

injuries for the U.S. If this information were not collected, the confusion over the number and patterns in fatal occupational injuries would hamper prevention efforts. By providing timely occupational fatality data, the CFOI provides safety and health managers the information necessary to respond to emerging workplace hazards.

During 2018, BLS national office responded to over 400 requests for CFOI data from various organizations. (This figure excludes requests received by the States for State-specific data.) In addition, the CFOI page of the BLS website averaged about 11,300 users per month in 2017.

National office staff also responded to numerous requests from safety organizations for staff members to participate in safety conferences and seminars. The CFOI research file, made available to safety and health groups, is being used by 14 organizations. Study topics include fatalities by worker demographic category (young workers,

older workers, Hispanic workers); by occupation or industry (construction workers, police officers, firefighters, landscaping workers, workers in oil and gas extraction); by event (heat-related fatalities, fatalities from workplace violence, suicides, falls from ladders); or other research such as safety and health program effectiveness and the impact of fatality risk on wages. A current list of research articles and reports that include CFOI data can be found here: <http://www.bls.gov/iif/publications.htm>.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the

proposed collection of information, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Title of Collection: Census of Fatal Occupational Injuries.

OMB Number: 1220-0133.

Type of Review: Extension of a currently approved collection.

Affected Public: Federal government; Individuals or households; Private sector (Business or other for-profits, Not-for-profit institutions, Farms); State, local, or tribal governments.

Frequency: On occasion.

| Type of form | Number of respondents | Number of responses | Burden hours | Average response time |
|-------------------------------------------------|-----------------------|---------------------|--------------|-------------------------------|
| BLS CFOI-1 | 837 | 837 | 279 | 20 minutes per document. |
| Source documents—Federal | 7 | 11 | 70 | 10 hours per year per agency. |
| Source documents—State, local, and tribal | 220 | 14,756 | 2,459 | 10 minutes per document. |
| Totals | 1,064 | 15,604 | 2,808 | |

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintenance): \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, on May 21, 2019.

Mark Staniorski,

Chief, Division of Management Systems.

BILLING CODE 4510-24-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Brookwood-Sago Mine Safety Grants

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Funding Opportunity Announcement (FOA); extension of closing date for applications.

Announcement Type: New
Funding Opportunity Number: FOA BS-2019-1

Catalog of Federal Domestic Assistance (CFDA) Number: 17.603

SUMMARY: On March 25, 2019, MSHA published a Funding Opportunity Announcement (FOA) that provides grant funds for education and training programs to help identify, avoid, and prevent unsafe working conditions in and around mines. The notice announced the closing date for applications was 60 days after the FOA was published on March 25, 2019. MSHA is extending the closing date to June 28, 2019.

DATES: The closing date for applications will be June 28, 2019, (no later than 11:59 p.m. EDT). MSHA will award grants on or before September 30, 2019.

ADDRESSES: Grant applications for this competition must be submitted electronically through the *Grants.gov* site at www.grants.gov. If applying online poses a hardship to any applicant, the MSHA Directorate of Educational Policy and Development will provide.

FOR FURTHER INFORMATION CONTACT: Any questions regarding this FOA BS-2019-1 should be directed to Janice Oates at oates.janice@dol.gov or 202-693-9573 (this is not a toll-free number) or Cindy

Hennigan at hennigan.cindy@dol.gov or 202-693-9570 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION: On March 25, 2019, MSHA published a notice announcing that the Agency is providing up to \$400,000 for the 2019 Brookwood-Sago grant program (84 FR 11127). The focus of these grants will be training programs and training materials on powered haulage safety (*i.e.*, reducing vehicle-on-vehicle collisions, increasing seat belt use, and improving belt conveyor safety), examinations of working places at metal and nonmetal mines, mine emergency prevention and preparedness, or other programs to prevent unsafe conditions in and around mines. The FOA published on March 25, 2019, provides the background information and the requirements for the projects funded under the solicitation.

David G. Zatezalo,

Assistant Secretary of Labor for Mine Safety and Health.
