

TABLE 1—PROPOSED ALUMINUM AQUATIC LIFE CRITERIA FOR OREGON FRESH WATERS

Metal	CAS No.	Criterion maximum concentration (CMC) ² (µg/L)	Criterion continuous concentration (CCC) ³ (µg/L)
Aluminum ¹	7429905	Acute (CMC) and chronic (CCC) freshwater aluminum criteria values for a site shall be calculated using the 2018 Aluminum Criteria Calculator (<i>Aluminum Criteria Calculator V.2.0.xlsx</i> , or a calculator in R or other software package using the same 1985 Guidelines calculation approach and underlying model equations as in the <i>Aluminum Criteria Calculator V.2.0.xlsx</i>) as established in the EPA's Final Aquatic Life Ambient Water Quality Criteria for Aluminum 2018 (EPA 822-R-18-001) ⁴ . Calculator outputs shall be used to calculate criteria values for a site that protect aquatic life throughout the site under the full range of ambient conditions, including when aluminum is most toxic given the spatial and temporal variability of the water chemistry at the site.	

¹ The criteria for aluminum are expressed as total recoverable metal concentrations.

² The CMC is the highest allowable one-hour average instream concentration of aluminum. The CMC is not to be exceeded more than once every three years. The CMC is rounded to two significant figures.

³ The CCC is the highest allowable four-day average instream concentration of aluminum. The CCC is not to be exceeded more than once every three years. The CCC is rounded to two significant figures.

⁴ EPA 822-R-18-001, Final Aquatic Life Ambient Water Quality Criteria for Aluminum 2018, is incorporated by reference into this section with the approval of the Director of the Federal Register under 5 U.S.C. 552(a) and 1 CFR part 51. All approved material is available from U.S. Environmental Protection Agency, Office of Water, Health and Ecological Criteria Division (4304T), 1200 Pennsylvania Avenue NW, Washington, DC 20460; telephone number: (202) 566-1143, <https://www.epa.gov/wqc/aquatic-life-criteria-aluminum>. It is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202-741-6030 or go to www.archives.gov/federal-register/cfr/ibr-locations.html.

(c) *Applicability.* (1) The criteria in paragraph (b) of this section are the applicable acute and chronic aluminum aquatic life criteria in all fresh waters in Oregon to protect the fish and aquatic life designated uses.

(2) The criteria established in this section are subject to Oregon's general rules of applicability in the same way and to the same extent as are other federally promulgated and state-adopted numeric criteria when applied to fresh waters in Oregon to protect the fish and aquatic life designated uses.

(3) For all waters with mixing zone regulations or implementation procedures, the criteria apply at the appropriate locations within or at the boundary of the mixing zones and outside of the mixing zones; otherwise the criteria apply throughout the water body including at the end of any discharge pipe, conveyance or other discharge point within the water body.

SUPPLEMENTARY INFORMATION:

Background

Improvement of regulations is a continuous focus for the Department of Transportation (DOT) and MARAD. For that reason, DOT/MARAD regularly and

deliberately review their rules in accordance with DOT's 1979 Regulatory Policies and Procedures (44 FR 11034), Executive Order (E.O.) 12866, E.O. 13563, and section 610 of the Regulatory Flexibility Act. That process is summarized in Appendix D of DOT's semi-annual regulatory agenda (*e.g.*, 81 FR 94784). In E.O. 13771 and E.O. 13777, President Trump directed agencies to further scrutinize their regulations. Comments received will inform the review described in this notice and supplement MARAD's periodic regulatory review and its activities under E.O. 13771 and E.O. 13777. This request for comments is narrowly focused on improving and modernizing MARAD's program administration.

Accordingly, MARAD has identified its regulations at 46 CFR part 355 governing requirements for evidencing United States citizenship for consideration consistent with the President's direction. This notice seeks to solicit comments to ensure that MARAD's programs remain effective, modern, and the least burdensome to the public. As part of our review, MARAD is issuing this notice to engage the public and the broad spectrum of stakeholders that may be affected. Information received will be used to evaluate the issues and determine whether to propose a change in how corporations evidence their citizenship.

Citizenship eligibility criteria and documentation requirements may affect stakeholders who participate, directly or indirectly, in MARAD programs and activities, including ship managers and agents of MARAD-owned ships (herein collectively referred to as "Vessel Operators") which may be used by the Department of Defense (DOD) in support of certain DOD-controlled activities. For example, Vessel Operators are required by regulation to be at least majority owned and controlled by United States citizens at each tier of ownership.

Scope of Comments

MARAD is interested in learning how it could reduce or remove regulatory burdens on the public. Accordingly, commenters may want to focus on the following: (1) Recognition of modern business forms in addition to corporations (*e.g.*, limited liability companies and limited partnerships) and modern securities ownership practices (*e.g.*, street name securities); (2) aligning with current best business practices; (3) reducing the cost of compliance; and (4) revising the corporate citizenship affidavit.

Content of Comments

We are interested in information on how any changes to 46 CFR part 355 could impact small businesses, either positively or negatively. In describing a burden placed on your organization by our regulations or potential changes to the regulations, direct experience and quantifiable data are more useful than anecdotal descriptions. If the commenter believes that there is a less burdensome alternative, the commenter should describe that alternative in verifiable detail.

Under this notice, MARAD is not soliciting petitions for rulemaking.

Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, to www.regulations.gov, as described in the system of records notice, DOT/ALL-14 FDMS, accessible through www.dot.gov/privacy.
