and implemented, the comprehensive support and improvement plan will be monitored and periodically reviewed by the BIE.

(b) In regards to high schools that have been identified as having failed to graduate one-third or more of their students, the BIE may:

(1) Permit differentiated improvement activities that use evidence-based interventions in the case of a school that predominantly serves students;

(i) Returning to education after having exited secondary school without a regular high school diploma, or

(ii) Who, based on their grade or age, are significantly off track to accumulate sufficient academic credits to meet high school graduation requirements; and

(2) In the case of a school that has a total enrollment of fewer than 100 students, permit the BIE-funded school to forego implementation of improvement activities.

§ 30.122 How will the Secretary implement targeted support and improvement?

(a) Using the system of annual meaningful differentiation of schools, the Secretary will notify each BIE-funded school in which any subgroup of students is consistently underperforming.

(b) Each school that has been notified must develop and implement, in partnership with stakeholders (including principals and other school leaders, teachers, and parents), a school-level targeted support and improvement plan to improve student outcomes based on the BIE’s indicators for each subgroup of students that was the subject of such notification consistent with the Act. Targeted support and improvement plans must include evidence-based interventions, will be approved by the BIE prior to implementation, and will be monitored by the BIE upon submission and implementation. Targeted support and improvement plans must result in additional action following unsuccessful implementation of the plan after a number of years as determined by the BIE.

§ 30.124 How will the Secretary implement continued support for Bureau-funded schools and school improvement?

(a) The Secretary will establish exit criteria for:

(1) Schools identified for comprehensive support and improvement, which, if not satisfied within a BIE-determined number of years (not to exceed four (4) years), will result in more rigorous BIE-determined action, such as implementation of interventions (which may include addressing school-level operations); and

(2) Schools identified for additional targeted support.

(b) The Secretary will also periodically review resource allocation to support school improvement.

§ 30.125 What is required for the Bureau to meet its reporting responsibilities?

The Bureau is required to prepare and disseminate widely to the public an annual report card for the BIE-funded school system as a whole, and also report cards for individual BIE-funded schools, consistent with the requirements of section 1111(h) of the Act. The BIE’s annual report card will be made available on the internet along with all BIE-funded school report cards.

§ 30.126 What information collections have been approved?

The collections of information in this part have been approved by the Office of Management and Budget under 44 U.S.C. 3501 et seq. and assigned OMB Control Number 1076-NEW. Response is required to obtain a benefit. A Federal agency may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB Control Number.

Tara Sweeney,
Assistant Secretary—Indian Affairs.

BILLING CODE 4337–15–P

DEPARTMENT OF THE INTERIOR
Office of Surface Mining Reclamation and Enforcement

30 CFR Part 913

[SAT No. IL–109–FOR; Docket ID: OSM–2019–0003 S1D1S SS08011000 SX064A000 190S180110; S2D2S SS08011000 SX064A000 19XS501520]

Illinois Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Proposed rule; reopening of the public comment period and opportunity for public hearing on proposed amendment.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement (OSMRE), are reopening the public comment period and providing an opportunity for a public hearing on a proposed amendment to the Illinois regulatory program (Illinois program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act) published on May 1, 2019. The public comment period is being reopened and an opportunity for a public hearing is being provided at the request of three Illinois citizen’s organizations. The granting of this request affords the public additional time to provide written comment and the opportunity to request to speak at a public hearing.

Illinois proposes revisions to its regulations, including allowing the extraction of coal as an incidental part of a government-financed construction project, revising its Ownership and Control rules, and clarifying land use changes requiring a significant permit revision. Illinois intends to revise its program to be as effective as the Federal regulations.

This document gives the times and locations where the Illinois program documents and this proposed amendment to that program are available for your inspection, establishes the new comment period during which you may submit written comments on the amendment, and describes the procedures that we will follow for the public hearing, if one is requested.

DATES: We will accept written comments on this amendment until 4:00 p.m., CDT, June 24, 2019. We will hold a public hearing on the amendment at 5:30 p.m. on June 18, 2019 at our office location listed in ADDRESSES. We will accept requests to speak at a hearing until 4:00 p.m., CDT on June 13, 2019.
SUPPLEMENTARY INFORMATION:
On May 1, 2019 (84 FR 18428), we published a proposed rule that would revise the Illinois program. By letter dated December 5, 2018 (Administrative Record No. IL–5104), Illinois sent us an amendment to its program under SMCRA (30 U.S.C. 1201 et seq.) at its own initiative. By email dated December 11, 2018, Illinois requested that OSMRE’s review be put on hold until they could resubmit the proposed amendment due to editorial changes requested by the Illinois Joint Committee on Administrative Rules. Illinois resubmitted the proposed amendment to OSMRE on February 20, 2019. OSMRE will use this date for its review. Below is a summary of the changes proposed by Illinois. The full text of the program amendment is available for you to read at the locations listed above under ADDRESSES. Illinois proposes to revise the Illinois Surface Coal Mining Land Conservation and Reclamation Act (225 ILCS 720), Section 1.06, “Scope of the Act,” by adding language allowing coal extraction as an incidental part of a government-financed project. The language added is nearly identical to that found in Section 528 of SMCRA (30 U.S.C. 1278).

Illinois also proposes to revise the following Parts of Title 62 of the Illinois Administrative Code:

Section 1701 Appendix A. Definitions
Illinois proposes to revise its regulation at section 1701 Appendix A, amending a number of its definitions, including those for “ownership,” “control,” and “violations,” to conform with the Federal definitions at 30 CFR 701.5 and 707.5.

Section 1703 Exemption for Coal Extraction Incident to Government-Financed Highway or Other Construction
Illinois proposes adding a new section 1703 to allow the extraction of coal as an incidental part of a government-financed construction project, which incorporates language identical to the Federal regulations at 30 CFR part 707.

Section 1773 Requirements for Permits and Permit Processing
Illinois proposes to amend section 1773.15, “Review of Permit Applications” to comport with changes made to the Federal regulations at 30 CFR 773.12. These changes preclude the Department from considering violations upstream of the permit applicant by removing “person who owns or controls the applicant” from this section.

Illinois also proposes to amend section 1773.25, “Standards for Challenging Ownership or Control Links and the Status Violations,” to update a subsection reference.

Section 1774 Permit Revisions
Illinois proposes to amend section 1774.13, “Permit Revisions,” to provide further clarification as to which reclamation plan land use changes require a significant revision for a permit application. Illinois proposes to remove the requirement for a significant revision for land use changes involving greater than five percent of the total permit acreage after finding the five percent limitation to be unduly restrictive and burdensome. Instead, the Department will consider changes in the reclamation plan for post-mining land use in determining whether a significant revision to the permit must be obtained. These changes are proposed in order to make the Illinois rules as effective as the Federal regulations at 30 CFR 774.13.

Section 1778 Permit Applications—Minimum Requirements for Legal, Financial, Compliance, and Related Information
Illinois proposes adding a new section 1778.9, “Certifying and Updating Existing Permit Application Information,” which incorporates language identical to the Federal regulations at 30 CFR 778.9.

Illinois proposes to amend section 1778.13, “Identification of Interests,” to comport with changes made to the Federal regulations at 30 CFR 778.11 and 778.12.

Illinois proposes to amend section 1778.15, “Right of Entry Information,” to add language found in the Federal regulations at 30 CFR 778.13 related to property interest information to the existing right of entry language in this section, which corresponds to 30 CFR 778.15, so that all property related rules are located in one section.

During the initial comment period, we received requests from three citizen’s organizations (Administrative Record No. IL–5104, IL–5106 and IL–5108) to extend the public comment period and the date to request to testify at a public hearing. Based on that request, we have extended both time periods as described in DATES in this notice.

Public Hearing
The hearing will be open to anyone who would like to attend and/or testify. The primary purpose of the public hearing is to obtain your comments on the proposed rule so that we can prepare a complete and objective analysis of the proposal. The purpose of the hearing officer is to conduct the hearing and receive the comments submitted. Comments submitted during the hearing will be responded to in the preamble to the final rule, not at the hearing. If you wish to speak at the public hearing, contact the person listed under FOR FURTHER INFORMATION.
I. The State’s Submittal

A. What rules did the State submit?

On March 5, 2014, the EPA determined that the submittal for MCAQD Rule 337 met the completeness criteria in 40 CFR part 51 Appendix V, which must be met before formal EPA review.

B. Are there other versions of these rules?

We approved earlier versions of Rule 337 and Rule 342 into the SIP on February 9, 1998 (63 FR 6489). The MCAQD adopted revisions to the SIP-approved version of Rule 337 on August 2016.

II. The EPA’s Evaluation and Action

A. How is the EPA evaluating the rules?

The EPA will generally not consider comments or comment contents located outside of the primary submission (i.e., on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the FOR FURTHER INFORMATION CONTACT section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit https://www.epa.gov/dockets/commenting-epa-dockets.

B. Do the rules meet the evaluation criteria?

These revisions concern emissions of volatile organic compounds (VOCs) from graphic arts and from coating of wood furniture and fixtures. We are proposing to approve two local rules to regulate these emission sources under the Clean Air Act (CAA or the Act). We are taking comments on this proposal and plan to follow with a final action.

III. Incorporation by Reference

For comments, see Table 1, submitted by the Arizona Quality Department (MCAQD) portion of the Arizona State Implementation Plan (SIP). These revisions concern emissions of volatile organic compounds (VOCs) from graphic arts and from coating of wood furniture and fixtures. We are proposing to approve two local rules to regulate these emission sources under the Clean Air Act (CAA or the Act). We are taking comments on this proposal and plan to follow with a final action.

On December 22, 2017, the submittal for MCAQD Rule 342 was deemed by operation of law to meet the completeness criteria in 40 CFR part 51 Appendix V, which must be met before formal EPA review.

IV. Statutory and Executive Order Reviews

For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit https://www.epa.gov/dockets/commenting-epa-dockets.

A. How is the EPA evaluating the rules?

The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (i.e., on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the FOR FURTHER INFORMATION CONTACT section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit https://www.epa.gov/dockets/commenting-epa-dockets.
