40 CFR Part 52

[EPA–R09–OAR–2018–0133; FRL–9992–71–Region 9]

Air Plan Revisions; California; Correcting Amendments

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule, correcting amendment.

SUMMARY: On February 12, 2019, the EPA published two final rules in the *Federal Register* approving certain other revisions to the California SIP. In these final rules, the EPA included inaccurate amendatory instructions that have prevented incorporation of the final actions into the CFR. The error will be corrected in this action.

DATES: This action is effective on May 3, 2019.

FOR FURTHER INFORMATION CONTACT: Kevin Gong, EPA Region IX, (415) 972–3073, Gong.Kevin@epa.gov.

SUPPLEMENTARY INFORMATION: This action corrects an inadvertent error in the amendatory instructions in final rulemakings affecting 40 CFR part 52.

On December 31, 2018 (83 FR 67696), the EPA published a final rule approving the Reasonably Available Control Technology (RACT) demonstration for the El Dorado County Air Quality Management District. This action added paragraph (c)(513) to § 52.220 for the state plan revision submitted on January 4, 2017. On February 12, 2019, the EPA published two final rules at 84 FR 3302 and 84 FR 3305 approving various air quality planning provisions from the California Air Resources Board (CARB) for the South Coast Air Quality Management District (SCAQMD) and the San Joaquin Valley Air Pollution Control District (SJVAPCD) as revisions to the California SIP. These documents were submitted on April 27, 2017. Due to inaccurate amendatory instructions in both of the February 12, 2019 documents, the approval of the two sets of additional material was erroneously set out into 40 CFR 52.220(c)(513), which, as noted above, with respect to the RACT demonstration for El Dorado County, is designated for the approvals of the SIP submittals made on January 4, 2017. The EPA is correcting the error by removing the SCAQMD and SJVAPCD provisions from paragraph (c)(513) and adding them in paragraph (c)(517) in this action.

The EPA has determined that this action falls under the “good cause”

exemption in section 553(b)(3)(B) of the Administrative Procedures Act (APA) which, upon finding “good cause,” authorizes agencies to dispense with public participation where public notice and comment procedures are impracticable, unnecessary, or contrary to the public interest. Public notice and comment for this action is unnecessary because the underlying rules for which this correcting amendment have been prepared were already subject to 30-day comment periods. Further, this action is consistent with the purposes and rationales of the final rules for which typesetting errors and inaccurate amendatory instructions are being corrected herein. Because this action does not change the EPA’s analyses or overall actions, no purpose would be served by additional public notice and comment. Consequently, additional public notice and comment are unnecessary.

The EPA also finds that there is good cause under APA section 553(d)(3) for this correction to become effective on the date of publication of this action. Section 553(d)(3) of the APA allows an effective date of less than 30 days after publication “as otherwise provided by the agency for good cause found and published with the rule.” 5 U.S.C. 553(d)(3). The purpose of the 30-day waiting period prescribed in APA section 553(d)(3) is to give affected parties a reasonable time to adjust their behavior and prepare before the final rule takes effect. This rule does not create any new regulatory requirements such that affected parties would need time to prepare before the rule takes effect. This action merely corrects typesetting errors and inaccurate amendatory instructions in previous rulemakings. For these reasons, the EPA finds good cause under APA section 553(d)(3) for this correction to become effective on the date of publication of this action.

Statutory and Executive Order Reviews

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and is therefore not subject to review by the Office of Management and Budget. In addition, this action does not impose any enforceable duty or contain any unfunded mandate as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4), or require prior consultation with state officials as specified by Executive Order 12875 (58 FR 58093, October 28, 1993), or involve special consideration of environmental justice related issues as required by Executive Order 12898 (59 FR 7629, February 16, 1994).

Because this action is not subject to notice-and-comment requirements under the APA or any other statute, it is not subject to the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Under 5 U.S.C. 801(a)(1)(A) as added by the Small Business Regulatory Enforcement Fairness Act of 1996, the EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives and the Comptroller General of the General Accounting Office prior to publication of this rule in the *Federal Register*. This rule is not a “major rule” as defined by 5 U.S.C. 804(2).

Air Plan Approval; California; Antelope Valley Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve a revision to the Antelope Valley Air Quality Management District (AVAQMD) portion of the California State Implementation Plan (SIP). This

revision concerns emissions of volatile organic compounds (VOCs) from organic liquid loading. We are approving a local rule that regulates these emission sources under the Clean Air Act (CAA or the Act).

DATES: This rule will be effective on June 3, 2019.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R09–OAR–2018–0787. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. I. Proposed Action

On December 18, 2018 (83 FR 64795), the EPA proposed to approve the following rule into the California SIP.

Local agency	Rule No.	Rule title	Amended	Submitted
AVAQMD	462	Organic Liquid Loading ¹	09/19/17	11/13/17

We proposed to approve this rule because we determined that it complies with the relevant CAA requirements. We also proposed to find that the rule satisfied the District’s commitment to remedy the Rule 462 deficiency identified in the conditional approval of the District’s reasonably available

¹ As explained in our proposal, subsequent to the submittal of Rule 462, the District made two minor administrative corrections to the rule text. The EPA is approving the corrected version of the rule, a copy of which is included in the docket for this action.

control technology (RACT) demonstrations for the 1997 8-hr ozone National Ambient Air Quality Standards (NAAQS) and the 2008 8-hr ozone NAAQS (RACT SIP) (82 FR 46923). Our proposed action contains more information on the rule and our evaluation.

II. Public Comments and EPA Response

The EPA’s proposed action provided a 30-day public comment period. During this period, we received no comments.

III. EPA Action

No comments were submitted. Therefore, as authorized in section 110(k)(3) of the Act, the EPA is fully approving this rule into the California SIP. The EPA is also converting the partial conditional approval of the District’s RACT SIP with respect to Rule 462 into a full approval.

IV. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes
