### I. Background

The Occupational Code Assignment form (ETA 741) was developed as a public service to the users of the Occupational Information Network (O\*NET), in an effort to help them in obtaining occupational codes and titles for jobs that they are unable to locate in O\*NET. The O\*NET system classifies nearly all jobs in the United States economy. However, new specialties are constantly evolving and emerging. The use of the OCA is voluntary and is provided: (1) As a uniform format to the public and private sector to submit information in order to receive assistance in identifying an occupational code; (2) to assist the O\*NET system in identifying potential occupations that may need to be included in future O\*NET data collection efforts; and (3) to provide input to a database of alternative (lay) titles to facilitate searches for occupational information in the O\*NET websites including O\*NET OnLine (<http://online.onetcenter.org>), My Next Move ([www.MyNextMove.gov](http://www.MyNextMove.gov)), My Next Move for Veterans ([www.MyNextMove.org/vets](http://www.MyNextMove.org/vets)), O\*NET Code Connector ([www.onetcodeconnector.org](http://www.onetcodeconnector.org)), as well as CareerOneStop ([www.careeronestop.org](http://www.careeronestop.org)).

The OCA process is designed to help the occupational information user relate an occupational specialty or a job title to an occupational code and title within the framework of the Standard Occupational Classification (SOC) based O\*NET system. The O\*NET-SOC system consists of a database that organizes the work done by individuals into approximately 1,000 occupational categories. In addition, O\*NET occupations have associated data on the importance and level of a range of occupational characteristics and requirements, including Knowledge, Skills, Abilities, Tasks and Work Activities. Since the O\*NET-SOC system is based on the SOC system, identifying an O\*NET-SOC code and title also facilitates linkage to national, state, and local occupational employment and wage estimates. Section 308 of the Workforce Innovation and Opportunity Act authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is

approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR.
