Western Area Power Administration

[DOE/EIS–0441]

Mohave County Wind Farm Project Record of Decision

AGENCY: Western Area Power Administration, DOE.

ACTION: Record of decision.

SUMMARY: NextEra Energy Resources, LLC (NextEra), through its entity Mohave County Wind Farm, LLC, proposes to develop its Mohave County Wind Farm Project (Project) and interconnect it to Western Area Power Administration’s (WAPA) Mead-Peacock 345-kilovolt (kV) transmission line. The Project site is located in the White Hills of Mohave County, Arizona, on lands managed by the U.S. Department of Interior, Bureau of Land Management (BLM) and Bureau of Reclamation (Reclamation). Based in part on the analysis in the final environmental impact statement (Final EIS), WAPA has determined to allow NextEra’s request for interconnection to WAPA’s transmission system on the Mead-Peacock 345-kV transmission line; to construct, own, operate, and maintain a new Project switchyard and associated communications equipment; and to replace or upgrade certain equipment in the Mead Substation to accommodate the Project.

FOR FURTHER INFORMATION CONTACT: For further information, please contact Mark Wieringa, NEPA Document Manager, Headquarters Office, Western Area Power Administration, A9402, P.O. Box 281213, Lakewood, CO 80228, telephone (720) 962–7448, or email wieringa@wapa.gov.

SUPPLEMENTARY INFORMATION: WAPA is a Federal agency within the Department of Energy (DOE) that markets and transmits wholesale electrical power through an integrated 17,000-circuit mile, high-voltage transmission system across 15 western states. WAPA’s Open Access Transmission Service Tariff provides open access to its electric transmission system. In reviewing interconnection requests, WAPA must ensure that existing reliability and service are not degraded. WAPA’s Large Generator Interconnection Procedures provides for transmission and system studies to ensure that system reliability and service to existing customers are not adversely affected by new interconnections.

In 2009, BP Wind Energy North America Inc. (BP Wind Energy) applied to the BLM and Reclamation for, respectively, right-of-way (ROW) and right-of-use (ROU) permits on public and Federal land to construct, operate, maintain, and eventually decommission a wind-powered electrical generation facility in Mohave County, Arizona. BP Wind Energy concurrently applied to interconnect its proposed Project to WAPA’s Liberty-Mead 345-kV transmission line or the Mead-Phoenix 500-kV transmission line, of which WAPA is a participating partner, and both traverse the Project area in adjacent ROWs. The proposed Project site is located in the White Hills of Mohave County about 40 miles northwest of Kingman, Arizona, and immediately south of the Lake Mead National Recreation Area (NRA) boundary (map 1–1 of the Final EIS). The proposed Project is described in the Final EIS and is outlined in detail in the associated BLM Plan of Development (POD). These documents and others related to the proposed Project can be found on the BLM’s website for the Project at https://explanning.blm.gov/epl-front-office/explanning/legacyProjectSite.do?methodName=renderLegacyProjectSite&projectId=77804.

In compliance with the National Environmental Policy Act (NEPA), as amended, and the Federal Land Policy and Management Act of 1976, as amended, the BLM as lead agency prepared and released a Draft EIS on April 27, 2012 (77 FR 25165), and subsequently held public meetings on
