space-based Global Navigation Satellite System (GNSS) that has reliable location and time information in all weather and at all times and anywhere on or near the earth when and where there is an unobstructed line of sight to four or more GPS satellites. Selective Availability/Anti-Spoofing Module (SAASM) (AN/PSN-11) is used by military GPS receivers to allow decryption of precision GPS coordinates. In addition, the GPS Antenna System (GAS-1) provides protection from enemy manipulation of the GPS system. The GPS hardware is UNCLASSIFIED. When electrical power is applied, the system is classified up to SECRET.

g. Acoustics algorithms are used to process dipping sonar and sonobuoy data for target tracking and for the Acoustics Mission Planner (AMP), which is a tactical aid employed to optimize the deployment of sonobuoys and the dipping sonar. Acoustics hardware is UNCLASSIFIED. The acoustics system is classified up to SECRET when environmental and threat databases are loaded and/or the system is processing acoustical data.

h. The AN/APS-153 multi-mode radar with an integrated IFF and Inverse Synthetic Aperture (ISAR) provides target surveillance/detection capability. The AN/APS-153 hardware is unclassified. When electrical power is applied and mission data loaded, the AN/APS-153 is classified up to SECRET.

i. The AN/ALQ-210 (ESM) system identifies the location of an emitter. The ability of the system to identify specific emitters depends on the data provided by Indian Navy. The AN/ALQ-210 hardware is UNCLASSIFIED. When electrical power is applied and mission data loaded, the AN/ALQ-210 system is classified up to SECRET.

j. The AN/AAS-44(V) Multi-spectral Targeting System (MTS) operates in day/night and adverse weather conditions. Imagery is provided by a Forward Looking Infrared (FLIR) sensor, a color/monochrome day television (DTV) camera, and a Low-Light TV (LLTV). The AN/AAS-44(V) hardware is UNCLASSIFIED. When electrical power is applied, the AN/AAS-44(V) is classified up to SECRET.

k. Ultra High Frequency/Very High Frequency (UHF/VHF) Radios (ARC-210) contain embedded sensitive encryption algorithms and keying material. The purchasing country will utilize COMSEC devices in accordance with set procedures. The ARC-210 hardware is UNCLASSIFIED. When electrical power is applied and mission data loaded, the ARC-210 is classified up to SECRET.

l. Advanced Data Transfer System (ADTS) with Type 1 encryption for data at rest.

m. Satellite Communications Demand Assigned Multiple Access (SATCOM DAMA), which provides increased, interoperable communications capabilities with US forces. SATCOM DAMA hardware is UNCLASSIFIED. When electrical power is applied and mission data loaded these systems are classified up to SECRET.

2. All the mission data, including sensitive parameters, is loaded from an off board station before each flight and does not stay with the aircraft after electrical power has been removed. Sensitive technologies are protected as defined in the program protection and anti-tamper plans. The mission data and off board station are classified up to SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Government of India can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to India.

Arms Sales Notification

ACTION: Arms sales notice.

SUMMARY: The Department of Defense is publishing the unclassified text of an arms sales notification.

FOR FURTHER INFORMATION CONTACT: Karma Job at karma.d.job.civ@mail.mil or (703) 697–8976.

SUPPLEMENTARY INFORMATION: This 36(b)(1) arms sales notification is published to fulfill the requirements of section 155 of Public Law 104–164 dated July 21, 1996. The following is a copy of a letter to the Speaker of the House of Representatives, Transmittal 19–34 with attached Policy Justification and Sensitivity of Technology.

Dated: June 10, 2019.

Aaron T. Siegel,
Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001–06–P
The Honorable Nancy Pelosi  
Speaker of the House  
U.S. House of Representatives  
H-209, The Capitol  
Washington, DC 20515

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 19-34 concerning the Navy’s proposed Letter(s) of Offer and Acceptance to the Government of the Czech Republic for defense articles and services estimated to cost $205 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

Charles W. Hooper  
Lieutenant General, USA  
Director

3. Sensitivity of Technology

BILLING CODE 5001–06–C
Transmittal No. 19-34
Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: Government of the Czech Republic
(ii) Total Estimated Value:
Major Defense Equipment * $180 million
Other ........................................ $ 25 million
TOTAL ................................ $205 million

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:
Major Defense Equipment (MDE):
Four (4) AH-1Z Attack Helicopters
Eight (8) T700-GE-701D Engines (installed)
Eight (8) Honeywell Embedded Global Positioning Systems with Navigation (EGI) and Precise Positioning Service (PPS) (installed)
Fourteen (14) AGM-114 Hellfire Missiles
Non-MDE:
Also included is communication equipment, electronic warfare systems, M197 20mm machine guns, Target Sight System, support equipment, spare engine containers, spare and repair parts, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistics and program support.

(iv) Military Department: Navy [EZ-P-SBF]
(v) Prior Related Cases, if any: None
(vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None
(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex
(viii) Date Report Delivered to Congress: May 3, 2019

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION
Czech Republic—AH-1Z Attack Helicopters

The Government of Czech Republic has requested to buy four (4) AH-1Z attack helicopters, eight (8) T700-GE-701D engines (installed), eight (8) Honeywell Embedded Global Positioning Systems with Inertial Navigation (EGI) and Precise Positioning Service (PPS) (installed), and fourteen
The principal contractors will be Bell Helicopter, Textron, Fort Worth, Texas; and General Electric Company, Lynn, Massachusetts. There are no known offset agreements in connection with this potential sale. Implementation of this proposed sale will require multiple trips by U.S. Government and contractor representatives to participate in program and technical reviews plus training and maintenance support in country, on a temporary basis, for a period of twenty-four (24) months. It will also require three (3) contractor representatives to reside in country for a period of two (2) years to support this program. There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 19-34
Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex
Item No. vii
(vii) Sensitivity of Technology:
1. The AH-1Z Helicopter is a twin-engine attack helicopter developed for the United States Marine Corps. The AH-1Z incorporates new rotor technology with upgraded military avionics, weapons systems, and electro-optical sensors in an integrated weapons platform. It has improved survivability and can find targets at longer ranges and attack them with precision weapons. The four blades are made of composites, which have an increased ballistic survivability, and there is a semi-automatic folding system for stowage aboard amphibious assault ships.
2. The Z-model has an integrated avionics system (IAS) which includes two (2) mission computers and an automatic flight control system. Each crew station has two (2) 8x6- inch multifunction liquid crystal displays (LCD) and one (1) 4.2x4.2-inch dual function LCD display. The communications suite will have NONCOMSEC ARC 210 UHF/NHF radios with associated communications equipment. The navigation suite includes a Precise Positioning System (SPS) Honeywell embedded GPS inertial navigation system (EGI), a digital map system, and a low-airspeed air data subsystem, which allows weapons delivery when hovering.
3. The crew is equipped with the Optimized Top Owl (OTO) helmet-mounted sight and display system. The OTO has a Day Display Module (DDM) and a Night Display Module (NDM). The AH-1Z has survivability equipment including the AN/AAR-47 Missile Warning and Laser Detection System, AN/ALE-47 Counter Measure Dispensing System (CMOS) and the AN/ APR-39 Radar Warning Receiver to cover countermeasure dispensers, radar warning, incoming/on-way missile warning and on-fuselage laser-spot warning systems.
4. The following performance data and technical characteristics are classified as annotated:

<table>
<thead>
<tr>
<th>AH-1Z Airframe</th>
</tr>
</thead>
<tbody>
<tr>
<td>— Countermeasure capability</td>
</tr>
<tr>
<td>— Counter-countermeasures capability</td>
</tr>
<tr>
<td>— Vulnerability to countermeasures</td>
</tr>
<tr>
<td>— Vulnerability to electromagnetic pulse from nuclear environmental effects</td>
</tr>
<tr>
<td>— Radar signature</td>
</tr>
<tr>
<td>— Infrared signature</td>
</tr>
<tr>
<td>— Acoustic signature</td>
</tr>
<tr>
<td>— Ultraviolet signature</td>
</tr>
<tr>
<td>— Mission effectiveness against threats</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Target Sight System (TSS)</th>
</tr>
</thead>
<tbody>
<tr>
<td>— Tactical Air Moving Map Capability (TAMMAC)</td>
</tr>
<tr>
<td>— Honeywell Embedded GPS &amp; INS (EGI) w/SPS</td>
</tr>
<tr>
<td>— AN/ARC-210 RT 1939(A)</td>
</tr>
<tr>
<td>— APX-123A IFF Transponder</td>
</tr>
<tr>
<td>— VOR or DVR</td>
</tr>
<tr>
<td>— APR-39 Radar Warning System (RWS)</td>
</tr>
<tr>
<td>— AN/AAR-47 Missile/Laser Warning System (MLWS)</td>
</tr>
<tr>
<td>— AN/ALE-47 Countermeasures Dispenser Set (CMDS)</td>
</tr>
</tbody>
</table>

5. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements or information could be used to develop countermeasures or equivalent systems which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
6. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the enclosed Policy Justification. A determination has been made that Czech Republic can provide the same degree of protection for the sensitive technology being released as the U.S. Government.
7. All defense articles and services listed in this transmittal have been
