

ethics, and record of performance under Federal awards—that is, the risk posed by you as an applicant—before we make an award. In doing so, we must consider any information about you that is in the integrity and performance system (currently referred to as the Federal Awardee Performance and Integrity Information System (FAPIS)), accessible through the System for Award Management. You may review and comment on any information about yourself that a Federal agency previously entered and that is currently in FAPIS.

Please note that, if the total value of your currently active grants, cooperative agreements, and procurement contracts from the Federal Government exceeds \$10,000,000, the reporting requirements in 2 CFR part 200, appendix XII, require you to report certain integrity information to FAPIS semiannually. Please review the requirements in 2 CFR part 200, appendix XII, if this grant plus all the other Federal funds you receive exceed \$10,000,000.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN); or we may send you an email containing a link to access an electronic version of your GAN. We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Open Licensing Requirements:* Unless an exception applies, if you are awarded a grant under this competition, you will be required to openly license to the public grant deliverables created in whole, or in part, with Department grant funds. When the deliverable consists of modifications to pre-existing works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of pre-existing works. Additionally, a grantee or

subgrantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

(c) Under 34 CFR 75.250(b), the Secretary may provide a grantee with additional funding for data collection analysis and reporting. In this case the Secretary establishes a data collection period.

5. *Performance Measures:* We have established four performance measures for the ANE program: (1) The percentage of Alaska Native students in schools served by the program who meet or exceed proficiency standards in reading, mathematics, and science on the Alaska State assessments; (2) the percentage of Alaska Native children participating in early learning and preschool programs who consistently demonstrate school readiness in language and literacy as measured by the Revised Alaska Development Profile; (3) the percentage of Alaska Native students in schools served by the program who graduate from high school with a high school diploma in four years; and (4) the number of Alaska Native programs that primarily focus on Alaska Native culture and language.

6. *Continuation Awards:* In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: Whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds

in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

VII. Other Information

Accessible Format: Individuals with disabilities can obtain this document and a copy of the application package in an accessible format (e.g., braille, large print, audiotape, or compact disc) on request to the program contact person listed under **FOR FURTHER INFORMATION CONTACT**.

Electronic Access to This Document: The official version of this document is the document published in the **Federal Register**. You may access the official edition of the **Federal Register** and the Code of Federal Regulations at www.govinfo.gov. At this site you can view this document, as well as all other documents of this Department published in the **Federal Register**, in text or Portable Document Format (PDF). To use PDF you must have Adobe Acrobat Reader, which is available free at the site.

You may also access documents of the Department published in the **Federal Register** by using the article search feature at www.federalregister.gov. Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

Frank T. Brogan,

Assistant Secretary for Elementary and Secondary Education.

BILLING CODE 4000-01-P

ELECTION ASSISTANCE COMMISSION

Extension of Comment Period for the Proposed Voluntary Voting System Guidelines 2.0 Principles and Guidelines

AGENCY: United States Election Assistance Commission.

ACTION: Notice of extension of the comment period for the Voluntary Voting System Guidelines 2.0 Principles and Guidelines.

SUMMARY: In accordance with the Help America Vote Act of 2002, the U.S. Election Assistance Commission (EAC) is publishing the Voluntary Voting System Guidelines 2.0 Principles and Guidelines (VVSG 2.0) for public comment. The VVSG 2.0 Principles and Guidelines provide high level principles and guidelines to which voting systems can be tested to determine if they provide basic functionality, accessibility, and security capabilities.

DATES: The Comment period has been extended to 5:00 p.m. EST on June 7, 2019.

Submission of Comments: The public may submit comments through one of the two following methods provided by the EAC: (1) By mail to Voluntary Voting System Guidelines 2.0 Principles and Guidelines Comments, U.S. Election Assistance Commission, 1335 East-West Highway, Suite 4300, Silver Spring, Maryland 20910, and (2) via online submission form at <https://www.eac.gov/vvsg-form/>. The email address votingssystemguidelines@eac.gov is no longer accepting comments.

In order to allow efficient and effective review of comments the EAC requests that:

(1) Comments refer to the specific section that is the subject of the comment.

(2) General comments regarding the entire document or comments that refer to more than one section be made as specifically as possible so that EAC can clearly understand to which portion(s) of the documents the comment refers.

(3) To the extent that a comment suggests a change in the wording of a Principal or Guideline or section of the guidelines, please provide proposed language for the suggested change.

To Obtain a Copy of the VVSG Volume Version 2.0 Principles and Guidelines: A complete copy of the draft VVSG 2.0 Principles and Guidelines is available from the EAC in electronic format. An electronic copy can be downloaded in PDF format on the EAC's website, <http://www.eac.gov>. In order to obtain a paper copy of the TGDC draft recommendations please mail a written request to Voluntary Voting System Guidelines 2.0 Principles and Guidelines Comments, U.S. Election Assistance Commission, 1335 East-West Highway, Suite 4300, Silver Spring, Maryland 20910.

FOR FURTHER INFORMATION CONTACT: Jerome Lavoto, Phone (301) 563-3929, or at <https://www.eac.gov/contact/>.

SUPPLEMENTARY INFORMATION: As required by Section 222(d) of HAVA the EAC is placing the proposed VVSG 2.0 Principles and Guidelines as submitted

by the Technical Guidelines Development Committee (TGDC) out for a 90 public comment period. The EAC is asking for comments regarding all sections of the Principles and Guidelines including the proposed Structure of the VVSG 2.0. The Principles and Guidelines will subsequently be accompanied by Requirements, which will be distributed to the TGDC, the Standards Board, the Board of Advisors and submitted for public comment and consideration by the Commission.

The EAC made the decision to undertake the drafting of VVSG 2.0 Principles and Guidelines as a result of feedback received over several years from a variety of stakeholders including, but not limited to State and local election officials, voting system manufacturers and usability, accessibility and security interest groups.

The EAC Technical Guidelines Development Committee (TGDC) proposed a different structure for developing the VVSG 2.0 than in previous years. This structure differs significantly from previous versions of the VVSG because it is a high level principles and guidelines document. The Principles are high-level system design goals. The Guidelines are a broad description of the functions that make up a voting system. This new structure has significantly decreased the size and complexity of the VVSG from previous versions.

Unlike previous versions of the VVSG, this proposed version recommends that the Requirements for testing a voting system be separate and apart from the Principles and Guidelines. As proposed, the VVSG 2.0 Principles and Guidelines will be accompanied by a separate document that details the Requirements for how systems can meet the new Principles and Guidelines in order to obtain certification. The Requirements will subsequently be accompanied by Test Assertions for how the accredited test laboratories will validate that the system complies with the Requirements and the Principles and Guidelines.

The Requirements will be adjunct to the VVSG Principles and Guidelines itself and will be subject to public review and comment, including distribution to the EAC's TGDC, Standards Board and Board of Advisors for comment prior to consideration and implementation by the Commission.

The TGDC unanimously approved to recommend VVSG 2.0 Principles and Guidelines on September 12, 2017, and sent the Principles and Guidelines to the EAC Executive Director via the

Director of the National Institute of Science and Technology (NIST), in the capacity of the Chair of the TGDC. The Commission will accept comments on the proposed structure of the VVSG 2.0 Principles and Guidelines as well as on the content of the Principles and Guidelines.

The Voluntary Voting System Guidelines version 2.0 Principles and Guidelines (VVSG 2.0), is the fifth iteration of national level voting system standards. The Federal Election Commission published the first two sets of federal standards in 1990 and 2002. The EAC then adopted Version 1.0 of the VVSG on December 13, 2005. In an effort to update and improve version 1.0 of the VVSG, on March 31, 2015, the EAC commissioners unanimously approved VVSG 1.1.
