**RIN 1625–AA87****Security Zone; Corpus Christi Ship Channel, Corpus Christi, TX****AGENCY:** Coast Guard, DHS.**ACTION:** Temporary final rule.

**SUMMARY:** The Coast Guard establishes two security zones. One of the zones is a temporary fixed security zone for the receiving facility's mooring basin while the Liquefied Natural Gas (LNGC) FUJI LNG is moored at the facility. The other zone is a moving security zone encompassing all navigable waters within a 500-yard radius around the LNGC FUJI LNG while the vessel transits with cargo in the La Quinta Channel and Corpus Christi Ship Channel in Corpus Christi, TX. The security zones are needed to protect personnel, vessels, and the marine environment from potential hazards created by Liquefied Natural Gas (LNG) cargo aboard the vessel. Entry of vessels or persons into these zones is prohibited unless specifically authorized by the Captain of the Port Sector Corpus Christi.

**DATES:** This rule is effective without actual notice from May 1, 2019 until May 3, 2019. For the purposes of enforcement, actual notice will be used from April 26, 2019 until May 1, 2019.

**II. Background Information and Regulatory History**

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(3)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because it is impracticable. We must establish these security zones by April 26, 2019 and lack sufficient time to provide a reasonable comment period and then consider those comments before issuing the rule.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be contrary to the public interest because immediate action is needed to provide for the security of the vessel.

**III. Legal Authority and Need for Rule**

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034. The Captain of the Port Sector Corpus Christi (COTP) has determined that potential hazards associated with Liquefied Natural Gas Carrier (LNGC) FUJI LNG between April 26, 2019 and May 03, 2019 will be a security concern while the vessel is moored at the receiving facility and within a 500-yard radius of the vessel while the vessel is loaded with cargo.
