

Waste Incinerators (HMIWI) for which construction commenced after June 20, 1996, or for which modification commenced after March 16, 1998, but no later than April 6, 2010. Sources subject to the original standards are now covered under the revised Emission Guidelines for HMIWI at 40 CFR part 60, subpart Ce. This information request covers the reporting and recordkeeping requirements associated with the revised NSPS, which apply to new facilities only. New facilities include those that commenced construction after December 1, 2008 or commenced modification after April 6, 2010. This information is being collected to assure compliance with 40 CFR part 60, subpart Ec.

In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

*Form numbers:* None.

*Respondents/affected entities:* Hospital/medical/infectious waste incinerators.

*Respondent's obligation to respond:* Mandatory (40 CFR part 60, subpart Ec).

*Estimated number of respondents:* 11 (total).

*Frequency of response:* Initially, semiannually and annually.

*Total estimated burden:* 7,410 hours (per year). Burden is defined at 5 CFR 1320.3(b).

*Total estimated cost:* \$1,360,000 (per year), which includes \$519,000 in annualized capital/startup and/or operation & maintenance costs.

*Changes in the estimates:* There is an increase in the total estimated respondent burden compared with the ICR currently approved by OMB. This is due to an increase in the estimated number of sources subject to the regulations and is not caused by program changes. We estimate the industry will continue to grow at the rate of one new source per year. This results in increases in the respondent labor hours, number of responses, and capital and O&M costs.

**Courtney Kerwin,**

### Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Performance-Based Measurement System for Fuels (Renewal)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Performance-Based Measurement System for Fuels (EPA ICR Number 2459.03, OMB Control Number 2060-0692) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through May 31, 2019. Public comments were previously requested via the **Federal Register** on November 5, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

**DATES:** Comments must be submitted on or before June 21, 2019.

**ADDRESSES:** Submit your comments, referencing Docket ID No. EPA-HQ-OAR-2018-0663, to (1) EPA online using [www.regulations.gov](http://www.regulations.gov) (our preferred method), by email to [a-and-r-docket@epa.gov](mailto:a-and-r-docket@epa.gov), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via email to [oria\\_submission@omb.eop.gov](mailto:oria_submission@omb.eop.gov). Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

**FOR FURTHER INFORMATION CONTACT:** James W. Caldwell, Compliance Division, Office of Transportation and Air Quality, 6405A, Environmental Protection Agency, 1200 Pennsylvania

Ave. NW, Washington, DC 20460; telephone number: 202-343-9303; fax number: 202-343-2802; email address: [caldwell.jim@epa.gov](mailto:caldwell.jim@epa.gov).

### SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov) or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

*Abstract:* EPA regulations at 40 CFR part 80 set standards for certain parameters of gasoline and diesel fuel, such as sulfur content, to control harmful vehicle emissions and protect emission controls. Refiners and importers are required to test for these parameters and report the results to EPA. The regulations at 40 CFR part 80.47, 80.584, and 80.585 (1) identify acceptable test methods for some of the regulated parameters, (2) specify criteria for precision, accuracy, and quality control for the test methods used to measure the regulated parameters (certain test methods in use prior to October 28, 2013 are exempt from some of the criteria), and (3) establish procedures by which a test laboratory can demonstrate that an alternative test method meets the criteria and is thus "qualified" for use. This program for the qualification of test methods is known as the Performance-Based Measurement System (PBMS). Test laboratories are required to generate certain records to demonstrate compliance with PBMS program requirements. This ICR covers the recordkeeping and reporting requirements for PBMS records. There are no required forms. Example formats for certain records are at: <https://www.epa.gov/fuels-registration-reporting-and-compliance-help/compliance-performance-based-measurement-system>.

*Form Numbers:* None.

*Respondents/affected entities:* Laboratories that test gasoline and diesel fuel.

*Respondent's obligation to respond:* Mandatory.

*Estimated number of respondents:* 1,015 (total).

*Frequency of response:* On occasion, periodically (varies with test method).

*Total estimated burden:* 26,696 hours (per year). Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$2,460,454 (per year), includes \$0 annualized capital or operation & maintenance costs.

*Changes in Estimates:* There is an increase of 17,198 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to an incorrect estimate of 52 laboratories for the current approval while the actual number should have been near 1,000.

### Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Collection of Information on Anaerobic Digestion Facilities Processing Wasted Food To Support EPA's Sustainable Food Management Program (Revision)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Collection of Information on Anaerobic Digestion Facilities Processing Wasted Food to support EPA's Sustainable Food Management Program (EPA ICR Number 2533.02, OMB Control Number 2050-0217) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed revision of the ICR, which is currently approved through December 31, 2019. Public comments were previously requested via the **Federal Register** on October 3, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

**DATES:** Additional comments may be submitted on or before June 21, 2019.

**ADDRESSES:** Submit your comments, referencing Docket ID Number EPA-HQ-RCRA-2015-0836, to (1) EPA online using [www.regulations.gov](http://www.regulations.gov) (our preferred method), or by mail to: EPA

Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave., NW, Washington, DC 20460, and (2) OMB via email to [oir\\_submission@omb.eop.gov](mailto:oir_submission@omb.eop.gov). Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

*Abstract:* EPA's Sustainable Food Management (SFM) Program promotes the sustainable management of food which is a systematic approach that seeks to reduce wasted food and its associated impacts over its' entire lifecycle. The lifecycle of food includes use of natural resources, manufacturing, sales, and consumption and ends with decisions on recovery or final disposal. Diversion of food waste from landfills is a critical component of this effort. In order to effectively divert food waste from landfills, sufficient capacity to process the diverted materials is required. Knowledge of organics recycling capacity is needed to facilitate food waste diversion and anaerobic digestion facilities provide a significant amount of the needed capacity.

EPA's food recovery hierarchy prioritizes potential actions to prevent and divert wasted food. According to the hierarchy, processing wasted food via anaerobic digestion is a more desirable option than landfilling or incineration because it creates more benefits for the environment, society and the economy. Anaerobic digestion

of food waste and other organic materials generates renewable energy, reduces methane emissions to the atmosphere, and provides opportunities to improve soil health through the production of soil amendments. The SFM program supports these efforts by educating state and local governments and communities about the benefits of wasted food diversion. The SFM program also builds partnerships with state agencies and other strategic partners interested in developing organics recycling capacity and provides tools to assist organizations in developing anaerobic digestion (AD) projects.

The nationwide collection of data about AD facilities processing food waste began in 2017 with a survey of all known AD facilities under the currently approved Information Collection Request (ICR). EPA published the first annual report of findings based on this data in July 2018. EPA is renewing this ICR in order to continue to monitor growth and evaluate trends in the capacity for processing of food waste and the amount of food waste being processed via AD in the United States.

Data will be collected using electronic surveys that will be distributed to respondents by email and will be available on EPA's AD website. Participation in this data collection effort is voluntary. Respondents are not required to reveal confidential business information.

*Form Numbers:* EPA Form 6700-03, EPA Form 6700-04, EPA Form 6700-05

*Respondents/affected entities:* Project Developers, Project Owners or Plant Operators, and Livestock Farmers.

*Respondent's obligation to respond:* Voluntary.

*Estimated number of respondents:* 254 (total).

*Frequency of response:* Annually.

*Total estimated burden:* 127 hours (per year). Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$7,594 (per year), includes \$0 annualized capital or operation & maintenance costs.

*Changes in the Estimates:* The overall burden has slightly decreased from the original ICR. For this renewal, some questions have been revised for clarity, numerous questions have been eliminated and a series of questions have been streamlined. The time to complete the survey will decrease for operating years 2017, 2018, 2019 and
