**SUPPLEMENTARY INFORMATION:**

### Contents

This notice sets out a summary of the use and burden associated with the following information collections. More detailed information can be found in each collection’s supporting statement and associated materials (see **ADDRESSES**).

**CMS–10701 Medicare Beneficiary Experiences With Care Survey System (MBECS).**

Under the PRA (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term “collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

**Information Collection**

1. **Type of Information Collection Request:** New collection (Request for a new OMB control number); **Title of Information Collection:** Medicare Beneficiary Experiences With Care Survey System; **Use:** The MBECS system is designed to conduct 1–2 surveys per year on priority groups of interest, thereby allowing CMS OMB to respond quickly to the data needs of stakeholders with interests in these underrepresented groups. Data collected through the MBECS system will be used to better understand—and thus serve the needs of—Medicare beneficiaries in minority populations. The core questionnaire will collect information on communication with medical professionals, coordination of health care, experiences getting needed health care, experiences with personal doctors and specialists, and key demographics. Data will be compared to benchmarks from the FFS CAHPS, MA CAHPS, and NAM CAHPS surveys. The population-specific questionnaire module will collect information about issues most relevant for particular minority groups; population-specific modules will be...
described in individual information collection requests. These data will be compared to benchmarks from the relevant CAHPS source surveys when available.

Collection of these data from people who have been identified through CMS administrative data and administrative flags as part of specific minority populations will also serve as a critical validation step of this method for identifying difficult-to-study populations, thus making it easier to study beneficiaries in these groups in the future. Form Number: CMS–10701 (OMB control number: 0938–NEW); Frequency: Yearly; Affected Public: State, Local, or Tribal Governments; Number of Respondents: 10,000; Total Annual Responses: 10,000; Total Annual Hours: 3,333. (For policy questions regarding this collection contact Luis Perez at 410–786–8557.)

Determination That LUPRON (Leuprolide Acetate) Injection, 1 Milligram/0.2 Milliliter, Was Not Withdrawn From Sale for Reasons of Safety or Effectiveness

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA or Agency) has determined that LUPRON (leuprolide acetate) injection, 1 milligram (mg)/0.2 milliliter (mL), was not withdrawn from sale for reasons of safety or effectiveness. This determination means that FDA will not begin procedures to withdraw approval of abbreviated new drug applications (ANDAs) that refer to this drug product and it will allow FDA to continue to approve ANDAs that refer to the product as long as they meet relevant legal and regulatory requirements.

FOR FURTHER INFORMATION CONTACT: Meadow Platt, Center for Drug Evaluation and Research, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 22, Rm. 5443, Silver Spring, MD 20993–0002, 240–402–4246.

SUPPLEMENTAL INFORMATION: In the Federal Register of Friday, May 10, 2019 (84 FR 20633), in FR Doc. 2019–09692, the following correction is made: On page 20633, in the first column, in the headings of the document, “[Docket No. FDA–2019–D–1798]” is corrected to read “[Docket No. FDA–2018–D–1456].”

Dated: May 24, 2019.

Lowell J. Schiller,
Principal Associate Commissioner for Policy.
