("Kayem") violated Section 112(r)(7) of the Clean Air Act, 42 U.S.C. 7412(r)(7), at Kayem's food processing facility located in Chelsea, Massachusetts. Section 112(r)(7) of the CAA, 42 U.S.C. 7412(r)(7), provides that the Administrator of the EPA is authorized to promulgate regulations requiring owners or operators of a stationary source at which a regulated substance is present in more than a threshold amount to, among other things, prepare and implement a risk management plan to detect and prevent or minimize accidental releases of regulated substances from the stationary source, and to provide a prompt emergency response to any such releases in order to protect human health and the environment. EPA has promulgated regulations to implement Section 112(r)(7), codified at 40 CFR part 68 ("Part 68 Regulations"). The Complaint alleges that Kayem violated the Part 68 Regulations in connection with the operation of its ammonia refrigeration system at its Chelsea facility and seeks the payment of civil penalties.

**ACTION:** Notice.

**SUPPLEMENTARY INFORMATION:** DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

This ICR collects the required information for Training Provider Eligibility Collection, which is determined by the State. At a minimum, the information to be collected is that which enables the State to comply with regulations under 20 CFR 680 and the Workforce Innovation and Opportunity Act.

In June 2016, OMB approved the Information Collection Request (ICR), OMB control number 1205–0523, that allows the Department of Labor (the Department) to collect information from States pertaining to Eligible Training Provider List and their retention of that data. OMB granted approval for the ICR through September of 2019. The

Workforce Innovation and Opportunity Act authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB control number 1205–0523.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/ information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
