SUPPLEMENTARY INFORMATION:

Background

On December 21, 2018, FMCSA granted petitions filed by the American Trucking Associations, Inc. and the Specialized Carriers and Rigging Association, and determined that the California MRB Rules, as applied to property-carrying CMV drivers subject to FMCSA's HOS regulations, are preempted under 49 U.S.C. 31141. (Docket No. FMCSA-2018-0304; 83 FR 67470 (December 28, 2018)). On January 10, 2019, the ABA submitted a petition to FMCSA seeking a determination that the same provisions of the California MRB Rules, as applied to passenger-carrying CMV drivers subject to FMCSA's HOS regulations, are also preempted under 49 U.S.C. 31141.

The ABA's petition states that the California Labor Code requires employers to "provide employees with a meal break of not less than 30 minutes for every five hours worked." Petition at

2 (citing Cal. Lab. Code § 512(a); California Code of Regulations (CCR) Section 11090(11)). In addition, the petition states that "every employer is required to 'authorize and permit' all employees to take rest periods, which insofar as practicable shall be in the middle of each work period, at the rate of ten minutes net rest time per four hours or major fraction thereof." *Id.* (quoting 8 CCR 11090(12)). This authorized rest period time must be "counted as hours worked for which there shall be no deduction from wages." *Id.* The petition further states, "[S]ection 226.7(b) of the California Labor Code states '[a]n employer shall not require an employee to work during a meal or rest or recovery period mandated pursuant to an applicable statute, or applicable regulation, standard, or order of the Industrial Welfare Commission . . .'" *Id.* (quoting Cal. Lab. Code § 226.7(b)).

In its petition, the ABA alleges that the California MRB Rules undermine existing Federal fatigue management rules for passenger carriers and that they conflict with driver attendance needs. Petition at 5-11. The petition also contends that it is difficult for drivers of passenger-carrying CMVs to comply with the MRB Rules due to the lack of adequate parking and due to Federal service and security requirements. *Id.* at 8-10. Lastly, the petition argues that the cost of complying with the MRB Rules creates an unreasonable burden on interstate commerce. *Id.* at 10-11.

Applicable Law

Section 31141 of title 49, United States Code, prohibits States from enforcing a law or regulation on CMV safety that the Secretary of Transportation (Secretary) has determined to be preempted. To determine whether a State law or regulation is preempted, the Secretary must decide whether a State law or regulation: (1) has the same effect as a regulation prescribed under 49 U.S.C. 31136, which is the authority for much of the Federal Motor Carrier Safety Regulations (FMCSRs); (2) is less stringent than such a regulation; or (3) is additional to or more stringent than such a regulation 49 U.S.C. 31141(c)(1).

If the Secretary decides that a State law or regulation has the same effect as a regulation prescribed under 49 U.S.C. 31136, the State law or regulation may be enforced. 49 U.S.C. 31141(c)(2). If the Secretary decides that a State law or regulation is less stringent than a regulation prescribed under 49 U.S.C. 31136, the State law or regulation may not be enforced. *Id.* § 31141(c)(3). If the Secretary decides that a State law or

regulation is additional to or more stringent than a regulation prescribed by the Secretary under 49 U.S.C. 31136, the State law or regulation may be enforced unless the Secretary decides that the State law or regulation (1) has no safety benefit; (2) is incompatible with the regulation prescribed by the Secretary; or (3) would cause an unreasonable burden on interstate commerce. *Id.* § 31141(c)(4). In deciding whether a State law or regulation will cause an unreasonable burden on interstate commerce, the Secretary may consider the cumulative effect that the State's law or regulation and all similar laws and regulations of other States will have on interstate commerce. *Id.* § 31141(c)(5). The Secretary's authority under 49 U.S.C. 31141 is delegated to the FMCSA Administrator by 49 CFR 1.87(f).

Request for Comments

Although preemption under 49 U.S.C. 31141 is a legal determination reserved to the judgment of the Agency, FMCSA seeks comments on any issues raised in the ABA's petition or otherwise relevant. The Agency has placed the petition in the docket.

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2019-0029]

Qualification of Drivers; Exemption Applications; Epilepsy and Seizure Disorders

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of applications for exemption; request for comments.

SUMMARY: FMCSA announces receipt of applications from six individuals for an exemption from the prohibition in the Federal Motor Carrier Safety Regulations (FMCSRs) against persons with a clinical diagnosis of epilepsy or any other condition that is likely to cause a loss of consciousness or any loss of ability to control a commercial motor vehicle (CMV) to drive in interstate commerce. If granted, the exemptions would enable these individuals who have had one or more seizures and are taking anti-seizure medication to operate CMVs in interstate commerce.

DATES: Comments must be received on or before June 10, 2019.

ADDRESSES: You may submit comments identified by the Federal Docket Management System (FDMS) Docket No. FMCSA–2019–0029 using any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- *Mail:* Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12–140, Washington, DC 20590–0001.

- *Hand Delivery:* West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal Holidays.

- *Fax:* 1–202–493–2251.

To avoid duplication, please use only one of these four methods. See the “Public Participation” portion of the **SUPPLEMENTARY INFORMATION** section for instructions on submitting comments.

II. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the FMCSRs for a five-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statute also allows the Agency to renew exemptions at the end of the five-year period. FMCSA grants exemptions from the FMCSRs for a two-year period to align with the maximum duration of a driver’s medical certification.

The six individuals listed in this notice have requested an exemption from the epilepsy and seizure disorders prohibition in 49 CFR 391.41(b)(8). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the

exemption will achieve the required level of safety mandated by statute.

The physical qualification standard for drivers regarding epilepsy found in 49 CFR 391.41(b)(8) states that a person is physically qualified to drive a CMV if that person has no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause the loss of consciousness or any loss of ability to control a CMV.

In addition to the regulations, FMCSA has published advisory criteria¹ to assist Medical Examiners in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce. [49 CFR part 391, APPENDIX A TO PART 391—MEDICAL ADVISORY CRITERIA, section H. *Epilepsy: § 391.41(b)(8)*, paragraphs 3, 4, and 5.]

The advisory criteria states the following:

If an individual has had a sudden episode of a non-epileptic seizure or loss of consciousness of unknown cause that did not require anti-seizure medication, the decision whether that person’s condition is likely to cause the loss of consciousness or loss of ability to control a CMV should be made on an individual basis by the Medical Examiner in consultation with the treating physician. Before certification is considered, it is suggested that a six-month waiting period elapse from the time of the episode. Following the waiting period, it is suggested that the individual have a complete neurological examination. If the results of the examination are negative and anti-seizure medication is not required, then the driver may be qualified.

In those individual cases where a driver had a seizure or an episode of loss of consciousness that resulted from a known medical condition (e.g., drug reaction, high temperature, acute infectious disease, dehydration, or acute metabolic disturbance), certification should be deferred until the driver has recovered fully from that condition, has no existing residual complications, and is not taking anti-seizure medication.

Drivers who have a history of epilepsy/seizures, off anti-seizure medication and seizure-free for 10 years, may be qualified to operate a CMV in interstate commerce. Interstate drivers with a history of a single unprovoked seizure may be qualified to drive a CMV

in interstate commerce if seizure-free and off anti-seizure medication for a five-year period or more.

As a result of Medical Examiners misinterpreting advisory criteria as regulation, numerous drivers have been prohibited from operating a CMV in interstate commerce based on the fact that they have had one or more seizures and are taking anti-seizure medication, rather than an individual analysis of their circumstances by a qualified Medical Examiner based on the physical qualification standards and medical best practices.

On January 15, 2013, FMCSA announced in a Notice of Final Disposition titled, Qualification of Drivers; Exemption Applications; Epilepsy and Seizure Disorders, (78 FR 3069), its decision to grant requests from 22 individuals for exemptions from the regulatory requirement that interstate CMV drivers have “no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause loss of consciousness or any loss of ability to control a CMV.” Since the January 15, 2013 notice, the Agency has published additional notices granting requests from individuals for exemptions from the regulatory requirement regarding epilepsy found in 49 CFR 391.41(b)(8).

To be considered for an exemption from the epilepsy and seizure disorders prohibition in 49 CFR 391.41(b)(8), applicants must meet the criteria in the 2007 recommendations of the Agency’s Medical Expert Panel (MEP) (78 FR 3069).

III. Qualifications of Applicants

Gary Bartels

Mr. Bartels is a 64-year-old class A3 CDL holder in South Dakota. He has a history of epilepsy and has been seizure free since 1994. He takes anti-seizure medication with the dosage and frequency remaining the same since 1994. His physician states that he is supportive of Mr. Bartels receiving an exemption.

Charles E. Davenport

Mr. Davenport is a 66-year-old class D driver in Tennessee. He has a history of a single unprovoked seizure and has been seizure free since 2007. He takes anti-seizure medication with the dosage and frequency remaining the same since 2008. His physician states that he is supportive of Mr. Davenport receiving an exemption.

Alan H. Finlayson

Mr. Finlayson is a 40-year-old class D driver in Alabama. He has a history of

epilepsy and has been seizure free since 2004. He takes anti-seizure medication with the dosage and frequency remaining the same since March 2011. His physician states that he is supportive of Mr. Finlayson receiving an exemption.

Gregory P. Long

Mr. Long is a 38-year-old class D driver in Connecticut. He has a history of epilepsy and has been seizure free since 1995. He takes anti-seizure medication with the dosage and frequency remaining the same since 1995. His physician states that he is supportive of Mr. Long receiving an exemption.

John McFarland

Mr. McFarland is a 39-year-old class D driver in Virginia. He has a history of epilepsy and has been seizure free since 2009. He takes anti-seizure medication with the dosage and frequency remaining the same since 2015. His physician states that he is supportive of Mr. McFarland receiving an exemption.

Scott Schelske

Mr. Schelske is a 48-year-old class D driver in South Dakota. He has a history of a seizure disorder and has been seizure free since 1999. He takes anti-seizure medication with the dosage and frequency remaining the same since 2009. His physician states that he is supportive of Mr. Schelske receiving an exemption.

IV. Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315, FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. We will consider all comments received before the close of business on the closing date indicated in the dates section of the notice.

Issued on: April 25, 2019.
