Agency Information Collection Activities; Comment Request; Worker Profiling and Reemployment Services Activity and Worker Profiling and Reemployment Services Outcomes
ACTION: Notice.
SUMMARY: The Department of Labor’s (DOL’s) Employment and Training Administration (ETA) is soliciting comments concerning a proposed extension for the authority to conduct the information collection request (ICR) titled, “Worker Profiling and Reemployment Services Activity and Worker Profiling and Reemployment Services Outcomes.” This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden in accordance with the Paperwork Reduction Act of 1995 (PRA).
DATES: Consideration will be given to all written comments received by July 2, 2019.
ADDRESSES: A copy of this ICR with applicable supporting documentation, including a description of the likely respondents, proposed frequency of response, and estimated total burden, may be obtained free by contacting Lawrence Burns by telephone at 202–693–3141 (this is not a toll-free number), TTY 1–877–889–5627 (this is not a toll-free number), or by email at Burns.Lawrence@dol.gov.

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed. ETA is soliciting comments concerning the collection of data in the ETA 9048, Worker Profiling and Reemployment Services Activity Report, and the ETA 9049, Worker Profiling and Reemployment Services Outcomes Report. Authorization for both reports expires on November 30, 2019. The Worker Profiling and Reemployment Services (WPRS) program, mandated by the Unemployment Compensation Amendments of 1993, Public Law 103–152, identifies and ranks unemployment insurance (UI) claimants by their potential for exhausting their benefits before returning to work and refers these claimants to appropriate reemployment services.
WPRS is a required UI activity that each state may operate as a standalone program or integrated within the state’s Reemployment Services and Eligibility Assessment Program (RESEA), which is a voluntary reemployment program authorized by Section 306 of the Social Security Act (SSA). Specifically, states participating in the RESEA program may opt to integrate WPRS into the RESEA participant selection process. Additional information about the integration of WPRS into RESEA is available in Unemployment Insurance Program Letter No. 07–19, “Fiscal Year (FY) 2019 Funding Allotments and Operating Guidance for Unemployment Insurance (UI) Reemployment Services and Eligibility Assessment (RESEA) Grants.” The ETA 9048 and ETA 9049 reports are the only means of tracking the activities in the WPRS program. The ETA 9048 report describes the number of claimants at various points in the WPRS system from initial profiling through the completion of specific reemployment services. The ETA 9049 describes the reemployment experience of profiled claimants selected for referral to services by examining the
