Renewable Energy Aggregators; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On January 10, 2019, Renewable Energy Aggregators, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Eastern Industries Pumped Storage Hydroelectric Project to be located in Dauphin County, Pennsylvania. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) A new upper reservoir with a surface area of 62 acres and a storage capacity of 929.9 acre-feet at a surface elevation of approximately 1,343 feet above mean sea level (msl) created through construction of a new roller-compacted concrete or rock-filled dam; (2) a new lower reservoir with a surface area of 22.3 acres and a total storage capacity of 1,337.9 acre-feet at a surface elevation of 1,057 feet msl; (3) a new 834-foot-long, 48-inch-diameter penstock connecting the upper and lower reservoirs; (4) a new 150-foot-long, 50-foot-wide powerhouse containing one turbine-generator unit with a total rated capacity of 20 megawatts; (5) a new transmission line connecting the powerhouse to a nearby electric grid interconnection point with options to evaluate multiple grid interconnection locations; and (6) appurtenant facilities. The proposed project would have an annual generation of 88,434 megawatt-hours.
