SUPPLEMENTARY INFORMATION:

Title: Specialty Crops Market News Division.

OMB Number: 0581-0006.

Expiration Date of Approval: November 30, 2019.

Type of Request: Revision of a currently approved information collection.

Abstract: Collection and dissemination of information for specialty crops production and to facilitate trading by providing a price base used by producers, wholesalers, and retailers to market product.

The Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627), section 203(g) directs and authorizes the collection and dissemination of marketing information including adequate outlook information, on a market area basis, for the purpose of anticipating and meeting consumer requirements, aiding in the maintenance of farm income and to bring about a balance between production and utilization.

The specialty crops industry provides information on a voluntary basis that is gathered through confidential telephone and face-to-face interviews by market reporters. Reporters request supply, demand, and price information of over 330 fresh fruit, vegetable, nut, ornamental, and other specialty crops, such as honey. The information is collected, compiled, and disseminated by Specialty Crops Market News Division in its critical role as an impartial third party. It is collected and reported in a manner which protects the confidentiality of the respondent and their operations.

The Specialty Crops Market News Division reports are used by academia and various government agencies for regulatory and other purposes, but are primarily used by the specialty crops trade, which includes packers, processors, brokers, retailers, producers, and associated industries. Members of the specialty crops industry regularly make it clear that they need and expect the Department of Agriculture to issue price and supply market reports for commodities of regional, national and

international significance in order to assist in making immediate production and marketing decisions and as a guide to the amount of product in the supply channel. In addition, the Agricultural Marketing Service buys hundreds of millions of dollars of specialty crops products each year for domestic feeding programs, and Specialty Crops Market News Division data is a critical component of the decision making process.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average .101 hours per response.

Respondents: Specialty crops industry, or other for-profit businesses, individuals or households, farms.

Estimated Number of Respondents: 2,776.

Estimated Number of Responses per Respondent: 202.

Estimated Total Annual Burden on Respondents: 56,636 hours.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: May 20, 2019.

Bruce Summers,

Administrator, Agricultural Marketing Service.

[Doc. No. AMS-FTPP-19-0043]

Notice of Request for Extension and Revision of a Currently Approved Information Collection

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Agricultural Marketing Service's (AMS) intention to request approval from the Office of Management and Budget (OMB) for an extension of a currently approved information collection for the Reporting and Recordkeeping Requirements Under Regulations Under the Perishable Agricultural Commodities Act, 1930, as amended.

DATES: Comments received by July 22, 2019 will be considered.

Additional Information or Comments: You may submit written or electronic comments to: Natalie Worku, PACA Recordkeeping and Reporting Comments, AMS, Fair Trade Practices Program, PACA Division, 1400 Independence Avenue SW, Room 1510-S, Stop 0242, Washington DC 20250-0242; fax: 202-690-4413; or internet: <http://www.regulations.gov>.

SUPPLEMENTARY INFORMATION:

Title: Reporting and Recordkeeping Requirements Under Regulations (Other than Rules of Practice) Under the Perishable Agricultural Commodities Act, 1930.

OMB Number: 0581-0031.

Expiration Date of Approval: November 30, 2019.

Type of Request: Extension of a currently approved information collection.

Abstract: The PACA was enacted by Congress in 1930 to establish a code of fair trading practices covering the marketing of fresh and frozen fruits and vegetables in interstate or foreign commerce. It protects growers, shippers, and distributors dealing in those commodities by prohibiting unfair and fraudulent trade practices.

The law provides a forum for resolving contract disputes, and a mechanism for the collection of damages from anyone who fails to meet contractual obligations. In addition, the PACA provides for prompt payment to fruit and vegetable sellers and for revocation of licenses and sanctions against firms or principals found to have violated the law's standards for fair business practices. The PACA also imposes a statutory trust that attaches to perishable agricultural commodities received by regulated entities, products derived from the commodities, and any receivables or proceeds from the sale of the commodities. The trust exists for the benefit of produce suppliers, sellers, or agents that have not been paid, and continues until they have been paid in full.

The PACA is enforced through a licensing system. All commission merchants, dealers, and brokers engaged in business subject to the PACA must be licensed. Retailers and grocery wholesalers must renew their licenses every three years. All other licensees renew yearly. Those who engage in practices prohibited by the PACA may have their licenses suspended or revoked.

The information collected pursuant to OMB Number 0581-0031 is used to administer licensing provisions under the PACA, to adjudicate contract disputes, and to enforce the PACA and the regulations. The purpose of this notice is to solicit comments from the public concerning our information collection.

We estimate the paperwork and time burden of the above referenced information collection to be as follows:

Form FTPP-211, Application for License: average of .25 hours per application per response.

Form FTPP-231-1 (or 231-1A, or 231-2, or 231-2A), Application for Renewal or Reinstatement of License: Average of .05 hours per application per response.

Regulations Section 46.13—Letters to Notify USDA of Changes in Business Operations: Average of .05 hours per notice per response.

Regulations Section 46.4—Limited Liability Company Articles of Organization and Operating Agreement: Average of .083 hours with approximately 2,968 annual responses.

Regulations Section 46.18—Record of Produce Received: Average of 5 hours with approximately 6,725 recordkeepers.

Regulations Section 46.20—Records Reflecting Lot Numbers: Average of 8.25 hours with approximately 683 recordkeepers.

Regulations Section 46.46(c)(2)—Waiver of Rights to Trust Protection: Average of .25 hours per notice with approximately 100 principals.

Regulations Sections 46.2(aa)(11) and 46.46(e)(1)—Copy of Written Agreement Reflecting Times for Payment: Average of 20 hours with approximately 2,343 recordkeepers.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 3 hours per response annually.

Respondents: Commission merchants, dealers, and brokers engaged in the business of buying, selling, or negotiating the purchase or sale of commercial quantities of fresh and/or frozen fruits and vegetables in interstate or foreign commerce are required to be licensed under the PACA (7 U.S.C. 499(c)(a)).
