DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Notice of Interest Rate on Overdue Debts

Section 30.18 of the Department of Health and Human Services' claims collection regulations (45 CFR part 30) provides that the Secretary shall charge an annual rate of interest, which is determined and fixed by the Secretary of the Treasury after considering private consumer rates of interest on the date that the Department of Health and Human Services becomes entitled to recovery. The rate cannot be lower than the Department of Treasury's current value of funds rate or the applicable rate determined from the "Schedule of Certified Interest Rates with Range of Maturities" unless the Secretary waives interest in whole or part, or a different rate is prescribed by statute, contract, or repayment agreement. The Secretary of the Treasury may revise this rate quarterly. The Department of Health and Human Services publishes this rate in the **Federal Register**.

The current rate of 10^{3/8}%, as fixed by the Secretary of the Treasury, is certified for the quarter ended March 31, 2019. This rate is based on the Interest Rates for Specific Legislation, "National Health Services Corps Scholarship Program (42 U.S.C. 254o(b)(1)(A))" and "National Research Service Award Program (42 U.S.C. 288(c)(4)(B))." This interest rate will be applied to overdue debt until the Department of Health and Human Services publishes a revision. The rate was 10^{3/4}% for the previous quarter ending December 31, 2018. Though available on the Department of Health and Human Services' website, this rate was inadvertently not published in the **Federal Register**.

Dated: April 17, 2019.

Description of the need for the information and proposed use: Title LXXXI of the Fixing America's Surface Transportation Act (Pub. L. 114–94) authorizes the Department of Housing and Urban Development (HUD) to establish a demonstration program under which the Secretary may execute budget-neutral, performance-based agreements in fiscal years 2016 through 2019 that result in a reduction in energy or water costs. The legislation authorizes HUD to implement this pilot in up to 20,000 units of multifamily buildings participating in the project-based rental assistance (PBRA) program under section 8 of the United States Housing Act of 1937; supportive housing for the elderly program operating under section 202 of the Housing Act of 1959; and supportive housing for persons with disabilities under section 811(d)(2) of the Cranston-Gonzalez National Affordable Housing Act. The Statute authorizes HUD to execute performance-based agreements in fiscal years 2016 through 2019 covering up to 20,000 units in eligible properties. HUD is responsible for submitting annual program evaluation reports to Congress for the duration of the Pilot.

HUD is authorized under this legislation to establish a competitive process for selecting one or more qualified applicants to serve as Intermediaries who will, per agreements with HUD, be responsible for initiating and managing an energy and water conservation retrofit program at eligible properties. For the purpose of this program, applicants are defined as entities applying to participate. The documents that are the subject of this notice are those used by applicants applying to participate in this program. This information will allow applicants to submit their proposal and for the government to evaluate this information.

I. Application. The applicants responding to the NOFA will need to submit before the prescribed deadline all standard forms including Previous Participation Certification (Form 2530), SF–424 family of forms, and Form HUD–2880; responses to the NOFA's rating factors describing the applicant's qualifications and proposed approach to all aspects of program implementation; and an Executive Summary of no more than four pages.

II. Project Initiation. Once selected, Intermediaries will enter into a Cooperative Agreement with HUD for each property they will be retrofitting under the program which will provide for performance-based payments by HUD based on the savings realized by HUD after the retrofit has been completed. Intermediaries will also be required to submit a copy of an executed PFS Contracts with each property owner that will be attached to the Cooperative and serve to identify the specific units being affected by the retrofit. Within 30 days of entering into each Cooperative Agreement, an Intermediary will submit to HUD a Work Plan consisting of a description of all documentary deliverables and due dates related to that Agreement and a proposed approach to periodic consultation with HUD for the purposes of oversight. The Intermediary will also submit a request for approval for the Independent Evaluator that will be validating key information submitted to HUD by the Intermediary over the course of the Cooperative Agreement. Each participating property owner will submit to HUD a Certification of Eligibility and a written agreement to replace equipment installed under the PFS Pilot only with equipment of like or better efficiency.

III. Retrofit implementation. Before a retrofit is implemented, the Intermediary will develop and submit (with support from the property owner) a Site-specific Environmental Review form with the following information: High-level description of the project's scope of work; whether the property lies within a Coastal Barrier Resource unit; whether the property lies within a floodplain and proof of any required flood insurance policies; whether the project will destroy or modify a wetland; previous uses of the site and other evidence of contamination on or near the site; and whether any historic preservation policies apply to the site or the building(s). Intermediaries intending to use property-level reserve funds to pay for no more than half of the hard costs associated with the retrofit must submit a Scope of Work for the retrofit and a Reserve Analysis demonstrating that the retrofit will leave the property in as good or better financial shape as it would otherwise have been. The property owner must submit a Funds Authorization Form (HUD–9250) to request HUD's approval to use funds for this purpose.

IV. Retrofit completion. When the retrofit is completed, the Intermediary will submit a Certification of Retrofit Completion with the following information: A list of installed measures

with cost information; weather- and occupancy-normalized pre-retrofit consumption baselines for each affected tenant- and owner-paid utility, and all component data used to calculate those baselines, including utility consumption, rates, utility allowances, and climatic and occupancy data, and the calculation methodology used; weather- and occupancy-normalized post-retrofit consumption projections for each affected tenant- and owner-paid utility, and all component data used to calculate those baselines, including utility consumption, rates, utility allowances, and climatic and occupancy data, and the calculation methodology used; recalculated pre-retrofit baseline utility allowances and post-retrofit utility allowances for each unit size/type; recalculated pre-retrofit baseline owner rental subsidy and post-retrofit owner renter for each unit size/type; and post-retrofit per-unit annual savings to HUD relative to pre-retrofit baseline.

V. Performance payments.

Intermediaries will submit Invoices for Performance Payments concurrent with each property's annual rent adjustment cycle for the remainder of the period of performance of the Cooperative Agreement pertaining to that property. Invoices will include thorough documentation of all calculations contributing to the calculation of the amount being invoiced (as provided in the work plan) as well as a written certification by the Independent Evaluator that the performance payment has been calculated according to the methodology contained in the Cooperative Agreement; no adverse changes to the qualifications of the Independent Evaluator have occurred since the last submission from the Independent Evaluator; and no conflict of interest or apparent conflict of interest exists with the Intermediary or with respect to any property or Owner which would preclude the Independent Evaluator from performing its obligations in a truly independent manner. In the event of a change in the physical structure of a property during the period of performance which materially impacts utility usage, the Owner and the Intermediary will mutually agree upon an equitable modification of the pre-retrofit baseline for Owner-paid utility and/or of the pre-retrofit baseline of tenant utility allowances to reflect the impact of the change on utility usage and notify HUD of the change. In the event that the Intermediary wishes to assign performance payments to a third party, the Intermediary must submit to HUD a written request for approval.

VI. Other program administration requirements. Beginning with the execution of their first cooperative agreement with HUD, Intermediaries will submit quarterly reports regarding the status of all properties for which work under the PFS Pilot is unfinished, including the work that has been completed, the work that remains the anticipated projected completion date. If at any point it becomes necessary to replace a partner entity performing one or more core functions program administration functions (project management, capital sources, oversight of SOW development and retrofit implementation, and/or invoicing HUD), the Intermediary must collect and submit evidence from the proposed replacement partner entity similar to the qualifications detailed for the original partner entity in the Intermediary's initial application. As this is pilot program and HUD is responsible for submitting annual program evaluation reports to Congress, Intermediaries may be required to work with a program evaluation team and provide relevant information, possibly including (but not limited to) information pertaining to retrofit implementation, program administration, post-retrofit behavioral interventions, and certain fees. Intermediaries may be asked to clarify or provide additional context for previously submitted information, including additional details on their sources and uses of funds.

Respondents (i.e. affected public): Entities applying to be Intermediaries under this program, selected Intermediaries.

Estimated Number of Respondents: 15.

Estimated Number of Annual Responses: 1,000.

Frequency of Response: Varies.

Average Hours per Response: 10.8.

Total Estimated Annual Burden: 4,401.
