B. Needs and Uses

FAR subpart 50.1 prescribes policies and procedures that allow contracts to be entered into, amended, or modified in order to facilitate national defense under the extraordinary emergency authority granted under 50 U.S.C. 1431 et seq. and Executive Order (E.O.) 10789 dated November 14, 1958, et seq. This authority applies to the Government Printing Office; the Department of Homeland Security; the Tennessee Valley Authority; the National Aeronautics and Space Administration; the Department of Defense; the Department of the Army; the Department of the Navy; the Department of the Air Force; the Department of the Treasury; the Department of Agriculture; the Department of Commerce; and the Department of Transportation. Also included is the Department of Energy for functions transferred to that Department from other authorized agencies and any other agency that may be authorized by the President.

In order for a contractor to be granted relief under the FAR, specific evidence must be submitted which supports the firm’s assertion that relief is appropriate and that the matter cannot be disposed of under the terms of the contract.

FAR 50.103–3 specifies the minimum information that a contractor must include in a request for contract adjustment in accordance with FAR 50–103–1 and 50.103–2.

FAR 50–103–4 sets forth additional information that the contracting officer or other agency official may request from the contractor to support any request made under FAR 50.103–3.

FAR 50.104–3 sets forth the information that the contractor shall include in a request for the indemnification clause to cover unusually hazardous or nuclear risks. FAR 52.250–1, Indemnification under Public Law 850804, requires in paragraph (g) that the contractor shall promptly notify the contracting officer of any claim or action against, or loss by, the contractor or any subcontractors that may reasonably to involve indemnification under the clause.

The information is used by the Government to determine if relief can be granted under FAR and to determine the appropriate type and amount of relief.
