

DEPARTMENT OF COMMERCE**International Trade Administration****Subsidy Programs Provided by Countries Exporting Softwood Lumber and Softwood Lumber Products to the United States; Request for Comment**

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) seeks public comment on any subsidies, including stumpage subsidies, provided by certain countries exporting softwood lumber or softwood lumber products to the United States during the period July 1, 2018, through December 31, 2018.

DATES: Comments must be submitted by June 10, 2019.

ADDRESSES: See the Submission of Comments section below.

FOR FURTHER INFORMATION CONTACT: Kristen Johnson, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4793.

SUPPLEMENTARY INFORMATION:**Background**

Pursuant to section 805 of Title VIII of the Tariff Act of 1930 (the Softwood Lumber Act of 2008), the Secretary of Commerce is mandated to submit to the appropriate Congressional committees a report every 180 days on any subsidy provided by countries exporting softwood lumber or softwood lumber products to the United States, including stumpage subsidies. Commerce submitted its last subsidy report on December 20, 2018. As part of its newest report, Commerce intends to include a list of subsidy programs identified with sufficient clarity by the public in response to this notice.

Request for Comments

Given the large number of countries that export softwood lumber and softwood lumber products to the United States, we are soliciting public comment only on subsidies provided by countries which had exports accounting for at least one percent of total U.S. imports of softwood lumber by quantity, as classified under Harmonized Tariff Schedule of the United States (HTSUS) codes 4407.1001, 4407.1100, 4407.1200, 4407.1905, 4407.1906, 4407.1910,¹

¹ For previous lumber subsidies reports, Commerce relied solely on HTSUS code 4407.1001 (coniferous wood sawn or chipped lengthwise, sliced or peeled, of a thickness exceeding 6 mm),

during the period July 1, 2018, through December 31, 2018. Official U.S. import data published by the United States International Trade Commission's DataWeb indicate that four countries (Brazil, Canada, Germany, and Sweden) exported softwood lumber to the United States during that time period in amounts sufficient to account for at least one percent of U.S. imports of softwood lumber products. We intend to rely on similar previous six-month periods to identify the countries subject to future reports on softwood lumber subsidies. For example, we will rely on U.S. imports of softwood lumber and softwood lumber products during the period January 1, 2019, through June 30, 2019, to select the countries subject to the next report.

Under U.S. trade law, a subsidy exists where an authority: (i) Provides a financial contribution; (ii) provides any form of income or price support within the meaning of Article XVI of the GATT 1994; or (iii) makes a payment to a funding mechanism to provide a financial contribution to a person, or entrusts or directs a private entity to make a financial contribution, if providing the contribution would normally be vested in the government and the practice does not differ in substance from practices normally followed by governments, and a benefit is thereby conferred.²

Parties should include in their comments: (1) The country which provided the subsidy; (2) the name of the subsidy program; (3) a brief description (no more than 3-4 sentences) of the subsidy program; and (4) the government body or authority that provided the subsidy.

Submission of Comments

As specified above, to be assured of consideration, comments must be received no later than 5:00 p.m., Eastern Standard Time, on Monday, June 10, 2019. All comments must be submitted through the Federal eRulemaking Portal at <http://www.regulations.gov>, Docket

which accounted for the vast majority of subject imports. In October 2018, HTSUS code 4407.1001 became obsolete and was replaced by HTSUS codes 4407.1100 (pine wood sawn or chipped lengthwise, sliced or peeled, over 6 mm thick), 4407.1200 (fir and spruce wood sawn or chipped lengthwise, sliced or peeled, over 6 mm thick), 4407.1905 (mixtures of spruce, pine and fir (SPF) wood sawn or chipped lengthwise, sliced or peeled, over 6 mm thick, not treated with preservatives), 4407.1906 (mixtures of hemlock and fir (hem-fir) wood sawn or chipped lengthwise, sliced or peeled, over 6 mm thick, not treated with preservatives), and 4407.1910 (other coniferous wood, nesoi, sawn or chipped lengthwise, sliced or peeled, over 6 mm thick, whether or not treated with preservatives).

The materials in the docket will not be edited to remove identifying or contact information, and Commerce cautions against including any information in an electronic submission that the submitter does not want publicly disclosed. Attachments to electronic comments will be accepted in Microsoft Word, Excel, or Adobe PDF formats only.

Commenters who do not have access to the internet may submit the original and one electronic copy of each set of comments by mail or hand delivery/courier.

Certain Quartz Surface Products From the People's Republic of China: Final Affirmative Determination of Sales at Less Than Fair Value, and Final Affirmative Determination of Critical Circumstances

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that certain quartz surface products (quartz surface products) from the People's Republic of China (China) are being, or are likely to be, sold in the United States at less than fair value (LTFV).

DATES: Applicable May 23, 2019.

FOR FURTHER INFORMATION CONTACT: Andrew Medley or Whitley Herndon, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4987 or (202) 482-6274, respectively.

SUPPLEMENTARY INFORMATION:

Background

The petitioner in this investigation is Cambria Company, LLC. The mandatory respondents in this investigation are CQ International,¹ Guangzhou Hercules Quartz Stone Co., Ltd. (Hercules Quartz), Foshan Hero Stone Co., Ltd. (Hero Stone), and Foshan Yixin Stone Co., Ltd. (Yixin Stone).

On November 20, 2018, Commerce published the *Preliminary Determination* of sales at LTFV of quartz surface products from China.² A summary of the events that occurred since Commerce published the *Preliminary Determination*, as well as a full discussion of the issues raised by the parties for this final determination, may be found in the Issues and Decision Memorandum, which is hereby adopted by this notice.³ The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>, and ACCESS is available to all parties in the Central Records Unit, Room B8024 of the main Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/index.html>. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

Commerce exercised its discretion to toll all deadlines affected by the partial Federal government closure from December 22, 2018, through the resumption of operations on January 29, 2019.⁴ The revised deadline for the final

determination of this investigation is now May 14, 2019.

Period of Investigation

The period of investigation is October 1, 2017, through March 31, 2018.

Scope of the Investigation

The products covered by this investigation are quartz surface products from China. For a complete description of the scope of this investigation, see Appendix I.

Scope Comments

During the course of this investigation, and the concurrent countervailing duty (CVD) investigation of quartz surface products from China, Commerce received scope comments from interested parties. Commerce issued a Preliminary Scope Decision Memorandum to address these comments and set aside a period of time for parties to address scope issues in scope case and rebuttal briefs.⁵ We received comments from interested parties on the Preliminary Scope Decision Memorandum, which we addressed in the Final Scope Decision Memorandum.⁶ In addition, on February 14, 2019, the petitioner submitted a proposed clarification to the scope of this and the concurrent CVD investigation.⁷ In response to the petitioner's proposed scope clarification, Commerce established a separate scope briefing schedule and received case and rebuttal briefs regarding the proposed clarification, which we addressed in the Proposed Scope Clarification Decision Memorandum.⁸ As a result, for this final determination, we made certain changes to the scope of these investigations from that published in the *Preliminary Determination*.⁹ See Appendix I.

Final Affirmative Determination of Critical Circumstances

In accordance with 735(a)(3) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.206, Commerce determines that critical circumstances exist with respect to imports of quartz surface products from CQ International,¹⁰ Foshan Yixin Stone Co., Ltd. (Yixin Stone), all non-individually examined companies receiving a separate rate, and the China-wide entity. For a full description of the methodology and results of Commerce's final affirmative critical circumstances analysis, see the Issues and Decision Memorandum at Comment 2.

Analysis of Comments Received

In the Issues and Decision Memorandum, we address all issues raised in parties' case and rebuttal briefs, other than those issues related to scope. A list of the issues that parties raised, and to which we responded in the Issues and Decision Memorandum, is attached to this notice as Appendix II.

Methodology

Commerce conducted this investigation in accordance with section 731 of the Act. Export price was calculated in accordance with section 772(a) of the Act. Constructed export price was calculated in accordance with section 772(b) of the Act. Because China is a non-market economy within the meaning of section 771(18) of the Act, normal value (NV) was calculated in accordance with section 773(c) of the Act. For a full description of the methodology underlying Commerce's determination, see the Preliminary Decision Memorandum; see also the Issues and Decision Memorandum.

Verification

As provided in section 782(i) of the Act, Commerce verified the sales and factors of production data reported by CQ International and Yixin Stone. We used standard verification procedures, including an examination of relevant accounting and production records, and original source documents provided by the respondents.

Changes Since the Preliminary Determination

Based on our review and analysis of the comments received from interested parties, and our findings at verification, we made certain changes to the

All deadlines in this segment of the proceeding have been extended by 40 days.

calculation of the antidumping duty margins applicable to CQ International, Yixin Stone, those companies entitled to a separate rate, and the China-wide entity. Further, we now find Hercules Quartz to be part of the China-wide entity. For a discussion of these changes, see the Issues and Decision Memorandum.

China-Wide Entity and Use of Adverse Facts Available

For the reasons explained in the *Preliminary Determination*, we continue to find that the use of adverse facts available (AFA), pursuant to sections 776(a) and (b) of the Act, is warranted in determining the rate for the China-wide entity.¹¹ In selecting the AFA rate for the China-wide entity, Commerce’s practice is to select a rate that is sufficiently adverse to ensure that the uncooperative party does not obtain a more favorable result by failing to cooperate than if it had fully cooperated.¹² Specifically, it is Commerce’s practice to select, as an AFA rate, the higher of: (a) The highest dumping margin alleged in the petition; or, (b) the highest calculated dumping margin of any respondent in the investigation.¹³ For the final

determination, we are assigning the China-wide entity, as AFA, the highest petition margin of 336.69 percent. We are able to corroborate the highest petition dumping margin, to the extent practicable within the meaning of section 776(c) of the Act, using transaction-specific dumping margins calculated for CQ International and Yixin Stone and, thus, we assigned this dumping margin to the China-wide entity as AFA. For further discussion, see the Issues and Decision Memorandum at “Use of Adverse Facts Available.”

Separate Rates

For the final determination, we continue to find that CQ International and Yixin Stone are eligible for separate rates. Section 735(c)(5)(A) of the Act provides that the estimated “all others” rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding zero or *de minimis* margins, and any margins determined entirely under section 776 of Act.¹⁴ In this proceeding, Commerce calculated an above *de minimis* rate that is not based entirely

on facts available for two mandatory respondents under individual examination, *i.e.*, CQ International and Yixin Stone. Thus, looking to section 735(c)(5)(A) of the Act for guidance, and consistent with our practice, we are assigning the weighted-average, based on publicly ranged sales data, of these mandatory respondents’ rates as the rate for non-individually examined companies that have qualified for a separate rate.¹⁵

Combination Rates

In the *Initiation Notice*,¹⁶ Commerce stated that it would calculate producer/exporter combination rates for the respondents that are eligible for a separate rate in this investigation. For a list of the respondents that established eligibility for their own separate rates and the exporter/producer combination rates applicable to these respondents, see Appendix III.

Final Determination

Commerce determines that quartz surface products from China are being, or are likely to be, sold in the United States at LTFV, and that the following dumping margins exist:

| Exporter | Producer | Estimated weighted-average dumping margin (percent) | Cash deposit rate (adjusted for subsidy offset) (percent) |
|---|--|---|---|
| Foshan Yixin Stone Co., Ltd | Foshan Yixin Stone Co., Ltd | 333.09 | 295.02 |
| Foshan Yixin Stone Co., Ltd | QingYuan Yue Feng Decoration Material Co., Ltd | 333.09 | 295.02 |
| Suzhou Colorquartzstone New Material Co., Ltd., Shanghai Meiyang Stone Co., Ltd., CQ International Limited. | Suzhou Colorquartzstone New Material Co., Ltd. and Shanghai Meiyang Stone Co., Ltd. | 265.81 | 255.27 |
| Non-Individually Examined Exporters Receiving Separate Rates (see Appendix III). | Producers Supplying the Non-Individually-Examined Exporters Receiving Separate Rates (see Appendix III). | 297.40 | 259.33 |

instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of all appropriate entries of quartz surface products from CQ International, Yixin Stone, the separate rates companies, and the China-wide entity, and, in accordance with section 735(c)(4)(B) of the Act, because we continue to find that critical circumstances exist, we will instruct CBP to continue to suspend liquidation of all appropriate entries of quartz surface products which were entered, or withdrawn from warehouse, for consumption on or after August 22, 2018, which is 90 days prior to the date of publication of the *Preliminary Determination* of this investigation in the **Federal Register**.

To determine the cash deposit rate, Commerce normally adjusts the estimated weighted-average dumping margin by the amount of domestic subsidy pass-through and export subsidies determined in a companion CVD proceeding when CVD provisional measures are in effect. Accordingly, where Commerce makes an affirmative determination for domestic subsidy pass-through or export subsidies, Commerce offsets the calculated estimated weighted-average dumping margin by the appropriate rate(s). In this case, we have made an affirmative determination for domestic subsidy pass-through and export subsidies for certain respondents. However, suspension of liquidation for provisional measures in the companion CVD case has been discontinued; therefore, we are not instructing CBP to collect cash deposits based upon the adjusted estimated weighted-average dumping margin for those subsidies at this time.

In addition, pursuant to section 735(c)(1)(B)(ii) of the Act, Commerce will instruct CBP to require a cash deposit equal to the weighted-average amount by which NV exceeds U.S. price as follows: (1) The cash deposit rate for the exporter/producer combination listed in the table above or in Appendix III will be the rate identified for that combination in that table or Appendix III; (2) for all combinations of exporters/producers of merchandise under consideration that have not received their own separate rate above or in Appendix III, the cash deposit rate will be the cash deposit rate established for the China-wide entity; and (3) for all non-Chinese exporters of the merchandise under consideration which have not received their own separate rate above, the cash deposit rate will be the cash deposit rate applicable to the Chinese exporter/producer combination that supplied that non-Chinese exporter.

These suspension of liquidation instructions will remain in effect until further notice.

International Trade Commission Notification

In accordance with section 735(d) of the Act, we will notify the International Trade Commission (ITC) of the final affirmative determination of sales at LTFV. Because Commerce's final determination is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will determine, within 45 days, whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of quartz surface products from China, or sales (or the likelihood of sales) for importation, of quartz surface products from China. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated, and all cash deposits will be refunded. If the ITC determines that such injury does exist, Commerce will issue an antidumping duty order directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

Notification Regarding Administrative Protective Orders

In the event that the ITC issues a final negative injury determination, this notice will serve as the only reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Notification to Interested Parties

This determination is issued and published in accordance with sections 735(d) and 777(i)(1) of the Act, and 19 CFR 351.210(c).

Dated: May 14, 2019.

Assistant Secretary for Enforcement and Compliance.

Appendix I

Scope of the Investigation

The merchandise covered by the investigation is certain quartz surface

products.¹⁸ Quartz surface products consist of slabs and other surfaces created from a mixture of materials that includes predominately silica (e.g., quartz, quartz powder, cristobalite) as well as a resin binder (e.g., an unsaturated polyester). The incorporation of other materials, including, but not limited to, pigments, cement, or other additives does not remove the merchandise from the scope of the investigation. However, the scope of the investigation only includes products where the silica content is greater than any other single material, by actual weight. Quartz surface products are typically sold as rectangular slabs with a total surface area of approximately 45 to 60 square feet and a nominal thickness of one, two, or three centimeters. However, the scope of this investigation includes surface products of all other sizes, thicknesses, and shapes. In addition to slabs, the scope of this investigation includes, but is not limited to, other surfaces such as countertops, backsplashes, vanity tops, bar tops, work tops, tabletops, flooring, wall facing, shower surrounds, fire place surrounds, mantels, and tiles. Certain quartz surface products are covered by the investigation whether polished or unpolished, cut or uncut, fabricated or not fabricated, cured or uncured, edged or not edged, finished or unfinished, thermoformed or not thermoformed, packaged or unpackaged, and regardless of the type of surface finish.

In addition, quartz surface products are covered by the investigation whether or not they are imported attached to, or in conjunction with, non-subject merchandise such as sinks, sink bowls, vanities, cabinets, and furniture. If quartz surface products are imported attached to, or in conjunction with, such non-subject merchandise, only the quartz surface product is covered by the scope.

Subject merchandise includes material matching the above description that has been finished, packaged, or otherwise fabricated in a third country, including by cutting, polishing, curing, edging, thermoforming, attaching to, or packaging with another product, or any other finishing, packaging, or fabrication that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the quartz surface products.

The scope of the investigation does not cover quarried stone surface products, such as granite, marble, soapstone, or quartzite. Specifically excluded from the scope of the investigation are crushed glass surface products. Crushed glass surface products must meet each of the following criteria to qualify for this exclusion: (1) The crushed glass content is greater than any other single material, by actual weight; (2) there are pieces of crushed glass visible across the surface of the product; (3) at least some of the individual pieces of crushed glass that are visible across the surface are larger than one centimeter wide as measured at their widest cross-section (glass pieces); and (4) the

¹⁸ Quartz surface products may also generally be referred to as engineered stone or quartz, artificial stone or quartz, agglomerated stone or quartz, synthetic stone or quartz, processed stone or quartz, manufactured stone or quartz, and Bretonstone®.

distance between any single glass piece and the closest separate glass piece does not exceed three inches.

The products subject to the scope are currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under the following subheading: 6810.99.0010. Subject merchandise may also enter under subheadings 6810.11.0010, 6810.11.0070, 6810.19.1200, 6810.19.1400, 6810.19.5000, 6810.91.0000, 6810.99.0080, 6815.99.4070, 2506.10.0010, 2506.10.0050, 2506.20.0010, 2506.20.0080, and 7016.90.10. The HTSUS subheadings set forth above are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.
