SUPPLEMENTARY INFORMATION:

Title: Third Party Testing of Children's Products.

OMB Number: 3041-0159.

Type of Review: Renewal of collection for third party testing of children's products and inclusion of the following into this collection of information: (1) The previously approved burden for marking and labeling of certain durable infant and toddler products; (2) the labeling requirements set forth in the rule establishing requirements for electrically operated toys or other electrically operated articles intended for children (16 CFR part 1505) (electrically operated toys and other articles rule) and the recordkeeping requirements set forth in the rule that are not also covered by the Commission's third party testing rule at 16 CFR part 1107; and (3) recordkeeping

and labeling requirements set forth in the ban on articles known as "baby bouncers" or "walker-jumpers," or similar articles that are not covered by 16 CFR part 1216 and that are not also covered by the testing rule or the rules issued under section 104 of the Consumer Product Safety Improvement Act (baby bouncer/walker-jumper rule, 16 CFR 1500.18(a)(6) and 1500.86(a)(4)).

General Description of Collection

Testing and Certification: On November 8, 2011, the Commission issued two rules for implementing third party testing and certification of children's products, as required by section 14 of the Consumer Product Safety Act (CPSA):

- *Testing and Labeling Pertaining to Product Certification* (76 FR 69482, codified at 16 CFR part 1107; the testing rule); and

- *Conditions and Requirements for Relying on Component Part Testing or Certification, or Another Party's Finished Product Testing or Certification to Meet Testing and Certification Requirements* (76 FR 69547, codified at 16 CFR part 1109; the component part rule).

The testing rule establishes requirements for manufacturers to conduct initial third party testing and certification of children's products, testing when there has been a material change in the product, continuing testing (periodic testing), and guarding against undue influence. A final rule on *Representative Samples for Periodic Testing of Children's Products* (77 FR 72205, Dec. 5, 2012) amended the testing rule to require that representative samples be selected for periodic testing of children's products.

The component part rule, a companion to the testing rule, is intended to reduce third party testing burdens by providing all parties involved in the required testing and certifying of children's products the flexibility to conduct or rely upon testing that is the easiest and least expensive. Certification of a children's product can be based upon one or more of the following: (a) Component part testing; (b) component part certification; (c) another party's finished product testing; or (d) another party's finished product certification.

Section 1107.26 of the testing rule states the records required for testing and selecting representative samples, including a certificate, and records documenting third party testing and related sampling plans. 16 CFR 1107.26. These requirements largely overlap the recordkeeping requirements in the component part rule, codified at 16 CFR
