The Commission's auction rules and related requirements are designed to ensure that the competitive bidding process is limited to serious qualified applicants, deter possible abuse of the bidding and licensing process, and enhance the use of competitive bidding to assign Commission licenses in furtherance of the public interest. The information collected on FCC Form 175 is used by the Commission to determine if an applicant is legally, technically, and financially qualified to participate in a Commission auction. Additionally, if an applicant applies for status as a particular type of auction participant pursuant to Commission rules, the Commission uses information collected on FCC Form 175 to determine whether the applicant is eligible for the status requested. Commission staff reviews the information collected on FCC Form 175 for a particular auction as part of the pre-auction process, prior to the auction being held. Staff determines whether each applicant satisfies the Commission's requirements to participate in the auction and, if applicable, is eligible for the status as a particular type of auction participant requested. Without the information collected on FCC Form 175, the Commission will not be able to determine if an applicant is legally, technically, and financially qualified to participate in a Commission auction and has complied with the various

applicable regulatory and statutory auction requirements for such participation. The Commission plans to continue to use the FCC Form 175 for its upcoming non-reverse spectrum auctions, including the forward auction component of any incentive auction, collecting only the information necessary for each particular auction.

OMB Control Number: 3060-0995.

Title: Section 1.2105(c), Bidding Application and Certification Procedures; Sections 1.2105(c) and 1.2205, Prohibition of Certain Communications.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities, not-for-profit institutions, and state, local or tribal governments.

Estimated Number of Respondents and Responses: 10 respondents and 10 responses.

Estimated Time per Response: 1.5 hours to 2 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in sections 154(i), 309(j), and 1452(a)(3) of the Communications Act, as amended, 47 U.S.C. 4(i), 309(j)(5), 1452(a)(3), and sections 1.2105(c) and 1.2205 of the Commission's rules, 47 CFR 1.2105(c), 1.2205.

Estimated Total Annual Burden: 50 hours.

Total Annual Costs: \$9,000.

Nature and Extent of Confidentiality: The Commission will take all reasonable steps to protect the confidentiality of all Commission-held data of a reverse broadcast incentive auction applicant consistent with the confidentiality requirements of the Spectrum Act and the Commission's rules. See 47 U.S.C. 1452(a)(3); 47 CFR 1.2206. In addition, to the extent necessary, auction applicants and other covered parties may request confidential treatment pursuant to section 0.459 of the Commission's rules, 47 CFR 0.459, for any report of a prohibited communication submitted to the Commission that is not already being treated as confidential.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: A request for extension of this information collection (no change in requirements) will be submitted to the Office of Management and Budget (OMB) in order to obtain the full three year clearance from OMB.

The Commission's rules prohibiting certain communications in Commission

auctions are designed to reinforce existing antitrust laws, facilitate detection of collusive conduct, and deter anticompetitive behavior, without being so strict as to discourage pro-competitive arrangements between auction participants. They also help assure participants that the auction process will be fair and objective, and not subject to collusion. The information collected under this information collection allows the Commission to enforce the prohibition on auction applicants and other covered parties by making clear the responsibility of parties who receive information that potentially violates the rules to promptly report to the Commission. It also enables the Commission to ensure that no bidder gains an unfair advantage over other bidders in its auctions, thereby enhancing the competitiveness and fairness of Commission spectrum auctions. The information collected will be reviewed and, if warranted, referred to the Commission's Enforcement Bureau for possible investigation and administrative action. The Commission may also refer allegations of anticompetitive auction conduct to the Department of Justice for investigation.

OMB Control No.: 3060-0999.

Title: Hearing Aid Compatibility Status Report and Section 20.19, Hearing Aid-Compatible Mobile Handsets (Hearing Aid Compatibility Act).

Form Numbers: FCC Form 655 and FCC Form 855.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 934 respondents; 934 responses.

Estimated Time per Response: 13.9710921 hours per response (average).

Frequency of Response: On occasion and annual reporting requirements, Recordkeeping requirement and third-party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154(i), 157, 160, 201, 202, 214, 301, 303, 308, 309(j), 310 and 610 of the Communications Act of 1934, as amended.

Total Annual Burden: 13,049 hours.

Total Annual Cost: No cost.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Information requested in the reports and certifications may include confidential

information. However, covered entities are allowed to request that such materials submitted to the Commission be withheld from public inspection.

Needs and Uses: The Commission will submit the revised information collection to OMB to obtain a full three-year clearance. The changes being made to the information collection concern the obligations of wireless service providers to post certain information on their websites, retain information, and to file annual compliance certifications. The Commission is not proposing changes to the currently approved information collection as it relates to wireless service provider standard development, labeling, and disclosure requirements. Nor is the Commission proposing changes to the previously approved number of estimated service provider respondents and responses. Finally, the Commission is not proposing any changes to the currently approved information collection as it relates to wireless handset manufacturers.

These revisions to the information collection are necessitated by a Report and Order in WT Docket No. 17-228, FCC 18-167, adopted on November 15, 2018 (2018 Report and Order). In the 2018 Report and Order, the Commission revised its rules requiring wireless service providers to post on their publicly accessible websites information regarding the hearing aid compatibility of their offered handsets and required them to retain certain information regarding the hearing aid compatibility of the handsets they previously offered. These revised requirements will allow consumers to have access to the most recent data about hearing aid-compatible handsets and the Commission will be able to ensure service provider compliance with the hearing aid compatibility rules and requirements.

In addition, the 2018 Report and Order determined that service providers are no longer required to annually file FCC Form 655. This form was previously used to ensure service provider compliance with the Commission's hearing aid compatibility rules. Instead, service providers will be filing a streamlined certification with the Commission indicating whether or not they have been in full compliance with the Commission's hearing aid compatibility provisions during the relevant reporting period. Service providers will make this certification using new FCC Form 855. The Commission is seeking OMB approval of this new form and its related instructions. Wireless device manufacturers will continue to annually

file FCC Form 655 to demonstrate compliance with the Commission's hearing aid compatibility provisions.

Federal Advisory Committee Act; Technological Advisory Council

AGENCY: Federal Communications Commission.

ACTION: Notice of renewal of the Technological Advisory Council's charter.

SUMMARY: The Federal Communications Commission (Commission) hereby announces that the charter of the Technological Advisory Council (hereinafter Committee) has been renewed pursuant to the Federal Advisory Committee Act (FACA).

FOR FURTHER INFORMATION CONTACT: Michael Ha, Deputy Chief, Policy and Rules Division 202-418-2099; michael.ha@fcc.gov.

SUPPLEMENTARY INFORMATION: On April 16, 2019, the General Services Administration approved renewal of the charter of the Committee pursuant to provisions of the FACA. The Commission intends to renew the charter on or before May 17, 2019 and provide the Committee with authorization to operate for two years from the effective date.

Rapid advances in technology have resulted in innovations in how telecommunications services are provided to, and are accessed by, users of those services. Many of these advances are increasing the rate of convergence among categories of services that have traditionally been viewed as distinct, such as cable television services, telephony, data services, and internet services. Regulations must be examined in light of these technology advances, and the Commission must remain abreast of new developments in technology so that it can effectively fulfill its responsibilities under the Communications Act.

The Committee provides recommendations to the Commission on the issues and questions presented to it by the FCC. The Committee will focus on key issues affecting the deployment of new broadband technologies and services seeking to spur opportunities for innovation, greater efficiencies, and

job creation. The Committee will address questions referred to it through the Designated Federal Officer by the FCC Chairman, the Chief of the FCC Office of Engineering and Technology, or the FCC Chief Technology Officer. The questions referred to the TAC will be directed to technological and technical issues in the field of communications.

The Committee is organized under, and operates in accordance with, the provisions of the FACA. The Committee will be solely advisory in nature. Consistent with FACA and its requirements, each meeting of the Committee will be open to the public unless otherwise noticed. Records will be maintained of each meeting and made available for public inspection. All activities of the Committee will be conducted in an open, transparent, and accessible manner. The Committee shall terminate on May 17, 2021, or earlier upon the completion of its work as determined by the Chairman, unless its charter is renewed prior to the termination date.

The Committee will meet approximately three to five times per year in Washington, DC. The meetings of the TAC will be described in a Public Notice issued and published in the **Federal Register** at least fifteen (15) days prior to the first meeting date. In addition, as needed, working groups or subcommittees (ad hoc or steering) will be established to facilitate the Committee's work between meetings of the full Committee. All meetings, including those of working groups and subcommittees, will be fully accessible to individuals with disabilities.
