Revisions to Section II.C of the PSR Policy

The Board proposes to revise Section II.C of the “Federal Reserve Policy on Payment System Risk” as follows:

C. Pricing

* * * * *

* * * * *

Daylight overdraft fees for uncollateralized overdrafts (or the uncollateralized portion of a partially collateralized overdraft) are calculated using an annual rate of 50 basis points, quoted on the basis of a 24-hour day and a 360-day year. To obtain the effective annual rate for the standard Fedwire operating day, the 50-basis point annual rate is multiplied by the fraction of a 24-hour day during which Fedwire is scheduled to operate. For example, under a 22-hour scheduled Fedwire operating day, the effective annual rate used to calculate daylight overdraft fees equals 45.83 basis points (50 basis points multiplied by 22/24).33 The effective daily rate is calculated by dividing the effective annual rate by

30 +/−/− that only post at 5:00 p.m.; paper returns of same-day forward items that only post at 6:00 p.m.; and FedLine Web returns and FedLine Web NOCs that only post at 8:30 a.m. and 5:00 p.m., depending on when the item is received by Reserve Banks.

32 With the exception of paper returns of same-day forward items that only post at 6:00 p.m.

33 With the exception of paper returns and paper notifications of change (NOCs) of prior-dated items that only post at 5:00 p.m.; and FedLine Web returns and FedLine Web NOCs that only post at 8:30 a.m. and 5:00 p.m., depending on when the item is received by Reserve Banks.

34 A change in the length of the scheduled Fedwire operating day should not significantly change the amount of fees charged because the effective daily rate is applied to average daylight overdrafts, the calculation of which would also reflect the change in the operating day.

35 Under the current 22-hour Fedwire operating day, the effective daily daylight overdraft rate is equal to the effective annual rate multiplied by the institution’s average daily uncollateralized daylight overdraft.

36 Under the current 22-hour Fedwire operating day, the effective daily daylight-overdraft penalty rate is truncated to 0.0000382.

Submission for OMB Review; Comment Request

Title: Tribal Maternal, Infant, and Early Childhood Home Visiting Program Form 1: Demographic and Service Utilization Data.

Description: Description: The Bipartisan Budget Act of 2018 (Pub. L. 115–123), Section 511(h)(2)(A) of Title V of the Social Security Act, created the Maternal, Infant, and Early Childhood Home Visiting Program (MIECHV) and authorized the Secretary of HHS (in Section 511(h)(2)(A)) to award grants to Indian tribes (or a consortium of Indian tribes), tribal organizations, or urban Indian organizations to conduct an early childhood home visiting program. The legislation set aside 3 percent of the total MIECHV program appropriation for grants to tribal entities. Tribal MIECHV grants, to the greatest extent practicable, are to be consistent with the requirements of the MIECHV grants to states and jurisdictions and include conducting a needs assessment and establishing quantifiable, measurable benchmarks.

The Administration for Children and Families, Office of Child Care, in collaboration with the Health Resources and Services Administration, Maternal and Child Health Bureau, awards grants for the Tribal MIECHV Program. The Tribal MIECHV grant awards support 5-year cooperative agreements to conduct community needs assessments, plan for and implement high-quality, culturally-relevant, evidence-based home visiting programs in at-risk Tribal communities, and participate in research and evaluation activities to build the knowledge base on home visiting among Native populations.

In Year 1 of the cooperative agreement, grantees must (1) conduct a comprehensive community needs and readiness assessment and (2) develop a plan to respond to identified needs. Following each year that Tribal MIECHV grantees implement home visiting services, they must submit Form 1: Demographic and Service Utilization Data. The Form 1 data are used to help ACF better understand the population receiving services from Tribal MIECHV grantees and the degree to which they are using services, as well as better understanding of the Tribal MIECHV workforce. Overall, this information collection will provide valuable information to HHS that will guide understanding of the Tribal MIECHV Program and the provision of technical assistance to Tribal MIECHV Program grantees.

Sherrri Berger, Chief Operating Officer, Centers for Disease Control and Prevention.
