Abstract: The National Emissions Standards for Hazardous Air Pollutants (NESHAP) for Publicly Owned Treatment Works (POTW) (40 CFR part 63, subpart VVV) apply to both existing and new POTW located at a major source of hazardous air pollutants (HAP), or to Group 1 POTW that are either area or major sources. New facilities include those that either commenced construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart VVV.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: None.

Respondents/affected entities: Owners and operators of publicly owned treatment works.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart VVV).

Estimated number of respondents: 13 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 7 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$351 (per year), includes no annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease in the respondent burden from the most recently-approved ICR. This decrease is due to changes in the estimates. The previous ICR renewal had included burden for existing sources to submit periodic reports and maintain records; however, the 2016 amendments clarified that the 13 existing sources are not required to

submit periodic reports or maintain records.

Abstract: This ICR covers the collection of information from those organizations that receive cooperative agreements from EPA under the authority of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) as amended by the Brownfields Utilization, Investment, and Local Development (BUILD) Act (Pub. L. 115-141). CERCLA, as amended, authorizes EPA to award grants or cooperative agreements to states, tribes, local governments, and other eligible entities to support the assessment and cleanup of brownfields sites. Under the Brownfields Amendments, a brownfields site means real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. For funding purposes, EPA uses the term "brownfields property(ies)" synonymously with the term "brownfields sites." The Brownfields Amendments authorize EPA to award several types of cooperative agreements to eligible entities on a competitive basis.

Under subtitle A of the Small Business Liability Relief and Brownfields Revitalization Act, states, tribes, local governments, and other eligible entities can receive assessment cooperative agreements to inventory, characterize, assess, and conduct planning and community involvement related to brownfields properties; cleanup cooperative agreements to carry out cleanup activities at brownfields properties; multipurpose cooperative

agreements to conduct activities allowed under both assessment and cleanup cooperative agreements; cooperative agreements to capitalize revolving loan funds and provide subgrants for cleanup activities; area-wide planning cooperative agreements to develop revitalization plans for brownfields; and environmental workforce and development job training and placement programs. Under subtitle C of the Small Business Liability Relief and Brownfields Revitalization Act, states and tribes can receive cooperative agreements to establish and enhance their response programs through the four elements and meet the public record requirements under the statute. Cooperative agreement recipients (“recipients”) have general reporting and record keeping requirements as a condition of their cooperative agreement that result in burden. A portion of this reporting and record keeping burden is authorized under 2 CFR part 1500 and identified in the EPA’s general grants ICR (OMB Control Number 2030–0020). EPA requires Brownfields program recipients to maintain and report additional information to EPA on the uses and accomplishments associated with funded brownfields activities. EPA uses several forms to assist recipients in reporting the information and to ensure consistency of the information collected. EPA uses this information to meet Federal stewardship responsibilities to manage and track how program funds are being spent, to evaluate the performance of the Brownfields Cleanup and Land Revitalization Program, to meet the Agency’s reporting requirements under the Government Performance Results Act, and to report to Congress and other program stakeholders on the status and accomplishments of the program.

Form Numbers: 6200–03, 6200–04, 6200–14, 6200–17.

Respondents/affected entities: State/local/tribal governments; Non-Profits.

Respondent’s obligation to respond: Required to obtain or Retain Benefits (2 CFR part 1500).

Estimated number of respondents: 5,438 (total).

Frequency of response: Bi-annual for subtitle C recipients; quarterly for subtitle A recipients.

Total estimated burden: 5,765 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$667,181 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 1,888 hours in the total estimated respondent burden compared with the ICR currently approved by

OMB. This increase is partially the result of adding the new Program Activity Levels Form for 128(a) recipients to fill out annually. The remainder of the burden increase is the result of an overall increase in wages and the large increase in the number of responses submitted to ACRES annually due to more grants being awarded. Even with this increase, respondents indicated that improvements in the ACRES reporting system and increased familiarity with the program lead to a lower burden per individual entry.

Director, Regulatory Support Division.
