Pursuant to 33 CFR 165.23, entry into, transiting, or anchoring within the safety zones during an enforcement period is prohibited unless authorized by the Captain of the Port Buffalo or a designated representative. Those seeking permission to enter the safety zones may request permission from the Captain of Port Buffalo via channel 16, VHF-FM. Vessels and persons granted permission to enter the safety zones shall obey the directions of the Captain of the Port Buffalo or a designated representative. While within a safety zone, all vessels shall operate at the minimum speed necessary to maintain a safe course.

This notice of enforcement is issued under authority of 33 CFR 165.939 and 5 U.S.C. 552 (a). In addition to this notice of enforcement in the **Federal Register**, the Coast Guard will provide the maritime community with advance notification of this enforcement period via Broadcast Notice to Mariners or Local Notice to Mariners. If the Captain of the Port Buffalo determines that the safety zone need not be enforced for the full duration stated in this notice he or she may use a Broadcast Notice to

Mariners to grant general permission to enter the respective safety zone.

Dated: June 5, 2019.

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA-R08-OAR-2018-0735; FRL-9994-88-Region 8]

#### Approval and Promulgation of Air Quality Implementation Plans; State of Utah; Revisions to the Utah Division of Administrative Rules; R307-101-3

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is finalizing approval of revisions to the Utah Administrative Code (UAC), specifically R307-101-3 submitted by the State of Utah on October 13, 2016. This submittal requests a State Implementation Plan (SIP) revision to change the date of the referenced Code of **Federal Register** (CFR) from July 1, 2014, to July 1, 2015. This action is being taken under section 110 of the Clean Air Act (CAA or Act). **DATES:** This rule is effective on July 11, 2019.

**ADDRESSES:** The EPA has established a docket for this action under Docket ID No. EPA-R08-OAR-2018-0735. All documents in the docket are listed on the <http://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through <http://www.regulations.gov>, or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information. **FOR FURTHER INFORMATION CONTACT:** Amrita Singh, Air and Radiation Division, EPA, Region 8, Mailcode 8ARD-QP, 1595 Wynkoop Street, Denver, Colorado 80202-1129, (303) 312-6103, [singh.amrita@epa.gov](mailto:singh.amrita@epa.gov) **SUPPLEMENTARY INFORMATION:** Throughout this document "we," "us," and "our" means the EPA.

## I. Background

On April 9, 2019 (84 FR 14073), the EPA proposed to approve the SIP revision to R307–101–3, General Requirements; Version of Code of Federal Regulations Incorporated by Reference, where the version of the 40 CFR is being changed from July 1, 2014, to July 1, 2015. The submittal was signed by the Governor on August 17, 2016, and officially submitted by the State on October 13, 2016.

Additionally, within the October 13, 2016 submittal, the Utah Division of Air Quality (UDAQ) submitted revisions to R307–210, Stationary Sources, Standards of Performance for New Stationary Sources and R307–214, National Emissions Standards for Hazardous Air Pollutants. On April 9, 2019 (84 FR 14073), the EPA did not propose any action on these revisions since these rules have already been automatically delegated to the State of Utah.<sup>1</sup>

## II. Response to Comments

The EPA did not receive any comments on the proposed action.

## III. Final Action

The EPA is finalizing approval of the SIP revision to R307–101–3, General Requirements; Version of Code of Federal Regulations Incorporated by Reference, where the date was changed from 2014 to 2015, signed by the Governor on August 17, 2016, and officially submitted by the State on October 13, 2016. Additionally, the EPA is finalizing its position to take no action on the revisions made to R307–210, Stationary Sources, Standards of Performance for New Stationary Sources and R307–214, National Emissions Standards for Hazardous Air Pollutants; since these rules have already been automatically delegated to the State of Utah.

## IV. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of R307–101–3 into the SIP submitted by the State of Utah as discussed in the proposed rule. The EPA has made, and will continue to make, these materials generally available through [www.regulations.gov](http://www.regulations.gov) and at the EPA Region 8 Office (please contact the person identified in the **FOR FURTHER**

**INFORMATION CONTACT** section of this preamble for more information).

Therefore, these materials have been approved by the EPA for inclusion in the SIP, have been incorporated by reference by the EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of the EPA's approval, and will be incorporated by reference in the next update to the SIP compilation.<sup>2</sup>

## V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866;
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of section 12(d) of the National

Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by August 12, 2019. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)
