

the Census block level. While the Census block system provides a very high level of geographic granularity overall—the United States is divided into over 11 million blocks, 95 percent of which do not exceed 1 square mile in land area—it is possible that broadband availability may vary within a single block, (which is most common in rural areas). Additionally, broadband service providers who wish to share more granular data on broadband availability—including regulated and non-regulated entities—have no mechanism to do so. Further, a broadband service provider offering service to any homes or businesses in a Census block is instructed to report that block as served in its Form 477 filing, even though it may not offer broadband services in most of the block. This can lead to overstatements in the level of broadband availability, especially in rural areas where Census blocks are large or when services are only available near the boundaries of a Census block.

As a result of these requirements and constraints, NTIA has developed this voluntary collection of broadband availability data, at a more granular level than that available via current Federal programs (including the FCC Form 477 process). This data will be used to analyze and map broadband availability across the country, and particularly in rural areas, for the purposes of public policy-making and public investment analysis and decision-making. This information collection covers the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Island Areas of American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, and the United States Virgin Islands.

The data to be collected includes geographic information on service availability—such as address, address range, road centerline, land-parcel identification, or latitude/longitude—and corresponding broadband availability data (such as technology service type, upload and download speed, etc.) Data in a Geographic Information Systems (GIS) format that describe (a) wireless coverage areas based on a propagation model and (b) network infrastructure (such as fiber optic routes) is also responsive. The information collection will be administered through an online file transfer tool. NTIA will not require that respondents modify appropriate data sets, with the exception that Personally Identifiable Information (PII) should be removed prior to transmission to NTIA.

Affected Public: NTIA intends to collect this information from two types

of respondents that collect broadband data with more geographic granularity than the Census block level: (1) Owners and operators of broadband networks; and (2) industry associations, data aggregators, and researchers that study or analyze broadband availability. Respondents may include private companies, non-profits, cooperatives, educational institutions, tribal governments, and local, regional, or state governments. This information collection includes the use of both wireline and wireless technologies to deliver broadband services.

Frequency: Bi-annual. Recognizing the regulatory requirements and deadlines of broadband service providers, NTIA has aligned the due dates for this information collection to trail the bi-annual FCC Form 477 reporting submitted by service providers. Data should be submitted to NTIA on November 1 and May 1 of each year. While NTIA intends to collect information twice a year on these dates, NTIA's online system will not foreclose an entity from submitting information at any other time during the year or more than twice a year if the entity voluntarily chooses to do so.

Respondent's Obligation: Voluntary. This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510-60-P

DEPARTMENT OF DEFENSE

Department of the Air Force

U.S. Air Force Software Licensing Availability

AGENCY: Air Force Research Laboratory Information Directorate, Rome, New York, Department of the Air Force, DoD.

ACTION: Notice of availability to license software.

SUMMARY: Under the 2014 National Defense Authorization Act, the Department of the Air Force announces the availability of DATA SCULPTOR VERSION 1 AND DATA SCULPTOR

VERSION 2 SOURCE CODE AND SOFTWARE DOCUMENTATION (collectively "Software") for non-exclusive, partially exclusive, and exclusive field of use licensing of any right, title and interest the United States Air Force has therein.

FOR FURTHER INFORMATION CONTACT:

Written inquiries should be sent to: Stephen Colenzo, Air Force Research Laboratory, Office of Research and Technology Applications (ORTA), AFRL/RIBA, 26 Electronic Parkway, Rome, New York 13441-4514.

Telephone: (315) 330-7665. Electronic inquiries should be sent to stephen.colenzo@us.af.mil.

Carlinda N. Lotson,

Acting Air Force Federal Register Liaison Officer.

BILLING CODE 5001-10-P

DEPARTMENT OF DEFENSE

Office of the Secretary

Department of Defense Military Family Readiness Council; Notice of Federal Advisory Committee Meeting

AGENCY: Under Secretary of Defense for Personnel and Readiness, Department of Defense.

ACTION: Notice of Federal Advisory Committee meeting.

SUMMARY: The Department of Defense (DoD) is publishing this notice to announce that the following Federal Advisory Committee meeting of the Department of Defense Military Family Readiness Council will take place.

DATES: Thursday, June 13, 2019 from 10:00 a.m. to 12:00 p.m.

ADDRESSES: Pentagon, 1155 Defense Pentagon, PLC2 Pentagon Library & Conference Center, Room B6, Washington, DC 20301.

FOR FURTHER INFORMATION CONTACT:

William Story, (571) 372-5345 (Voice), (571) 372-0884 (Facsimile), OSD Pentagon OUSD P-R Mailbox Family Readiness Council, osd.pentagon.ousd-p-r.mbx.family-readiness-council@mail.mil (Email). Mailing address is: Office of the Deputy Assistant Secretary of Defense (Military Community & Family Policy), Office of Family Readiness Policy, 4800 Mark Center Drive, Alexandria, VA 22350-2300, Room 3G15. Website: <https://www.militaryonesource.mil/leaders-service-providers/military-family-readiness-council>.

SUPPLEMENTARY INFORMATION: This meeting is being held under the
