

in interstate commerce if seizure-free and off anti-seizure medication for a five-year period or more.

As a result of Medical Examiners misinterpreting advisory criteria as regulation, numerous drivers have been prohibited from operating a CMV in interstate commerce based on the fact that they have had one or more seizures and are taking anti-seizure medication, rather than an individual analysis of their circumstances by a qualified Medical Examiner based on the physical qualification standards and medical best practices.

On January 15, 2013, FMCSA announced in a Notice of Final Disposition titled, Qualification of Drivers; Exemption Applications; Epilepsy and Seizure Disorders, (78 FR 3069), its decision to grant requests from 22 individuals for exemptions from the regulatory requirement that interstate CMV drivers have “no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause loss of consciousness or any loss of ability to control a CMV.” Since the January 15, 2013 notice, the Agency has published additional notices granting requests from individuals for exemptions from the regulatory requirement regarding epilepsy found in 49 CFR 391.41(b)(8).

To be considered for an exemption from the epilepsy and seizure disorders prohibition in 49 CFR 391.41(b)(8), applicants must meet the criteria in the 2007 recommendations of the Agency’s Medical Expert Panel (MEP) (78 FR 3069).

III. Qualifications of Applicants

Gary Bartels

Mr. Bartels is a 64-year-old class A3 CDL holder in South Dakota. He has a history of epilepsy and has been seizure free since 1994. He takes anti-seizure medication with the dosage and frequency remaining the same since 1994. His physician states that he is supportive of Mr. Bartels receiving an exemption.

Charles E. Davenport

Mr. Davenport is a 66-year-old class D driver in Tennessee. He has a history of a single unprovoked seizure and has been seizure free since 2007. He takes anti-seizure medication with the dosage and frequency remaining the same since 2008. His physician states that he is supportive of Mr. Davenport receiving an exemption.

Alan H. Finlayson

Mr. Finlayson is a 40-year-old class D driver in Alabama. He has a history of

epilepsy and has been seizure free since 2004. He takes anti-seizure medication with the dosage and frequency remaining the same since March 2011. His physician states that he is supportive of Mr. Finlayson receiving an exemption.

Gregory P. Long

Mr. Long is a 38-year-old class D driver in Connecticut. He has a history of epilepsy and has been seizure free since 1995. He takes anti-seizure medication with the dosage and frequency remaining the same since 1995. His physician states that he is supportive of Mr. Long receiving an exemption.

John McFarland

Mr. McFarland is a 39-year-old class D driver in Virginia. He has a history of epilepsy and has been seizure free since 2009. He takes anti-seizure medication with the dosage and frequency remaining the same since 2015. His physician states that he is supportive of Mr. McFarland receiving an exemption.

Scott Schelske

Mr. Schelske is a 48-year-old class D driver in South Dakota. He has a history of a seizure disorder and has been seizure free since 1999. He takes anti-seizure medication with the dosage and frequency remaining the same since 2009. His physician states that he is supportive of Mr. Schelske receiving an exemption.

SUPPLEMENTARY INFORMATION:

Background

On October 18, 2018, the ABA and the UMA submitted a petition to FMCSA requesting a determination that the SFO vehicle inspection requirement is preempted by Federal law. According to the petition, the Airport Commission of the City and County of San Francisco has adopted Rules and Regulations to govern the general conduct of the public, tenants, employees, and commercial users of SFO as their activities relate to the possession,

management, supervision, operation, and control of the Airport. The current Rules and Regulations became effective on January 1, 2018 and contain provisions that govern commercial ground transportation operations (Rule 4.7). The petition states that under Rule 4.7, transportation companies that pick up and drop off passengers at SFO must apply for a Ground Transportation Operating Permit and that to obtain a permit, companies must first be licensed with the California Public Utilities Commission or have been granted Operating Authority by FMCSA for out-of-state carriers. The petition states that SFO's website provides notice of a requirement that, upon application for a Ground Transportation Operating Permit and annually thereafter, ground transportation vehicles must be inspected by airport mechanics. An offsite inspection is allowed, with fees attached, for fleets of 25 or more vehicles. The petition also alleges that while the SFO website includes a "San Francisco International Airport Vehicle Safety Inspection Checklist," neither the checklist nor Rule 4.7 identifies the standards used to determine whether a particular vehicle component has passed or failed the inspection, nor is there any indication as to what overall score is necessary for a commercial motorcoach to pass such an inspection.

While the petition states that all vehicles operating at SFO are required to display a transponder and permit-specific decals, the petition seeks a preemption determination concerning only the vehicle inspection requirement.

Applicable Law

Section 31141 of title 49 of the United States Code prohibits States from enforcing a law or regulation on CMV safety that the Secretary of Transportation (Secretary) has determined to be preempted. To determine whether a State law or regulation is preempted, the Secretary must decide whether a State law or regulation: (1) Has the same effect as a regulation prescribed under 49 U.S.C. 31136, which is the authority for much of the Federal Motor Carrier Safety Regulations (FMCSRs); (2) is less stringent than such a regulation; or (3) is additional to or more stringent than such a regulation 49 U.S.C. 31141(c)(1).

If the Secretary decides that a State law or regulation has the same effect as a regulation prescribed under 49 U.S.C. 31136, the State law or regulation may be enforced. 49 U.S.C. 31141(c)(2). If the Secretary decides that a State law or regulation is less stringent than a regulation prescribed under 49 U.S.C. 31136, the State law or regulation may

not be enforced. 49 U.S.C. 31141(c)(3). If the Secretary decides that a State law or regulation is additional to or more stringent than a regulation prescribed by the Secretary under 49 U.S.C. 31136, the State law or regulation may be enforced unless the Secretary decides that the State law or regulation (1) has no safety benefit; (2) is incompatible with the regulation prescribed by the Secretary; or (3) would cause an unreasonable burden on interstate commerce. 49 U.S.C. 31141(c)(4). To determine whether a State law or regulation will cause an unreasonable burden on interstate commerce, the Secretary may consider the cumulative effect that the State's law or regulation and all similar laws and regulations of other States will have on interstate commerce. 49 U.S.C. 31141(c)(5). The Secretary's authority under 49 U.S.C. 31141 is delegated to the FMCSA Administrator pursuant to 49 CFR 1.87(f).

Request for Comments

Although preemption under 49 U.S.C. 31141 is a legal determination reserved to the judgment of the Agency, FMCSA seeks comments on any issues raised in the petition or otherwise relevant ones. The Agency has placed the petition in the docket.

Issued on: May 3, 2019.

Raymond P. Martinez,
Administrator.
