This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Office of Workers' Compensation Programs is soliciting comments concerning the proposed collection: Claim for Reimbursement—Assisted Reemployment (CA–2231). A copy of the proposed information collection request can be obtained by contacting

the office listed below in the **ADDRESSES** section of this Notice.

**DATES:** Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before July 9, 2019.

#### SUPPLEMENTARY INFORMATION

*I. Background:* The Office of Workers' Compensation Programs (OWCP) administers the Federal Employees' Compensation Act (FECA) under 5 U.S.C. 8101 *et seq.* Section 8104(a) of the FECA provides vocational rehabilitation services to eligible injured workers to facilitate their return to work. The costs of providing these vocational rehabilitation services are paid from the Employees' Compensation Fund. Annual appropriations language (currently in Pub. L. 114–113), provides OWCP with legal authority to use amounts from the Fund to reimburse private sector employers for a portion of the salary of reemployed FECA claimants hired through OWCP's assisted reemployment program. Information collected on Form CA–2231 provides OWCP with the necessary remittance information for the employer, documents the hours of work, certifies the payment of wages to the claimant for which reimbursement is sought, and summarizes the nature and costs of the wage reimbursement program for a prompt decision by OWCP. This information collection is currently approved for use through September 30, 2019.

*II. Review Focus:* The Department of Labor is particularly interested in comments which:

- \* Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

*Title of Collection:* Evaluation of the National Science Foundation Advanced Technological Education Program.

*OMB Number:* 3145–NEW.

*Type of Request:* Intent to seek approval to establish an information collection.

*Abstract:* The ATE program is designed to (1) produce more qualified science and engineering technicians to meet workforce demands and (2) improve the technical skills and the general science, technology, engineering, and mathematics (STEM) preparation of these technicians and the educators who teach them. The ATE program provides federal funds through four tracks: Projects, centers, small grants for institutions new to the ATE program, and targeted research on technician education. The purpose of the outcomes study is to examine the capacity of academic institutions to educate STEM technicians, the partnerships between academic institutions and industry, the academic and employment outcomes of students, and the receipt of professional development by technical educators. To that end, the new collection of data for the outcomes study is a web survey of principal investigators (PIs) designed to collect new information about these topics and is scheduled to take place from April 2019 through September 2019. The population of interest consists of projects and centers—the tracks most likely to provide direct support for technician education—that first received funding between fiscal year (FY) 2011 and 2015 and includes awards that are currently active and those that have expired.

*Use of the Information:* The primary purpose of collecting this information is program evaluation. The data collected will enable NSF to describe program components that are implemented with ATE funds and will be used by NSF to monitor and improve the program and assess its merit and worth. The evaluation will also inform the design of a future impact evaluation.

*Expected Respondents:* The expected respondents are up to 204 ATE PIs who have received ATE funding since 2007.

*Estimate of Burden:* The collection occurs once for each respondent. The total estimate for this collection is 204 burden hours and \$5,146.

Dated: May 7, 2019.
