k. *Description of Request:* The applicant proposes to install a 230-kilowatt turbine-generator unit within the existing minimum flow release pipe at the No. 5 development of its Deerfield River Hydroelectric Project. The new unit would have a maximum hydraulic capacity of 87 cubic feet per second and produce approximately 1,269 megawatt-hours annually.

l. *Locations of the Applications:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street NE, Room 2A, Washington, DC 20426, or by calling (202) 502-8371. The filing may also be viewed on the Commission's website at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3676 or email FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. Agencies may obtain copies of the application directly from the applicant.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Motions to Intervene, or Protests:* Anyone may submit comments, a motion to intervene, or a protest in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, motions to intervene, or protests must be received on or before the specified comment date for the particular application.

o. *Filing and Service of Responsive Documents:* Any filing must (1) bear in all capital letters the title COMMENTS, MOTION TO INTERVENE, or PROTEST as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis. Any filing made by an intervenor must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 385.2010.

p. *Waiver of Pre-filing Consultation:* Based on a review of the application, resource agency consultation letters, and comments filed to date, we accept the consultation that has occurred on this project as satisfying our requirements for the standard 3-stage consultation process under 18 CFR 4.38, and are waiving the requirement to conduct second stage consultation pursuant to section 4.38(c)(4) of the Commission's regulations, as requested by the applicant.

[Project No. 12635-002]

Moriah Hydro Corporation; Notice of Intent To Prepare an Environmental Impact Statement

On February 13, 2015, Moriah Hydro Corporation filed an application for an original major license to construct and operate its proposed 240-megawatt Mineville Energy Storage Project No.

12635 (Mineville Project or project). The project would be located in a decommissioned subterranean mine complex¹ in the town of Moriah, Essex County, New York. No federal lands would be occupied by the project works or located within the project boundary.

In accordance with the National Environmental Policy Act and the Commission's regulations, Commission staff held public scoping meetings for the proposed Mineville Project on December 7, 2016, in Warrensburg, New York, and on December 8, 2016, in Port Henry, New York. Commission staff originally intended to prepare an Environmental Assessment (EA) to analyze project effects.² However, during preparation of the EA and review of the project record, staff has determined that the Mineville Project may constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff now intends to prepare an Environmental Impact Statement (EIS) that addresses the licensing of the Mineville Project.

A draft EIS will be issued and circulated for review by all interested parties. All comments filed on the draft EIS will be analyzed by the staff and considered in the final EIS. The staff's conclusions and recommendations will be available for the Commission's consideration in reaching its final licensing decision.

The application will be processed according to the following schedule. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Issue draft EIS	June 2019.
Draft EIS public meeting	July 2019.
Comments on draft EIS due	August 2019.
Commission issues final EIS.	February 2020.

This notice informs all interested individuals, organizations, and agencies with environmental expertise and concerns, that: (1) The Commission staff has decided to prepare an EIS addressing the licensing of the Mineville Project; and (2) the prior scoping conducted on this project by Commission staff and comments filed with the Commission on the application will be taken into account in the EIS.

Any questions regarding this notice may be directed to Chris Millard (202)

¹ The existing mine complex comprises the interconnected Old Bed Mine, Harmony Mine, and 21 Mine and pit.

SUPPLEMENTARY INFORMATION:

Title: Standards of Conduct for Transmission Provider and Marketing Affiliates of Interstate Pipelines.

OMB Control No.: 1902-0157.

Type of Request: Three-year extension of the FERC-592 information collection requirements with no changes to the current reporting requirements.

Abstract: The Commission uses the information maintained and posted by the respondents to monitor the pipeline's transportation, sales, and storage activities for its marketing affiliate to deter undue discrimination by pipeline companies in favor of their marketing affiliates. Non-affiliated shippers and other entities (e.g., state commissions) also use information to determine whether they have been harmed by affiliate preference and to prepare evidence for proceedings following the filing of a complaint.

18 CFR Part 358 (Standards of Conduct)

Respondents maintain and provide the information required by part 358 on their internet websites. When the Commission requires a pipeline to post information on its website following a disclosure of non-public information to its marketing affiliate, non-affiliated shippers obtain comparable access to the non-public transportation information, which allows them to compete with marketing affiliates on a more equal basis.

18 CFR 250.16, and the FERC-592 Log/Format

This form (log/format) provides the electronic formats for maintaining information on discounted transportation transactions and capacity allocation to support monitoring of activities of interstate pipeline marketing affiliates. Commission staff considers discounts given to shippers in litigated rate cases.

Without this information collection:

- The Commission would be unable to effectively monitor whether pipelines
