Scoping Meetings

Commission staff will hold two scoping meetings in the vicinity of the project at the times and places noted below. The daytime meeting will focus on resource agency, Indian tribes, and non-governmental organization concerns, while the evening meeting is primarily for receiving input from the public. We invite all interested individuals, organizations, and agencies to attend one or both of the meetings, and to assist staff in identifying particular study needs, as well as the scope of environmental issues to be addressed in the environmental document. The times and locations of these meetings are as follows:

SD1, which outlines the subject areas to be addressed in the environmental document, was mailed to the individuals and entities on the Commission’s mailing list. Copies of SD1 will be available at the scoping meetings, or may be viewed on the web using the “eLibrary” link. Follow the directions for accessing information in paragraph n. Based on all oral and written comments, a Scoping Document 2 (SD2) may be issued. SD2 may include a revised process plan and schedule, as well as a list of issues, identified through the scoping process.

Environmental Site Review

The potential applicant and Commission staff will conduct an Environmental Site Review of the project on Wednesday, June 26, 2019, starting at 9:00 a.m. All participants should meet at Cutler Marsh Marina recreation site—also known as Valley View Marina—located on the west side of Cutler Reservoir on Highway 30, just west of the Highway 30 bridge over the reservoir. Driving directions: Starting at L.W.’s Truck Stop in Logan, Utah (southwest corner of 1000 W and 200 N), drive west on Highway 30 (also 200 N) approximately 5 miles. After crossing Cutler Reservoir, the Cutler Marsh Marina Recreation Site will be on the south side of the highway; turn left from the highway into the gravel parking lot.

Meeting Objectives

At the scoping meetings, staff will: (1) Initiate scoping of the issues; (2) review and discuss existing conditions and resource management objectives; (3) review and discuss existing information and identify preliminary information and study needs; (4) review and discuss the process plan and schedule for pre-filing activity that incorporates the time frames provided in Part 5 of the Commission’s regulations and, to the extent possible, maximizes coordination of federal, state, and tribal permitting and certification processes; and (5) discuss the appropriateness of any federal or state agency or Indian tribe acting as a cooperating agency for development of an environmental document.

Meeting Procedures

The meetings will be recorded by a stenographer and will be placed in the public records of the project.

Kimberly D. Bosc, Secretary.
