grading and certification, audit and accreditation, plant process and equipment verification, and laboratory approval services are voluntary tools paid for by the users on a fee-for-service basis. The agriculture industry can use these tools to promote and communicate the quality of agricultural commodities to consumers. Laboratory services are provided for analytic testing, including but not limited to chemical, microbiological, biomolecular, and physical analyses. AMS is required by statute to recover the costs associated with these services.

As required by the Cotton Statistics and Estimates Act (7 U.S.C. 471–476), consultations regarding the establishment of the fee for cotton classification with U.S. cotton industry representatives are held in the beginning of the year when most industry stakeholder meetings take place. Representatives of all segments of the cotton industry, including producers, ginners, bale storage facility operators, merchants, cooperatives, and textile manufacturers were informed of the fees during various industry-sponsored forums.

Rates Calculations

AMS calculated the rate for services, per hour per program employee, using the following formulas (a per-unit base is included for programs that charge for services on a per-unit basis):

(1) *Regular rate.* The total AMS grading, inspection, certification, classification, audit, or laboratory service program personnel direct pay divided by direct hours for the previous year, which is then multiplied by the next year's percentage of cost of living increase, plus the benefits rate, plus the operating rate, plus the allowance for bad debt rate. If applicable, travel expenses may also be added to the cost of providing the service.

(2) *Overtime rate.* The total AMS grading, inspection, certification, classification, audit, or laboratory service program personnel direct pay divided by direct hours, which is then multiplied by the next year's percentage

of cost of living increase and then multiplied by 1.5, plus the benefits rate, plus the operating rate, plus an allowance for bad debt. If applicable, travel expenses may also be added to the cost of providing the service.

(3) *Holiday rate.* The total AMS grading, inspection, certification, classification, audit, or laboratory service program personnel direct pay divided by direct hours, which is then multiplied by the next year's percentage

of cost of living increase and then multiplied by 2, plus the benefits rate, plus the operating rate, plus an allowance for bad debt. If applicable, travel expenses may also be added to the cost of providing the service.

AMS adjusts the rates to cover all of its expenses and to provide for reasonable operating reserves. To avoid an undue burden on industry operations in these cases, AMS started to phase in some of the increases over a multi-year

period. AMS continued this process and reassessed whether the fee rates and phase-in period were appropriate based on the formula and established operating reserve. Fees are being adjusted accordingly.

All rates are per-hour except when a per-unit cost is noted. The specific amounts in each rate calculation are available upon request from the specific AMS program.

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

Notice of Intent To Seek OMB Approval To Collect Information: Forms Pertaining to the Scientific Peer Review of ARS Research Projects

AGENCY: Agricultural Research Service (ARS), USDA.

ACTION: Notice and request for comments.

SUMMARY: The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act of 1995 and OMB implementing regulations. The Department is soliciting public comments on the subject proposal.

DATES: Written comments on this notice should be submitted on or before July 1, 2019.

ADDRESSES: All comments concerning this notice should be directed to the Director and Program Coordinator listed under **FOR FURTHER INFORMATION CONTACT**.

FOR FURTHER INFORMATION CONTACT: Dr. Marquee D. King, Director and Program Coordinator, Office of Scientific Quality Review (OSQR), Agricultural Research Service, 5601 Sunnyside Avenue, Beltsville, Maryland 20705; Telephone: 301–504–3283; Fax: 301–504–1251; email: marquee.king@usda.gov.

SUPPLEMENTARY INFORMATION: The OSQR will seek approval from OMB to update six existing forms to ensure that ARS can efficiently manage data associated

with the peer review of agricultural research. All forms are transferred and received electronically and may include on-line submissions in the future.

Abstract: The OSQR was established in September 1999 as a result of the Agricultural Research, Extension, and Education Reform Act 1998 (“The Act”) (Pub. L. 105–185). The Act included mandates to perform scientific peer reviews of all research activities conducted by USDA. The office manages the ARS peer review system by centrally coordinating all intramural peer review functions for ARS research projects on a 5-year cycle.

Each set of reviews is assigned a chairperson to govern the panel review process. Peer reviewers are external to the Agency and non-ARS scientists. Peer review panels are convened to assess the technical/scientific quality and correctness of each research project plan. Each panel reviewer receives information on a range of two to five ARS research projects.

On average, 150 research projects are reviewed annually by an estimated 185 reviewers. Whereby approximately 130 are reviewed by a panel and approximately 20 are reviewed through an ad hoc (written review) process. The management and execution of this peer review process is vastly dependent on the use of these forms.

The OSQR will seek OMB approval of the following forms:

1. **Confidentiality Agreement Form:** USDA uses this form to document that a selected reviewer is responsible for keeping confidential any information learned during the subject peer review process. The Confidentiality Agreement is signed before the reviewer’s involvement in the peer review process. The form requires an original signature and can be submitted electronically.

2. **Panelist Information Form:** USDA uses this form to gather the most recent background information and diversity and inclusion data about the reviewer, and information relevant to paying an honorarium and travel expenses when needed. Sensitive information is

transmitted on this form and destroyed after payment is received.

3. **Peer Review of an ARS Research Project Form (Peer Review Form):** USDA uses this form to guide the reviewer’s expert comments in written form on the assigned project plan. The form contains the criteria for plan review and seeks the reviewer’s narrative comments and evaluation.

3. **Additional Reviewer Comment Form:** This form is supplied to members of a panel not assigned as a primary or secondary reviewer on a particular project plan; however, it encourages additional expert comments or recommendations for any plan regardless of a reviewer’s assignment as primary or secondary.

4. **Ad Hoc Review Form:** USDA uses this in select cases (e.g., for reviewers not participating in a panel review). It contains a check-off listing of action classes that allows reviewers to provide an overall rating of the plan.

5. **Recommendations for ARS Research Project Form**

(**Recommendations Form**): USDA uses this form to guide the panel’s evaluation and critique of the review process. The form combines both primary and secondary reviewers’ recommendations of the research project plan.

6. **Panel Expense Report Form (Expense Report):** USDA uses this form to document a panel reviewer’s expense incurred traveling to and attending a peer review meeting. The expense report asks reviewers to list lodging, meal, and transportation expenses. When completed, the form contains sensitive information and is held in compliance with ARS travel guidelines. This form is used only in rare circumstance when a panel meeting requires that reviewers travel.

(1) USDA’s collection of information on the Confidentiality Agreement Form is needed to document that a selected reviewer is responsible for keeping confidential any information learned during the subject peer review process. The Confidentiality Agreement would be signed before the reviewer’s involvement in the peer review process.
