

performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-0569.

Title: Same title as above.

Form Numbers: FAA Forms 5100-100, 5100-101, 5100-108, 5100-110, 5100-126, 5100-127, 5100-128, 5100-129, 5100-130, 5100-131, 5100-132, 5100-133, 5100-134, 5100-135, 5100-136, 5100-137, 5100-138, 5100-139, 5100-140, 5100-141, 5100-142, 5370-1.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on March 11, 2019 (84 FR 8779) and this is the 30-day notice. Codification of certain U.S. Transportation laws at 49 U.S.C., repealed the Airport and Airway Improvement Act of 1982, as amended, and the Aviation Safety and Noise Abatement Act of 1979, as amended, and re-codified them without substantive change at Title 49 U.S.C., which is referred to as the "Act." The Act provides funding for airport planning and development projects at airports included in the National Plan of Integrated Airport Systems (NPIAS). The Act also authorizes funds for noise compatibility planning and to carry out noise compatibility programs. The information required by this program is necessary to protect the Federal interest in safety, efficiency, and utility of the airport. Data is collected to meet report requirements of 2 CFR part 200 for certifications and representations, financial management and performance measurement.

Respondents: Approximately 13,000 applications.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: Approximately 9 Hours.

Estimated Total Annual Burden: Approximately 118,000 hours.

Issued in Washington, DC, on May 24, 2019.

Murrell Stinnette,

Acting Deputy Director, Federal Aviation Administration/Office of Airport Planning & Programming/APP-2.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. FRA-2019-0004-N-5]

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration (FRA), U.S. Department of Transportation (DOT).

ACTION: Notice of information collection; request for comment.

SUMMARY: Under the Paperwork Reduction Act of 1995 (PRA) and its implementing regulations, FRA seeks approval of the Information Collection Requests (ICRs) abstracted below. Before submitting these ICRs to the Office of Management and Budget (OMB) for approval, FRA is soliciting public comment on specific aspects of the activities identified below.

DATES: Interested persons are invited to submit comments on or before July 29, 2019.

ADDRESSES: Submit written comments on the ICRs activities by mail to either: Mr. Robert Brogan, Information Collection Clearance Officer, Office of Railroad Safety, Regulatory Analysis Division, Federal Railroad Administration, 1200 New Jersey Avenue SE, Washington, DC 20590; or Ms. Kim Toone, Information Collection Clearance Officer, Office of Information Technology, Federal Railroad Administration, 1200 New Jersey Avenue SE, Washington, DC 20590. Commenters requesting FRA to acknowledge receipt of their respective comments must include a self-addressed stamped postcard stating, "Comments on OMB Control Number 2130-XXXX," (the relevant OMB control number for each ICR is listed below) and should also include the title of the ICR. Alternatively, comments may be faxed to (202) 493-6216 or (202) 493-6497, or emailed to Mr. Brogan at robert.brogan@dot.gov, or Ms. Toone at kim.toone@dot.gov. Please refer to the assigned OMB control number in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Information Collection Clearance Officer, Office of Railroad Safety, Regulatory Analysis Division, Federal Railroad Administration, 1200 New Jersey Avenue SE, Washington, DC 20590 (telephone: (202) 493-6292) or

Ms. Kim Toone, Information Collection Clearance Officer, Office of Information Technology, Federal Railroad Administration, 1200 New Jersey Avenue SE, Washington, DC 20590 (telephone: (202) 493-6132).

SUPPLEMENTARY INFORMATION: The PRA, 44 U.S.C. 3501-3520, and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60-days' notice to the public to allow comment on information collection activities before seeking OMB approval of the activities. *See* 44 U.S.C. 3506, 3507; 5 CFR 1320.8 through 1320.12. Specifically, FRA invites interested parties to comment on the following ICRs regarding: (1) Whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (2) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (3) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (4) ways for FRA to minimize the burden of information collection activities on the public, including the use of automated collection techniques or other forms of information technology. *See* 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1).

FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information that Federal regulations mandate. In summary, FRA reasons that comments received will advance three objectives: (1) Reduce reporting burdens; (2) ensure that it organizes information collection requirements in a "user-friendly" format to improve the use of such information; and (3) accurately assess the resources expended to retrieve and produce information requested. *See* 44 U.S.C. 3501.

The summaries below describe the ICRs that FRA will submit for OMB clearance as the PRA requires:

Title: Designation of Qualified Persons.

OMB Control Number: 2130-0511.

Abstract: The collection of information is used to prevent the unsafe movement of defective freight cars. Railroads are required to inspect freight cars for compliance and to determine restrictions on the movements of defective cars; qualified inspectors are necessary to perform this task.

Type of Request: Extension without change of a currently approved collection.

Affected Public: Businesses.
Form(s): N/A.
Respondent Universe: 692 Railroads.

Frequency of Submission: On occasion.
Reporting Burden:

CFR section	Respondent universe	Total annual responses	Average time per response (minutes)	Total annual burden hours	Total annual dollar cost equivalent ¹
215.11—Designation of Inspectors—Written Records.	692 railroads	1,200 records	2	40	\$3,080

Total Estimated Annual Responses: 1,200.

Total Estimated Annual Burden: 40 hours.

Total Estimated Annual Dollar Cost Equivalent: \$3,080.

Title: Qualification and Certification of Locomotive Engineers.

OMB Control Number: 2130-0533.

Abstract: Section 4 of the Rail Safety Improvement Act of 1988 (RSIA), Public Law 100-342, 102 Stat. 624 (June 22, 1988), later amended and re-codified by

Public Law 103-272, 108 Stat. 874 (July 5, 1994), required FRA to issue regulations to establish any necessary program for certifying or licensing locomotive engineers. The collection of information is used by FRA to ensure that railroads employ and properly train qualified individuals as locomotive engineers and designated supervisors of locomotive engineers. The collection of information is also used by FRA to verify that railroads have established required certification programs for

locomotive engineers and that these programs fully conform to the standards specified in the regulation.

Type of Request: Extension with change (revised estimates) of a currently approved collection.

Affected Public: Businesses.

Form(s): N/A.

Respondent Universe: 741 Railroads.

Frequency of Submission: On occasion; annually; triennially.

Reporting Burden:

Total Estimated Annual Burden: 54,684 hours.

Total Estimated Annual Dollar Cost Equivalent: \$4,158,412.

Title: Roadway Worker Protection.

OMB Control Number: 2130-0539.

Abstract: On June 10, 2016, FRA amended its Roadway Worker Protection (RWP) regulation (see 81 FR 37840) to resolve interpretative issues that had arisen since the original 1996 promulgation of that rule. In particular, this final rule adopted certain terms, resolved miscellaneous interpretive issues, codified certain FRA Technical Bulletins, adopted new requirements governing redundant signal protections and the movement of roadway maintenance machinery over signalized non-controlled track, and amended certain qualification requirements for roadway workers. This final rule also deleted three outdated incorporations by reference of industry standards in FRA's Bridge Worker Safety Standards, and cross referenced the Occupational

Safety and Health Administration's regulations on the same point.

Under the information collection associated with the RWP rule (49 CFR part 214), FRA collects a variety of information. To ensure compliance with the rule's requirements, FRA collects data on affected railroads' on-track safety programs to determine that railroads have policies, procedures, and practices in place that protect roadway workers as they go about doing their daily jobs in a dangerous environment. Railroads are required to provide on-track safety manuals to all roadway workers that they can readily consult as a guide when an issue arises as to how to complete a work assignment while maintaining complete safety. Under the regulation, railroads are required to provide initial and recurrent training to roadway workers on their on-track safety program and the procedures to be followed to perform their daily work assignments. This includes training for roadway workers who work on adjacent track and the appropriate practices and procedures they must follow. FRA

collects data from railroads on training through the records that they are required to keep. Additionally, FRA collects information on violations of workplace safety on Form FRA F 6180.119. FRA uses violation information to make changes that endanger railroad workers. Overall, FRA uses the information that it collects under this regulation to monitor and enforce requirements relating to the safety of roadway workers and ensure that railroads fulfill their responsibilities to make roadway workers environment secure and free from unnecessary and avoidable hazards.

Type of Request: Extension with change (revised estimates) of a currently approved collection.

Affected Public: Businesses/50,000 Roadway Workers/State Safety Inspectors.

Form(s): FRA F 6180.1119.

Respondent Universe: 741 Railroads.

Frequency of Submission: On occasion.

Reporting Burden:

BILLING CODE 4910–06–P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. FRA–2019–0004–N–7]

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of information collection; request for comment.

SUMMARY: Under the Paperwork Reduction Act of 1995 (PRA), this notice announces that FRA is forwarding the Information Collection Requests (ICRs) abstracted below to the Office of Management and Budget (OMB) for review and comment. The ICRs describe the information collections and their expected burden. On February 22, 2019, FRA published a notice providing a 60-day period for public comment on the ICRs.

DATES: Interested persons are invited to submit comments on or before July 1, 2019.

ADDRESSES: Submit written comments on the ICRs to the Office of Information and Regulatory Affairs, Office of

Management and Budget, 725 17th Street NW, Washington, DC 20503, Attention: FRA Desk Officer. Comments may also be sent via email to OMB at the following address: *oira_submissions@omb.eop.gov*.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Information Collection Clearance Officer, Office of Railroad Safety, Regulatory Analysis Division, Federal Railroad Administration, 1200 New Jersey Avenue SE, Room W33–497, Washington, DC 20590 (telephone: (202) 493–6292); or Ms. Kim Toone, Information Collection Clearance Officer, Office of Administration, Office of Information Technology, Federal Railroad Administration, 1200 New Jersey Avenue SE, Room W34–212, Washington, DC 20590 (telephone: (202) 493–6132).

SUPPLEMENTARY INFORMATION: The PRA, 44 U.S.C. 3501–3520, and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. See 44 U.S.C. 3506, 3507; 5 CFR 1320.8 through 1320.12. On February 22, 2019, FRA published a 60-day notice in the **Federal Register** soliciting comment on the ICRs for which it is now seeking OMB approval. See 84 FR 5807. FRA received no comments in response to this notice.

Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30-day notice is published. 44 U.S.C. 3507(b)–(c); 5 CFR 1320.12(d); see also 60 FR 44978, 44983, Aug. 29, 1995. OMB believes the 30-day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect.

Comments are invited on the following ICRs regarding: (1) Whether the information collection activities are necessary for FRA to properly execute its functions, including whether the information will have practical utility; (2) the accuracy of FRA’s estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (3) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (4) ways to minimize the burden of information collection activities on the public, including the use of automated collection techniques or other forms of information technology.

The summaries below describe the ICRs that FRA will submit for OMB clearance as the PRA requires:

Title: Safety Appliance Standards Guidance Checklist Forms.

OMB Control Number: 2130–0565.

Abstract: Sample car/locomotive inspections are performed upon request as a courtesy to the car manufacturers to ensure that the equipment is built in accordance with the Code of Federal Regulations (CFR). Car manufacturers that desire to have FRA review their equipment for compliance with the CFR may submit their request to FRA for review at least 60 days prior to initial construction. Although a sample car inspection is not required, most car manufacturers today request the inspection. By helping ensure that rolling stock equipment is built compliant with the CFR, the sample car inspection program reduces the safety risk to railroad employees, passengers, and the general public.

In an ongoing effort to conduct more thorough and effective inspections of freight railroad equipment and to further enhance safe rail operations, FRA has developed a group of guidance checklist forms that facilitate railroad, rail car owner, and rail equipment manufacturer compliance with 49 CFR part 231, Railroad Safety Appliance Standards. Because 49 CFR part 231 was supplemented and expanded several
