specific usage data into the listed species consultation process. The pilot BEs relied on use assumptions from pesticide product labels to represent where the pilot chemicals were likely to be applied (e.g., applied to all labelled crops at maximum application rates simultaneously). The revised method proposes to incorporate usage data (e.g., survey data, including actual application rates) in the determination of where a pesticide is likely to be applied.

Second, based on the accuracy of the spatial data utilized and the conservative assumptions related to the action area and potential drift, EPA is interpreting a <1% overlap of listed species’ ranges with potential use sites as unreliable and not representative of real exposure potential.

Third, EPA’s revised method proposes the use of probabilistic methods to determine the likelihood of a species to be adversely affected by a pesticide. The goal of the probabilistic analysis is to more fully capture and characterize the variability in the range of potential exposures and toxicological effects to listed species and to better inform the biological opinion.

The fourth major area of revision is to apply a weight-of-evidence framework to distinguish those listed species that are likely to be adversely affected (LAA) from those that are not likely to be adversely affected (NLAA), based on criteria (e.g., dietary preferences, migration patterns, extent of range potentially exposed) associated with the likelihood that an individual will be exposed and affected.

D. Public Comments Sought

EPA is seeking comment on the draft revised method for assessing risk to listed species, and is specifically interested in comments regarding the degree to which the following aspects of its draft revised method are reasonable and represent advances in the pilot methodologies for assessing risk to listed species: (1) The proposed methodology for incorporating usage data into Steps 1 and 2 of the BE; (2) The proposed interpretation that a <1% overlap of listed species’ ranges with potential use sites is unreliable, based on the accuracy of the underlying data, and does not represent real-world exposure; (3) The proposed approach for introducing components of probabilistic analyses into the BE; and (4) The proposed weight-of-evidence framework.

III. Public Meeting

EPA will host a public meeting, along with representatives from the Services and USDA, to present the draft revised method and to provide an additional opportunity for the public to provide feedback. This meeting is an opportunity for stakeholders and agencies to continue their dialogue on the technical aspects of implementing the NAS recommendations, building on public meetings held in November 2013, April and October 2014, April 2015, and June 2016, and furthers the agencies’ goal of developing a sustainable methodology and process for assessing pesticide impacts on listed species that is efficient, inclusive, and transparent.

Date: The meeting will be held on Monday, June 10, 2019 from 9:00 a.m. to 12:00 noon, E.S.T. Additional meeting details, including an agenda, teleconference and webinar information, will be available shortly in the docket.

Accommodations requests: To request accommodation of a disability, please contact the person listed under FOR FURTHER INFORMATION CONTACT, preferably at least 10 days prior to the meeting to give EPA as much time as possible to accommodate your request.

Requests to participate: You must register by Thursday, May 30, 2019 to attend either in person or via teleconference/webinar. Public comments may be made during the oral comment session of the meeting. Requests to participate in the meeting and to make oral comments must be submitted to the person listed under FOR FURTHER INFORMATION CONTACT.

Supplementary Information: Title: Request for Dispute Resolution Service—Cruise.

OMB Control Number: 3072–0072.

Type of Review: Information Collection Revision.

Frequency of Response: On occasion.

Respondents/Affected Public: Companies or individuals seeking ombuds or mediation assistance from the Federal Maritime Commission’s Office of Consumer Affairs and Dispute Resolution Services.

Estimated Total Number of Potential Annual Responses: 500.

Estimated Total Number of Responses From Each Respondent: 1.

Estimated Total Annual Burden Hours per Response: 20 minutes.

Total Estimated Number of Annual Burden Hours: 167.

Abstract: This is a revision to the currently-approved FMC Form–32 (Request for Dispute Resolution Service—Cruise). When requested by the public and the regulated industry, the FMC, through CADRS, provides ombuds and mediation services to assist parties in resolving passenger vessel (cruise) disputes without resorting to litigation or administrative adjudication. These functions focus on addressing issues that members of the regulated industry and the public may encounter...
at any stage of a commercial or customer dispute. In order to provide its ombuds and mediation services, CADRS needs certain identifying information about the involved parties and nature of the dispute. In response to requests for assistance from the public, CADRS requests this information from parties seeking its assistance. The collection and use of this information on a cruise dispute is integral to CADRS staff’s ability to efficiently review the matter and provide assistance. Aggregated information may be used for statistical purposes. [http://www.fmc.gov/resources/requesting_cadrs_assistance.aspx]

The proposed revision to Form FMC–32 would add a request for booking or ticket contract number and would remove a request to indicate whether the cruise departed from a U.S. port.

As required by the Administrative Dispute Resolution Act (ADRA), 5 U.S.C. 571 et seq., the information contained in these forms is treated as confidential and subject to the same confidentiality provisions as administrative dispute resolutions pursuant to 5 U.S.C. 574. Except as specifically set forth in 5 U.S.C. 574, neither CADRS staff nor the parties to a dispute resolution shall disclose any informal dispute resolution communication.

This information collection is subject to the PRA. The FMC may not conduct or sponsor a collection of information, and the public is not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Request for Comments: The FMC solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics: (1) Whether the collection of information described above is necessary for the proper performance of the Commission’s functions, including whether the information would have practical utility; (2) whether the estimated burden of the proposed collection of information is accurate; (3) whether the quality, utility, and clarity of the information to be collected could be enhanced; and (4) whether the burden imposed by the collection of information could be minimized by use of automated, electronic, or other forms of information technology.

The FMC will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.10. FMC will issue another Federal Register announcement pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have questions about this ICR or the approval process, please contact the person listed under FOR FURTHER INFORMATION CONTACT.

Authority: 46 U.S.C. 44101 et seq.

Rachel Dickon,
Secretary.

FEDERAL MARITIME COMMISSION
[Docket No. 19–03]

Muhammad Rana, Complainant v. Michelle Franklin, d.b.a. “The Right Move Inc.”, Respondent; Notice of Filing of Complaint and Assignment

Notice is given that a complaint has been filed with the Federal Maritime Commission (Commission) by Muhammad J. Rana, hereinafter “Complainant”, against Michelle Franklin, d.b.a. “The Right Move Inc.”, hereinafter “Respondent”. Complainant states that he “...is a U.S. citizen who was temporarily relocating his residence from Alexandria, Virginia to Islamabad, Pakistan.” Complainant states that Respondent “...is an individual ocean shipping/freight forwarder doing business as “The Right Move, Inc.”” with FMC Registration #023229N.

Complainant states that “On February 6, 2019, [he] and the [R]espondent entered into an agreement through electronic mail where the [C]omplainant retained the services of the [R]espondent.” Complainant alleges that the Respondent agreed to “...arrange for the pick-up of [C]omplainant’s household goods of personal effect in a 20-foot container and ship/deliver it to the Port Qasim, Karachi, Pakistan for pick up by the [C]omplainant.” Complainant alleges that he could not receive his container “...because ocean freight/shipping charges had not been paid by the [R]espondent.” Complainant alleges that Respondent’s failure to pay ocean freight charges and uncooperativeness in providing proof such charges were paid “...constitute an unreasonable practice related to the delivery of property in violation of 46 U.S.C. 41102(c) [formerly § 10(d)(1) of the Shipping Act].”

Complainant requests that the Commission: award $4,509.40 in compensatory damages, over $77,000 in other damages; revoke the Respondent’s FMC license; and “issue further order(s) as the Commission determines to be proper”; and other relief. The full text of the complaint can be found in the Commission’s Electronic Reading Room at [https://www2.fmc.gov/readingroom/proceeding/19-03/]

This proceeding has been assigned to Office of Administrative Law Judges. The initial decision of the presiding office in this proceeding shall be issued by May 13, 2020, and the final decision of the Commission shall be issued by November 30, 2020.

FEDERAL RESERVE SYSTEM
[Docket No. OP–1664]

Potential Modifications to the Federal Reserve Banks’ National Settlement Service and Fedwire® Funds Service To Support Enhancements to the Same-Day ACH Service and Corresponding Changes to the Federal Reserve Policy on Payment System Risk, Request for Comments

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Notice and request for public comment.

SUMMARY: The Board of Governors (Board) is requesting comment on potential modifications to the Federal Reserve Banks’ (Reserve Banks) payment services to facilitate adoption of a later same-day automated clearinghouse (ACH) processing and settlement window. Specifically, the Reserve Banks would extend the daily operating hours of the National Settlement Service (NSS) to allow the private-sector ACH operator to settle its in-network transactions resulting from the later same-day ACH window. To support these new NSS operating hours, the Reserve Banks would extend the daily operating hours of the Fedwire® Funds Service, creating implications for extension policies for contingencies that might result in more frequent delays to the reopening of the Fedwire® Funds Service. Finally, the Board is requesting...
