DEPARTMENT OF ENERGY

Record of Decision; Boardman-to-Ione 69-kV Transmission Line

AGENCY: Bonneville Power Administration (Bonneville), Department of Energy (DOE).

ACTION: Record of decision (ROD).

SUMMARY: The Bonneville Power Administration has decided to implement a portion of the Agency Preferred Alternative from the *Final Environmental Impact Statement and Proposed Land Use Plan Amendments for the Boardman to Hemingway Transmission Line Project* (DOI-BLM-ORWA-V000-2012-0016-EIS, OROR-065375, IDI-036029 and DOE/EIS-0507,

November 2016) (B2H Project Final EIS). More specifically, Bonneville has decided to enter into an amended land use agreement with the U.S. Navy (Navy) concerning Bonneville's existing 69-kilovolt (kV) Boardman-to-Ione transmission line. This amended land use agreement authorizes Bonneville's ongoing access to certain land on the Navy's Naval Weapon Systems Training Facility Boardman (NWSTF Boardman) in Morrow County, Oregon for approximately 14 miles of the Boardman-to-Ione transmission line, while also including terms to trigger the phased removal of this line off of NWSTF Boardman if the B2H Project is constructed.

Idaho Power Company (IPC) has proposed to construct the approximately 290-mile-long B2H Project, a portion of which would occupy the Boardman-to-Ione transmission line right-of-way. The

environmental effects of removing the Boardman-to-Ione transmission line from NWSTF Boardman were analyzed in the B2H Project Final EIS, and removal of this line was identified as part of the Agency Preferred Alternative in the Final EIS. The U.S. Bureau of Land Management (BLM) was the lead federal agency under the National Environmental Policy Act (NEPA) for preparation of the B2H Project Final EIS. Bonneville and nineteen other public entities were involved in the EIS as cooperating agencies under NEPA. Bonneville hereby adopts the relevant portions of the Final EIS to support its decision to amend the Boardman-to-Ione transmission line land use agreement.

Several other federal agencies—including the BLM, the U.S. Forest Service, and the U.S. Bureau of Reclamation—have issued approvals to
