Notifications to Interested Parties

This notice constitutes the countervailing duty order with respect to welded line pipe and welded structural pipe from Korea pursuant to section 706(a) of the Act. Interested parties can find a list of countervailing duty orders currently in effect at <http://enforcement.trade.gov/stats/iastats1.html>.

This order is published in accordance with sections 705(c) and 706(a) of the Act and 19 CFR 351.211(b).

Dated: April 23, 2019.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.

Appendix

Scope of the Order

The merchandise covered by this order is welded carbon and alloy steel pipe (other than stainless steel pipe), more than 406.4 mm (16 inches) in nominal outside diameter (large diameter welded pipe), regardless of wall thickness, length, surface finish, grade, end finish, or stenciling. Large diameter welded pipe may be used to transport oil, gas, slurry, steam, or other fluids, liquids, or gases. It may also be used for structural purposes, including, but not limited to, piling. Specifically, not included is large diameter welded pipe produced only to specifications of the American Water Works Association (AWWA) for water and sewage pipe.

Large diameter welded pipe used to transport oil, gas, or natural gas liquids is normally produced to the American Petroleum Institute (API) specification 5L. Large diameter welded pipe may also be produced to American Society for Testing and Materials (ASTM) standards A500, A252, or A53, or other relevant domestic specifications, grades and/or standards. Large diameter welded pipe can be produced to comparable foreign specifications, grades and/or standards or to proprietary specifications, grades and/or standards, or can be non-graded material. All pipe meeting the physical description set forth above is covered by the scope of this order, whether or not produced according to a particular standard.

Subject merchandise also includes large diameter welded pipe that has been further processed in a third country, including but not limited to coating, painting, notching, beveling, cutting, punching, welding, or any

other processing that would not otherwise remove the merchandise from the scope of the order if performed in the country of manufacture of the in-scope large diameter welded pipe.

The large diameter welded pipe that is subject to this order is currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) under subheadings 7305.11.1030, 7305.11.1060, 7305.11.5000, 7305.12.1030, 7305.12.1060, 7305.12.5000, 7305.19.1030, 7305.19.1060, 7305.19.5000, 7305.31.4000, 7305.31.6090, 7305.39.1000 and 7305.39.5000. While the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

Large Diameter Welded Pipe From Canada: Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: Based on affirmative final determinations by the Department of Commerce (Commerce) and the International Trade Commission (ITC), Commerce is issuing an antidumping duty order on large diameter welded carbon and alloy steel line and structural pipe from Canada.

DATES: Applicable May 2, 2019.

FOR FURTHER INFORMATION CONTACT:

Susan S. Pulongbarit at (202) 482-4031 or Annathea Cook at (202) 482-0250, AD/CVD Operations, Enforcement and Compliance, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On February 27, 2019, Commerce published its affirmative final determination in the less-than-fair-value (LTFV) investigation of large diameter welded pipe from Canada.¹ The scope of the investigation in Commerce's final determination covered large diameter welded carbon and alloy steel line pipe (welded line pipe), large diameter welded carbon and alloy steel structural pipe (welded structural pipe), and stainless steel large diameter welded pipe (stainless steel pipe) from Canada.²

As discussed below, the ITC subsequently found three domestic like products covered by the scope of the investigation (welded line pipe, welded structural pipe, and stainless steel pipe) and, accordingly, made a separate injury determination with respect to each domestic like product. On April 15, 2019, the ITC notified Commerce of its final determination, pursuant to 735(d) of the Tariff Act of 1930, as amended (the Act), that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act, by reason of LTFV imports of welded line pipe and welded structural pipe from Canada.³ Additionally, the ITC made a negative determination of material injury or threat of material injury with respect to stainless steel pipe.⁴ Commerce released draft revised scope language for comment by parties.⁵ No party objected to the revised scope language in this proceeding.

Scope of the Order

The products covered by this order are welded line pipe and welded structural pipe from Canada. For a complete description of the scope of this order, see the Appendix to this notice.

Antidumping Duty Order

On April 15, 2019, in accordance with sections 735(b)(1)(A)(i) and 735(d) of the Act, the ITC notified Commerce of its final determination in this investigation, in which it found that imports of welded line pipe and welded structural pipe from Canada are materially injuring a U.S. industry.⁶ As a result, and in accordance with sections 735(c)(2) and 736 of the Act, we are publishing this antidumping duty order. As noted above, in its determination, the ITC found three domestic like products covered by the scope of the investigation: Welded line pipe, welded structural pipe, and stainless steel pipe. The ITC made a negative determination with respect to stainless steel pipe from Canada. The ITC made an affirmative determination with respect to welded line pipe and welded structural pipe from Canada. Because the ITC made

³ See ITC Notification Letter regarding ITC Investigation Nos. 701-TA-595-596 and 731-TA-1401, 1403, 1405-1406, dated April 15, 2019 (ITC Notification); see also *Large Diameter Welded Pipe from Canada, Greece, Korea, and Turkey; Determinations*, 84 FR 16533 (April 19, 2019) (ITC Final Determination); and *Large Diameter Welded Pipe from Canada, Greece, Korea, and Turkey, Investigation Nos. 701-TA-595-596 and 731-TA-1401, 1403, 1405-1406 (Final)*, Publication 4883, April 2019 (Final ITC Report).

⁴ See ITC Notification.

⁵ See Memorandum, "Comments on the Scope of the Orders," dated April 5, 2019.

² *Id.*

distinct and different injury determinations for separate domestic like products, Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on entries of welded line pipe and welded structural pipe (subject merchandise) from Canada, and not on entries of stainless steel pipe (excluded merchandise) from Canada.

Welded Line Pipe

The Final ITC Report describes welded line pipe as a tubular product produced from carbon and alloy steel, produced to American Petroleum Institute (API) 5L specifications, and designed for conveying liquids and gases.⁷ Because the ITC determined that LTFV imports of welded line pipe from Canada are materially injuring a U.S. industry,⁸ all unliquidated entries of subject merchandise from Canada, entered or withdrawn from warehouse, are subject to the assessment of antidumping duties, as described below.

As a result of the *ITC Final Determination*, in accordance with section 736(a) of the Act, Commerce will direct CBP to assess, upon further instruction by Commerce, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price (or constructed export price) of the merchandise for all relevant entries of welded line pipe from Canada. Antidumping duties will be assessed on unliquidated entries of welded line pipe from Canada entered, or withdrawn from warehouse, for consumption on or after August 27, 2018, the date of publication of the *Preliminary Determination*,⁹ but will not be assessed on entries occurring after the expiration of the provisional measures period, beginning on February 23, 2019, in accordance with section 733(d) of the Act, until the date of publication of the *ITC Final Determination* in the **Federal Register**.

Welded Structural Pipe

The Final ITC Report describes welded structural pipe as a tubular product produced from carbon and alloy steel, produced to American Society for Testing and Materials (ASTM) specifications, and designed for support in construction projects and piling.¹⁰ Because the ITC determined that LTFV

imports of welded structural pipe from Canada are materially injuring a U.S. industry,¹¹ all unliquidated entries of subject merchandise from Canada, entered or withdrawn from warehouse, are subject to the assessment of antidumping duties, as described below.

As a result of the *ITC Final Determination*, in accordance with section 736(a) of the Act, Commerce will direct CBP to assess, upon further instruction by Commerce, antidumping duties for all relevant entries of welded structural pipe from Canada. Antidumping duties will be assessed on unliquidated entries of welded structural pipe from Canada entered, or withdrawn from warehouse, for consumption on or after August 27, 2018, the date of publication of the *Preliminary Determination*,¹² but will not be assessed on entries occurring after the expiration of the provisional measures period, beginning on February 23, 2019, in accordance with section 733(d) of the Act, until the date of publication of the *ITC Final Determination* in the **Federal Register**.

Stainless Steel Pipe

The Final ITC Report describes stainless steel pipe as being produced from stainless steel for its high-chrome chemistry and corrosion-resistant properties.¹³ Because the ITC made a negative determination of material injury or threat of material injury by reason of LTFV imports of stainless steel pipe from Canada,¹⁴ Commerce will direct CBP to terminate the suspension of liquidation for entries of stainless steel pipe from Canada entered, or withdrawn from warehouse, and to refund all cash deposits with respect to these entries pursuant to section 735(c)(2) of the Act.

Suspension of Liquidation

In accordance with section 736 of the Act, Commerce will direct CBP to reinstitute the suspension of liquidation of subject merchandise (*i.e.*, welded line pipe and welded structural pipe) from Canada, effective the date of publication of the *ITC Final Determination* in the **Federal Register**, and to assess, upon further instruction by Commerce pursuant to section 736(a)(1) of the Act, antidumping duties for each entry of the subject merchandise equal to the amount by which the normal value of the merchandise exceeds the export price (or constructed export price) of the merchandise. We intend to instruct CBP

to require, at the same time as importers would normally deposit estimated import duties on this merchandise, cash deposits for each entry of subject merchandise equal to the rates noted below. These instructions suspending liquidation will remain in effect until further notice. The all-others rate applies to all other producers or exporters not specifically listed.

Company	Estimated weighted-average dumping margin (percent)
Evrax Inc. NA ¹⁵	12.32
All Others	12.32

Notifications to Interested Parties

This notice constitutes the antidumping duty order with respect to welded line pipe and welded structural pipe from Canada pursuant to section 736(a) of the Act. Interested parties can find a list of antidumping duty orders currently in effect at <http://enforcement.trade.gov/stats/iastats1.html>.

This order is published in accordance with sections 735(c) and 736(a) of the Act and 19 CFR 351.211(b).

Dated: April 23, 2019.

DEPARTMENT OF COMMERCE

International Trade Administration

Initiation of Antidumping and Countervailing Duty Administrative Reviews

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) has received requests to conduct administrative reviews of various antidumping and countervailing duty orders and findings with February anniversary dates. In accordance with Commerce's regulations, we are initiating those administrative reviews.

DATES: Applicable May 2, 2019.

FOR FURTHER INFORMATION CONTACT:

Brenda E. Brown, Office of AD/CVD Operations, Customs Liaison Unit, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, telephone: (202) 482-4735.

SUPPLEMENTARY INFORMATION:

Background

Commerce has received timely requests, in accordance with 19 CFR 351.213(b), for administrative reviews of various antidumping and countervailing duty orders and findings with February anniversary dates.

All deadlines for the submission of various types of information, certifications, or comments or actions by Commerce discussed below refer to the number of calendar days from the applicable starting time.

Notice of No Sales

If a producer or exporter named in this notice of initiation had no exports, sales, or entries during the period of review (POR), it must notify Commerce within 30 days of publication of this notice in the **Federal Register**. All submissions must be filed electronically at <http://access.trade.gov> in accordance with 19 CFR 351.303.¹ Such submissions are subject to verification in accordance with section 782(i) of the Tariff Act of 1930, as amended (the Act). Further, in accordance with 19 CFR 351.303(f)(1)(i), a copy must be served on every party on Commerce's service list.

Respondent Selection

In the event Commerce limits the number of respondents for individual examination pursuant to requests made for the orders identified below, Commerce intends to select respondents based on U.S. Customs and Border Protection (CBP) data for U.S. imports during the POR. We intend to place the CBP data on the record within five days of publication of the initiation notice and to make our decision regarding respondent selection within 30 days of publication of the initiation **Federal Register** notice. Comments regarding the CBP data and respondent selection should be submitted within seven days after the placement of the CBP data on the record of this review. Parties wishing to submit rebuttal comments should submit those comments within five days after the deadline for the initial comments.

In the event Commerce decides it is necessary to limit individual examination of respondents and conduct respondent selection under section 777A(c)(2) of the Act:

In general, Commerce has found that determinations concerning whether particular companies should be "collapsed" (e.g., treated as a single entity for purposes of calculating antidumping duty rates) require a substantial amount of detailed information and analysis, which often require follow-up questions and analysis. Accordingly, Commerce will not conduct collapsing analyses at the

respondent selection phase of this review and will not collapse companies at the respondent selection phase unless there has been a determination to collapse certain companies in a previous segment of this antidumping proceeding (e.g., investigation, administrative review, new shipper review or changed circumstances review). For any company subject to this review, if Commerce determined, or continued to treat, that company as collapsed with others, Commerce will assume that such companies continue to operate in the same manner and will collapse them for respondent selection purposes. Otherwise, Commerce will not collapse companies for purposes of respondent selection. Parties are requested to (a) identify which companies subject to review previously were collapsed, and (b) provide a citation to the proceeding in which they were collapsed. Further, if companies are requested to complete the Quantity and Value (Q&V) Questionnaire for purposes of respondent selection, in general each company must report volume and value data separately for itself. Parties should not include data for any other party, even if they believe they should be treated as a single entity with that other party. If a company was collapsed with another company or companies in the most recently completed segment of this proceeding where Commerce considered collapsing that entity, complete Q&V data for that collapsed entity must be submitted.

Deadline for Withdrawal of Request for Administrative Review

Pursuant to 19 CFR 351.213(d)(1), a party that has requested a review may withdraw that request within 90 days of the date of publication of the notice of initiation of the requested review. The regulation provides that Commerce may extend this time if it is reasonable to do so. Determinations by Commerce to extend the 90-day deadline will be made on a case-by-case basis.

Deadline for Particular Market Situation Allegation

Section 504 of the Trade Preferences Extension Act of 2015 amended the Act by adding the concept of particular market situation (PMS) for purposes of constructed value under section 773(e) of the Act.² Section 773(e) of the Act states that "if a particular market situation exists such that the cost of materials and fabrication or other processing of any kind does not accurately reflect the cost of production

¹ See *Antidumping and Countervailing Duty Proceedings: Electronic Filing Procedures; Administrative Protective Order Procedures*, 76 FR 39263 (July 6, 2011).
