Abstract of Proposed Collection

The export, temporary import, and brokering of defense articles, defense services, and related technical data are licensed by the Directorate of Defense Trade Controls (DDTC) in accordance with the International Traffic in Arms Regulations ("ITAR," 22 CFR parts 120-130) and Section 38 of the Arms Export Control Act.

ITAR § 126.18 eliminates, subject to certain conditions, the requirement for an approval by DDTC of the transfer of unclassified defense articles, which includes technical data, to or within a foreign business entity, foreign governmental entity, or international organization that is an authorized end-user or consignee (including transfers to approved sub-licensees) for defense articles, including the transfer to dual nationals or third-country nationals who are bona fide regular employees directly employed by the foreign consignee or end-user.

To use ITAR § 126.18, effective procedures must be in place to prevent

diversion to any destination, entity, or for purposes other than those authorized by the applicable export license or other authorization. Those conditions can be met by requiring a security clearance approved by the host nation government for its employees, or the end-user or consignee have in place a process to screen all its employees and to have executed a Non-Disclosure Agreement that provides assurances that the employee will not transfer any defense articles to persons or entities unless specifically authorized by the consignee or end-user. ITAR § 126.18(c)(2) also provides that the technology security/clearance plans and screening records shall be made available to DDTC or its agents for law enforcement purposes upon request.

Methodology

When information kept on file pursuant to this recordkeeping requirement is required to be sent to the Directorate of Defense Trade Controls, it may be sent electronically or by mail according to guidance given by DDTC.

Anthony Dearth,
Chief of Staff.
