The drivers were included in docket numbers FMCSA–2000–7918; FMCSA–2003–14223; FMCSA–2010–0187. Their exemptions are applicable as of April 21, 2019, and will expire on April 21, 2021. As of April 24, 2019, and in accordance with 49 U.S.C. 31136(e) and 31315, the following individual, Gale L. Smith (PA), has satisfied the renewal conditions for obtaining an exemption from the vision requirement in the FMCSRs for interstate CMV drivers (78 FR 14405; 78 FR 24296; 80 FR 16509; 82 FR 15277).

The driver was included in docket number FMCSA–2013–0023. The exemption is applicable as of April 24, 2019, and will expire on April 24, 2021. In accordance with 49 U.S.C. 31315, each exemption will be valid for two years from the effective date unless revoked earlier by FMCSA. The exemption will be revoked if the following occurs: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained prior to being granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136 and 31315.

Issued on: May 8, 2019.

Larry W. Minor,
Associate Administrator for Policy.

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

[FTA Docket No. FTA 2019–0004]

Agency Information Collection Activity Under OMB Review

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice of request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the Federal Transit Administration (FTA) to request the Office of Management and Budget (OMB) to approve a revision of a previously approved information collection: Rail Fixed Guideway Systems; State Safety Oversight.

DATES: Comments must be submitted before July 15, 2019.

ADDRESSES: To ensure that your comments are not entered more than once into the docket, submit comments identified by the docket number by only one of the following methods:

1. Website: www.regulations.gov. Follow the instructions for submitting comments on the U.S. Government electronic docket site. (Note: The U.S. Department of Transportation’s (DOT’s) electronic docket is no longer accepting electronic comments.) All electronic submissions must be made to the U.S. Government electronic docket site at www.regulations.gov. Commenters should follow the directions below for mailed and hand-delivered comments.

3. Mail: U.S. Department of Transportation, 1200 New Jersey Avenue SE, Docket Operations, M–30, West Building, Ground Floor, Room W12–140, Washington, DC 20590–0001 between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays.

Instructions: You must include the agency name and docket number for this notice at the beginning of your comments. Submit two copies of your comments if you submit them by mail. For confirmation that FTA has received your comments, include a self-addressed stamped postcard. Note that all comments received, including any personal information, will be posted and will be available to internet users, without change, to www.regulations.gov. You may review DOT’s complete Privacy Act Statement in the Federal Register published April 11, 2000, (65 FR 19477), or you may visit www.regulations.gov. Docket: For access to the dockets, background documents and comments received, go to www.regulations.gov at any time. Background documents and comments received may also be viewed at the U.S. Department of Transportation, 1200 New Jersey Avenue SE, Docket Operations, M–30, West Building, Ground Floor, Room W12–140, Washington, DC 20590–0001 between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays.

FOR FURTHER INFORMATION CONTACT: Maria Wright, Office of Transit Safety & Oversight (202) 366–5922 or email: Maria1.Wright@dot.gov.

SUPPLEMENTAL INFORMATION: Interested parties are invited to send comments regarding any aspect of this information collection, including: (1) The necessity and utility of the information collection for the proper performance of the functions of the FTA; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the collected information; and (4) ways to minimize the collection burden without reducing the quality of the collected information. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection.

Title: Rail Fixed Guideway Systems; State Safety Oversight

(OMB Number: 2132–0558)

Background: FTA administers a national program for public transportation safety under 49 U.S.C. Section 5329. One element of this program, at 49 U.S.C. 5329(e), requires States to oversee the safety of the rail transit agencies (RTAs) in their jurisdictions, including heavy and light rail systems, streetcars, inclined planes, cable cars, monorail/automated guideways and hybrid rail. Through this program, State Safety Oversight Agencies (SSOAs) ensure that RTAs identify and address safety risks, follow their safety rules and procedures, and take corrective action to address safety deficiencies. This program, which only applies to RTAs, enhances and replaces the State Safety Oversight (SSO) program previously authorized at 49 U.S.C. 5330.

The previously authorized program required SSOAs to perform oversight without Federal grant funding available. As a result, the approved information collection includes burden hours associated with activities administered by SSO agencies to collect information from RTAs and activities performed by RTAs to provide information to SSOAs. FTA decided to include these burden hours to address concerns raised by SSOAs and RTAs regarding unfunded Federal requirements.

With the expiration of the previously authorized program, and the new Federal grant program for States, authorized at 49 U.S.C. 5329(e)(6), FTA wishes to amend the information collection activities to focus only on the activities of SSOAs and RTAs to report information to FTA. Activities included in the previous information collection request that are not specifically related to FTA information collection are removed from this information collection request and are addressed in the Regulatory Impact Assessment developed for the final rule implementing 49 U.S.C. 5329(e). This proposed change aligns with the Paperwork Reduction Act (PRA) of 1995, United States Office of Personnel

Department of Transportation

National Highway Traffic Safety Administration

Agency Information Collection Request Under OMB Review; Request for Comments

Agency: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

Action: Notice and request for comments.

Summary: In compliance with the Paperwork Reduction Act of 1995, this notice announces the Information Collection Request (ICR) abstracted below is being forwarded to the Office of Management and Budget (OMB) for review and comment. A Federal Register Notice with a 60-day comment period soliciting comments on the following information collection was published May 16, 2018. The agency did not receive any comments.

Dates: Comments must be submitted on or before June 13, 2019.

Addresses: Send comments regarding the burden estimate, including suggestions for reducing the burden, to the Office of Management and Budget, Attention: Desk Officer for the Office of Management and Budget, 1750 Pennsylvania Avenue NW, Washington, DC 20503.

For Further Information Contact:

Supplementary Information: Before a Federal agency can collect certain information from the public, it must receive approval from the Office of Management and Budget (OMB). In compliance with those requirements, this notice announces the following information collection request has been forwarded to OMB.

NHTSA published a Federal Register notice requesting public comment on this information collection.1 No comments were received.

The following describes the collection of information for which NHTSA intends to seek OMB approval. It is titled “Consolidated Child Restraint System Registration, Labeling and Defect Notifications.” (OMB Control Number: 2127–0576). NHTSA’s information collection for child restraint systems expired April 30, 2018; therefore, this request is a reinstatement of a previously approved collection of information.

Title: Consolidated Child Restraint System Registration, Labeling and Defect Notifications.

OMB Control Number: 2127–0576.

Type of Request: Reinstatement of a previously approved collection of information.

Abstract: The National Traffic and Motor Vehicle Safety Act, now codified at 49 U.S.C. 30111, authorizes the issuance of Federal Motor Vehicle Safety Standards (FMVSS). Moreover, under 49 U.S.C. 30117, the Secretary is also authorized to require manufacturers to provide information to first purchasers of motor vehicles or motor vehicle equipment when the vehicle equipment is purchased, in the form of printed matter placed in the vehicle or attached to the motor vehicle or motor vehicle equipment. The Secretary is authorized to issue, amend, and revoke such rules and regulations as he/she deems necessary.

Child restraint manufacturers are required to provide an owner’s registration card for purchasers of child safety seats in accordance with title 49 of the Code of Federal Regulation (CFR), Part 571.213, “Child restraint systems.” The registration card is perforated into two-parts (see Figures 1 and 2). The top part contains a message and suitable instructions to be retained by the purchaser. The bottom part is to be returned to the manufacturer by the purchaser. The bottom part includes prepaid return postage, the pre-printed name/address of the manufacturer, the pre-printed model and date of manufacture, and spaces for the purchaser to fill in his/her name and address. Optionally, child restraint manufacturers are permitted to add to the registration form: (a) Specified statements informing CRS owners that they may register online; (b) the internet address for registering with the company; (c) revisions to statements reflecting use of the internet to register; and (d) a space for the consumer’s email address. For those CRS owners with access to the internet, online registration may be a preferred method of registering a CRS.

In addition to the registration card supplied by the manufacturer, NHTSA has implemented a CRS registration system to assist those individuals who have either lost the registration card that came with the CRS or purchased a previously owned CRS. Upon the owner’s request, NHTSA provides a substitute registration form that can be obtained either by mail or from the internet2 (see Figure 3). When the completed registration is returned to the agency, it is then submitted to CRS manufacturers. In the absence of a substitute registration system, many owners of child passenger safety seats, especially any second-hand owners, might not be notified of safety defects and noncompliances and would not have the defects and noncompliances remedied.

Child seat owner registration information is retained in the event owners need to be contacted for defect recalls or replacement campaigns. Chapter 301 of title 49 of the United States Code specifies that if either NHTSA or a manufacturer determines that motor vehicles or items of motor vehicle equipment contain a defect that relates to motor vehicle safety or fails to comply with an applicable Federal

1 83 FR22744 (May 16, 2018).
