should ensure that they meet the requirements of these procedures (e.g., the filing of letters of appearance as discussed at 19 CFR 351.103(d)).

This notice is issued and published pursuant to sections 702 and 777(i) of the Tariff Act of 1930, as amended (19 U.S.C. 1677(b)), and Sections 703 and 731 of the Tariff Act of 1930, as amended (19 U.S.C. 1673 and 1671, respectively) and Sections 773, 774, and 777 of Title 19, U.S.C., and Sections 351, 355, 356, 357, and 359 of Title 19, U.S.C. The subject merchandise is currently classifiable under 0813.40.3000 of the Harmonized Tariff Schedule of the United States (HTSUS). The subject merchandise may also enter under subheadings 0813.40.9000, 0813.50.0200, 0813.50.0060, 2006.00.2000, 2006.00.5000, and 2008.60.0600. The HTSUS subheadings set forth above are provided for convenience and U.S. customs purposes only. The written description of the scope is dispositive.

DEPARTMENT OF COMMERCE
International Trade Administration

Circular Welded Carbon Quality Steel Pipe From the People’s Republic of China: Preliminary Results of Antidumping Administrative Review and Partial Rescission; 2017–2018

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that none of the companies under review have demonstrated eligibility for a separate rate during the period of review (POR) July 1, 2017, through June 30, 2018. Interested parties are invited to comment on these preliminary results.

SUPPLEMENTARY INFORMATION:

Background

After initiating this review of 128 companies, the following events occurred. Zekelman Industries (Zekelman), a domestic interested party, timely withdrew its request for an administrative review of 20 companies. Commerce issued an antidumping duty questionnaire to Beijing Bell Plumbing Manufacturing Ltd (Beijing Bell). Beijing Bell did not respond to the questionnaire. Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018, through the resumption of operations on January 29, 2019. If the new deadline falls on a non-business day, in accordance with Commerce’s practice, the deadline will become the next business day. The revised deadline for the preliminary results of review is now May 13, 2019. For a complete description of the events that followed the initiation of this administrative review, see the Preliminary Decision Memorandum hereby adopted by this notice.

Scope of the Order

The merchandise subject to the order is certain welded carbon quality steel pipes and tubes, of circular cross-section, and with an outside diameter of 0.372 inches (9.45 mm) or more, but not more than 16 inches (406.4 mm), whether or not stenciled, regardless of wall thickness, surface finish (e.g., black, galvanized, or painted), end finish (e.g., plain end, beveled end, grooved, threaded, or threaded and coupled), or industry specification (e.g., ASTM, proprietary, or other), generally known as standard pipe and structural pipe (they may also be referred to as circular, structural, or mechanical tubing).

The pipe products that are the subject of the order are currently classifiable in HTSUS statistical reporting numbers 7306.30.10.00, 7306.30.50.25, 7306.30.50.32, 7306.30.50.40, 7306.30.50.55, 7306.30.50.85, 7306.30.50.90, 7306.50.10.00, 7306.50.50.50, 7306.50.50.70, 7306.19.10.10, 7306.19.10.50, 7306.19.51.10, and 7306.19.51.50. However, the product description, and not the Harmonized Tariff Schedule of the United States (HTSUS) classification, is dispositive of whether merchandise imported into the United States falls within the scope of the order.

Partial Rescission

Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in

2 See Memorandum to the Record from Gary Taverman, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance, “Deadlines Affected by the Partial Shutdown of the Federal Government,” dated January 28, 2019. All deadlines in this segment of the proceeding have been extended by 40 days.

3 See the Memorandum from Commerce, “Decision Memorandum for the Preliminary Results of the Antidumping Duty Administrative Review of Circular Welded Carbon Quality Steel Pipe from the People’s Republic of China,” dated concurrently with this notice (Preliminary Decision Memorandum).

4 See Preliminary Decision Memorandum for full scope language.
part, if a party that requested the review withdraws its request within 90 days of the date of publication of the notice of initiation of the requested review. Zekelman withdrew its request to review 20 companies within 90 days of the date of publication of Initiation Notice; however, Independence Tube Corporation, and Southland Tube Incorporated, which are Nucor companies (collectively, the petitioners), did not withdraw their request to review 122 companies, including all but three of the companies for which Zekelman withdrew its review request. Thus, Zekelman, the only party to request a review of the six companies listed below, timely withdrew its request for an administrative review of these three companies. Accordingly, Commerce is rescinding this review, in part, with respect to the following companies, in accordance with 19 CFR 351.213(d)(1): (1) Beijing Jia Mei Ao Trade Co., Ltd.; (2) Beijing Jinghau Global Trading Co.; (3) Benxi Northern Steel Pipes, Co., Ltd.; (4) ETCO (China) International Trading Co., Ltd.; (5) Huludao City Steel Pipe Industrial; and (6) Tianjin Shuanjie Steel Pipe Co., Ltd.

Methodology

Commerce is conducting this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act). For a full description of the methodology underlying these preliminary results of review, see the Preliminary Decision Memorandum. A list of topics discussed in the Preliminary Decision Memorandum is provided in Appendix I to this notice.

The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at http://access.trade.gov and in the Central Records Unit, Room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Results Decision Memorandum can be accessed directly on the internet at http://enforcement.trade.gov/frr/index.html. The signed and the electronic versions of the Preliminary Decision Memorandum are identical in content.

Separate Rates

In proceedings involving NME countries, Commerce begins with a rebuttable presumption that all companies within the NME country are subject to government control and that a single weighted-average dumping margin (e.g., the China-wide rate) is applicable to all exporters under review unless an exporter can demonstrate that it is sufficiently independent so as to be entitled to a separate rate. None of the companies under review filed a separate rate application, separate rate certification, or no shipment certification. Moreover, the sole mandatory respondent, Beijing Bell, did not respond to the AD questionnaire. Therefore, Commerce preliminarily determines that none of the companies under review are entitled to a separate rate and has treated them as part of the China-wide entity. For additional information regarding Commerce’s separate rates determination, see the Preliminary Decision Memorandum.

Preliminary Results of Review

As noted above, none of the companies under review are entitled to a separate rate and thus we have treated them as part of the China-wide entity. Because no party requested a review of the China-wide entity, the entity is not under review and the entity’s rate (i.e., 85.55 percent) is not subject to change in this review. The companies under review that are being treated as part of the China-wide entity are listed in Appendix II to this notice.

Public Comment

Interested parties are invited to comment on the preliminary results of this review and may submit case briefs and/or written comments, filed electronically using ACCESS, within 30 days of the date of publication of this notice, pursuant to 19 CFR 351.309(c)(1)(ii). Rebuttal briefs, limited to issues raised in the case briefs, will be due five days after the due date for case briefs, pursuant to 19 CFR 351.309(d). Parties who submit case or rebuttal briefs in this review are requested to submit with each argument a statement of the issue, a summary of the argument not to exceed five pages, and a table of statutes, regulations, and cases cited, in accordance with 19 CFR 351.309(c)(2).

Pursuant to 19 CFR 351.310(c), interested parties, who wish to request a hearing must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, filed electronically using ACCESS. Electronically filed case briefs/written comments and hearing requests must be received successfully in their entirety by Commerce’s electronic records system, ACCESS, by 5:00 p.m. Eastern Time, within 30 days after the date of publication of this notice. Hearing requests should contain: (1) The party’s name, address and telephone number; (2) the number of participants; and (3) a list of issues to be discussed. Issues raised in the hearing will be limited to those issues raised in the respective case briefs. If a request for a hearing is made, parties will be notified of the time and date of the hearing which will be held at the U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington DC 20230.

Unless extended, Commerce intends to issue the final results of this administrative review, including the results of its analysis of the issues raised in any written briefs, not later than 120 days after the date of publication of this notice, pursuant to section 751(a)(3)(A) of the Act.

Assessment Rates

Upon issuance of the final results of this review, Commerce will determine, and CBP shall assess, antidumping duties on all appropriate entries covered by this review. Commerce intends to issue assessment instructions to CBP 15 days after the publication date of the final results of this review. If our preliminary results of review are unchanged in the final results of review, Commerce intends to instruct CBP to liquidate all POR entries of subject merchandise from any of the 121 companies under review at 85.55 percent (the China-wide rate).

For companies for which the review has been rescinded, Commerce will instruct CBP to assess antidumping duties on entries of subject merchandise at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from
warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i).

**Cash Deposit Requirements**

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of review, as provided by section 751(a)(2)(C) of the Act: (1) For previously investigated or reviewed Chinese and non-Chinese exporters and importers which are not under review in this segment of the proceeding but which have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (2) for all Chinese exporters of subject merchandise that have not been granted a separate rate, including Beijing Bell, the cash deposit rate will be the China-wide rate of 85.55 percent; and (3) for all non-Chinese exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the Chinese exporter(s) that supplied that non-Chinese exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

**Notification to Importers**

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(d)(4) and 351.221(b)(4).

Jeffrey I. Kessler,
Assistant Secretary for Enforcement and Compliance.

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Aldo’s Seawall Replacement Project in Santa Cruz, California

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of an incidental harassment authorization.

SUMMARY: In accordance with the regulations implementing the Marine Mammal Protection Act (MMPA) as amended, notification is hereby given that NMFS has issued an incidental harassment authorization (IHA) to the Santa Cruz Port District (Port District) to incidentally harass, by Level A and Level B harassment only, marine mammals during pile driving activities associated with the Aldo’s Seawall Replacement Project in Santa Cruz, California (CA).

DATES: This authorization is effective from June 1, 2019 through May 31, 2020.

FOR FURTHER INFORMATION CONTACT: Amy Fowler, Office of Protected Resources, NMFS, (301) 427–8401. Electronic copies of the application and supporting documents, as well as a list of the references cited in this document, may be obtained online at: https://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-construction-activities. In case of problems accessing these documents, please call the contact listed above.

SUPPLEMENTARY INFORMATION:

Background

The MMPA prohibits the “take” of marine mammals, with certain exceptions. Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 et seq.) direct the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed incidental take authorization may be provided to the public for review. Authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s) and will not have an unmitigable adverse impact on the availability of the species or stock(s) for taking for subsistence uses (where relevant). Further, NMFS must prescribe the permissible methods of taking and other “means of effecting the least practicable [adverse] impact” on the affected species or stocks and their habitat, paying particular attention to rookeries, mating grounds, and areas of similar significance, and on the availability of such species or stocks for taking for certain subsistence uses (referred to in shorthand as ‘‘mitigation’’); and requirements pertaining to the mitigation, monitoring and reporting of such takings are set forth.

Summary of Request

On August 27, 2018, NMFS received a request from the Port District for an IHA to take marine mammals incidental to the Aldo’s Seawall Replacement Project in the Santa Cruz Small Craft Harbor (harbor). The application was deemed adequate and complete on March 21, 2019. The Port District’s request was for take of four species of marine mammals by Level B harassment and Level A harassment. Neither the Port District nor NMFS expect serious injury or mortality to result from this activity and therefore, an IHA is appropriate.

Description of Activity

The Port District is planning to replace the existing seawall located below Aldo’s Restaurant along the southwest bank of the Santa Cruz Small Craft Harbor. The project involves demolishing the existing restaurant structure and timber pile supported restaurant deck, modifying a dock gangway landing, removing timber piles supporting the public wharf, removing and reinstalling rip-rap to accept the new sheet pile wall, predrilling for new sheet piles, and installing a new steel sheet pile seawall with concrete pile cap and tie-backs in front of the existing seawall. Four 16-inch (in) (40.6 centimeter (cm)) timber piles supporting the public wharf will be permanently removed using a vibratory hammer. Ninety steel sheet piles will be installed using vibratory and impact hammers. Sounds produced by these activities may result in take, by Level A and Level B harassment, of marine mammals within and outside of the harbor.

In-water work associated with the project is expected to occur on 28 non-consecutive days between June 15, 2019 and November 1, 2019. Work will be limited to daylight hours only, and timed to occur at low tide, as feasible. A detailed description of the planned activities is provided in the Federal Register notice announcing the proposed IHA (84 FR 13892; April 8, 2019). Since that time, no changes have been made to the Port District’s planned activities. Therefore, a detailed description is not provided here. Please refer to that Federal Register notice for the description of the specific activity.

Comments and Responses

A notice of NMFS’ proposal to issue an IHA to the Port District was published in the Federal Register on April 8, 2019 (84 FR 13892). That notice described, in detail, the Port District’s activity, the marine mammal species that may be affected by the activity, the anticipated effects on marine mammals and their habitat, proposed amount and manner of take, and proposed mitigation, monitoring and reporting measures. On May 6, 2019, NMFS received a comment letter from the Marine Mammal Commission (Commission); the Commission’s recommendations and our responses are provided here, and the comments have been posted online at: https://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-construction-activities. The Commission recommended that NMFS issue the IHA, subject to inclusion of the proposed mitigation, monitoring, and reporting measures.

Comment 1: The Commission questioned whether the public notice provisions for IHA Renewals fully satisfy the public notice and comment provision in the MMPA and discussed the potential burden on reviewers of reviewing key documents and developing comments quickly. Therefore, the Commission recommended that NMFS use the IHA Renewal process sparingly and selectively for activities expected to have the lowest levels of impacts to marine mammals and that require less complex analysis.

Response: NMFS has taken a number of steps to ensure the public has adequate notice, time, and information to be able to comment effectively on IHA Renewals within the limitations of...
