

(2) A participant's spouse must consent to any partial withdrawal election (other than an election to purchase this type of an annuity with such amount) and waive his or her right to this annuity with respect to the amount withdrawn.

(3) A spouse must consent to any change in the amount or frequency of an existing installment payment series and waive his or her right to this annuity with respect to the applicable amount. Spousal consent is not required to stop installment payments.

(4) Unless the TSP granted the participant an exception under this subpart to the spousal notification requirement within 90 days of the date the withdrawal form is processed by the TSP, to show that the spouse has consented to a different total or partial withdrawal election or installment payment change and waived the right to this annuity with respect to the applicable amount, the participant must submit to the TSP record keeper a properly completed withdrawal request form, signed by his or her spouse in the presence of a notary. If the TSP granted the participant an exception to the signature requirement, the participant should enclose a copy of the TSP's approval letter with the withdrawal form.

(5) The spouse's consent and waiver is irrevocable for the applicable withdrawal or installment payment change once the TSP record keeper has received it.

■ 20. Amend § 1650.62 by revising paragraphs (b) and (c) to read as follows:

**§ 1650.62 Spousal rights applicable to in-service withdrawals.**

\* \* \* \* \*

(b) Unless the participant was granted an exception under this subpart to the spousal notification requirement within 90 days of the date on which the withdrawal request is processed by the TSP, the spouse of a CSRS participant is entitled to notice when the participant applies for an in-service withdrawal. If the TSP granted the participant an exception to the notice requirement, the participant should enclose a copy of the TSP's approval letter with the withdrawal form. The participant must provide the TSP record keeper with the spouse's correct address. The TSP record keeper will send the required notice by first class mail to the spouse at the most recent address provided by the participant.

(c) Unless the participant was granted an exception under this subpart to the signature requirement within 90 days of the date the withdrawal form is processed by the TSP, before obtaining

an in-service withdrawal, a participant who is covered by FERS or who is a member of the uniformed services must obtain the consent of his or her spouse and waiver of the spouse's right to a joint and survivor annuity described in § 1650.61(c) with respect to the applicable amount. To show the spouse's consent and waiver, a participant must submit to the TSP record keeper a properly completed withdrawal request form, signed by his or her spouse in the presence of a notary. Once a form containing the spouse's consent and waiver has been submitted to the TSP record keeper, the spouse's consent is irrevocable for that withdrawal.

**II. The Petitioner**

The petition was submitted by Michael D. Meier on behalf of Southern Nuclear Operating Company. Michael D. Meier is the Vice President of Regulatory Affairs for Southern Nuclear Operating Company, a nuclear energy facility operator.

**III. The Petition**

The petitioner is requesting that the NRC revise part 171 of title 10 of the *Code of Federal Regulations* (10 CFR), “Annual fees for reactor licenses and fuel cycle licenses and materials licenses, including holders of certificates of compliance, registrations, and quality assurance program approvals and government agencies licensed by the NRC.” Specifically, the petitioner is requesting that the NRC revise the timing of when annual license fees for holders of a combined license under 10 CFR part 52, “Licenses, certifications, and approvals for nuclear power plants,” commence, to coincide with a licensee’s commercial operation, rather than upon a 10 CFR 52.103(g) finding. The petition may be found in ADAMS under Accession No. ML19081A015.

**IV. Discussion of the Petition**

The petitioner requests that the NRC change the start date of assessment of annual fees for combined license holders under part 52 to align with the date when a reactor is declared available for commercial operation, instead of the current requirement in 10 CFR 171.15(a) to commence at the date when the Commission has made the finding under § 52.103(g) that all inspections, tests, analyses, and acceptance criteria are

met. The petitioner observes that a startup period of time is required, after the licensee receives NRC’s authorization to operate, to complete the remaining tasks necessary to operate the power reactor commercially. The petitioner asserts that at the time of a 10 CFR 52.103(g) finding, the power reactor has not yet been loaded with fuel, undergone startup testing, power ascension, commissioning, or other actions necessary to reliably generate energy for the production of revenue. The petitioner states that (1) a licensee may not complete these startup activities and achieve commercial operation until several months after the § 52.103(g) finding is made, and (2) the licensee should not be subject to the annual fee required under § 171.15, “Annual fees: Reactor licenses and independent spent fuel storage licenses,” until the nuclear power plant receives financial benefit from commercial operation beyond minimal amounts of revenue derived from test energy. The petitioner also raises an issue regarding the fairness of charging an annual license fee before commercial operations commence.

**V. Conclusion**

The NRC has determined that the petition meets the threshold sufficiency requirements for docketing a petition for rulemaking under 10 CFR 2.803. The NRC is examining the issues raised in PRM-171-1 to determine whether they should be considered in rulemaking.

Dated at Rockville, Maryland, this 4th day of June, 2019.

For the Nuclear Regulatory Commission.
