

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

The Exchange believes that the introduction of the M-ELO+CB will only boost the utility of the M-ELO among market participants who want the benefits of M-ELO but require additional trading flexibility. Accordingly, the Exchange expects that its proposal will draw new market participants to Nasdaq and increase the extent to which existing participants utilize the M-ELO concept. To the extent the proposed change is successful in attracting additional market participants, Nasdaq believes that the proposed change will promote competition among trading venues by making Nasdaq a more attractive trading venue for long-term investors and therefore capital formation.

Additionally, adoption of M-ELO+CB will not burden any market participants. Just as with an ordinary M-ELOs, the M-ELO+CB will be available to all Nasdaq members and it will be available on an optional basis. Thus, any member that seeks to avail itself of the benefits of a M-ELO+CB can choose accordingly. Although the proposal provides potential benefits for investors that select the M-ELO+CB order type, the Exchange believes that all market participants will benefit to the extent that this proposal contributes to a healthy and attractive market that is attentive to the needs of all types of investors.

The proposal also will not adversely impact market participants that choose not to use this M-ELO+CB because no changes need to be made to participants' systems to account for it. As discussed above, M-ELO+CB executions will be reported the same as other executions, without any new or special indicator.

Similarly, the proposal will benefit members that enter Midpoint Orders on the Continuous by providing them with flexibility to have their orders execute in situations where they would not do so now. Again, however, this flexibility will be optional. Any member that wants its Midpoint Orders to interact with M-ELO+CBs can choose accordingly.

In any event, the Exchange notes that it operates in a highly competitive market in which market participants can readily choose between competing venues if they deem participation in Nasdaq's market is no longer desirable. In such an environment, the Exchange

must carefully consider the impact that any change it proposes may have on its participants, understanding that it will likely lose participants to the extent a change is viewed as unfavorable by them. Because competitors are free to modify the incentives and structure of their markets, the Exchange believes that the degree to which modifying the market structure of an individual market may impose any burden on competition is limited. Last, to the extent the proposed change is successful in attracting additional market participants, Nasdaq also believes that the proposed change will promote competition among trading venues by making Nasdaq a more attractive trading venue for long-term investors and therefore capital formation.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve or disapprove the proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-NASDAQ-2019-048 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-NASDAQ-2019-048. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NASDAQ-2019-048, and should be submitted on or before July 8, 2019.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹³

Eduardo A. Aleman,
Deputy Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-86085; File No. SR-CboeBZX-2019-050]

Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating To Adopt Limit-on-Close ("LOC") and Market-on-Close ("MOC") Orders

June 11, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the

¹³ 17 CFR 200.30-3(a)(12).

“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on June 6, 2019, Cboe BZX Exchange, Inc. (the “Exchange” or “BZX”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Exchange filed the proposal as a “non-controversial” proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act³ and Rule 19b-4(f)(6) thereunder.⁴ The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

Cboe BZX Exchange, Inc. (the “Exchange” or “BZX Options”) proposes to adopt limit-on-close (“LOC”) and market-on-close (“MOC”) orders. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange’s website (http://markets.cboe.com/us/equities/regulation/rule_filings/bzx/), at the Exchange’s Office of the Secretary, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

In 2016, the Exchange’s parent company, Cboe Global Markets, Inc. (“Cboe Global”), which is also the parent company of Cboe Exchange, Inc. (“Cboe Options”) and Cboe C2 Exchange, Inc. (“C2”), acquired the Exchange, Cboe EDGA Exchange, Inc. (“EDGA”), Cboe EDGX Exchange, Inc.

(“EDGX or EDGX Options”), and Cboe BYX Exchange, Inc. (“BYX” and, together with the Exchange, C2, Cboe Options, EDGA, and EDGX, the “Cboe Affiliated Exchanges”). The Cboe Affiliated Exchanges are working to align certain system functionality, retaining only intended differences between the Cboe Affiliated Exchanges, in the context of a technology migration. Cboe Options intends to migrate its technology to the same trading platform used by the Exchange, C2 and EDGX Options in the fourth quarter of 2019. The proposal set forth below is intended to add certain functionality to the Exchange’s System that is available on Cboe Options in order to ultimately provide a consistent technology offering for market participants who interact with the Cboe Affiliated Exchanges.⁵ Although the Exchange intentionally offers certain features that differ from those offered by its affiliates and will continue to do so, the Exchange believes that offering similar functionality to the extent practicable will reduce potential confusion for Users.

The Exchange proposes to adopt LOC and MOC orders under Rule 21.1(f). Proposed Rule 21.1(f)(7) defines an LOC order as a limit order, and proposed Rule 21.1(f)(8) defines a MOC order as a market order, respectively, that it may only execute on the Exchange no earlier than three minutes prior to the market close.⁶ The System enters LOC and MOC orders into the Book in time sequence (based on the times at which the Exchange initially received them), where they may be processed in accordance with Rule 21.8.⁷ The Exchange notes that it does not have a closing auction in which market participants may participate in an auction rotation that determines the closing price for a series, like that of the equities space, but that the proposed MOC and LOC orders merely become executable three minutes prior to the market close. The Exchange queues LOC and MOC orders in the System until

three minutes before the market close. At that time, the System handles a LOC or MOC order as a limit order or market order, as applicable, and processes them in accordance with Rule 21.8. The Exchange believes that three minutes prior to the market close is a reasonable time prior to the market close to trigger MOC and LOC orders, as it provides those orders with sufficient time to interact with contra-side interest and potentially execute at a time close to the market close.⁸ The proposed LOC and MOC order definitions also provide that the System cancels an LOC order or an MOC order (or an unexecuted portion of an LOC or MOC order) that does not execute by the market close. This is consistent with the purpose of these orders, which is to execute near the market close on the day they were submitted to the Exchange. The Exchange notes that Users may not designate bulk messages as MOC or LOC, which is consistent with the current requirement that bulk messages must have a time-in-force of Day to encourage Users to provide liquidity to the Exchange’s market throughout the trading day and update bulk messages in response to changed market conditions day-to-day.⁹ The proposed order types are based on substantially similar order types available on Cboe Options.¹⁰ MOC and LOC orders allow a User to execute orders in a series close to the close time.

The Exchange also proposes to include in the proposed MOC definition additional order handling for MOC orders during a “Limit State” or “Straddle State” as defined in the Regulation NMS Plan to address Extraordinary Market Volatility (“Limit Up-Limit Down Plan”). The proposed change provides that a MOC order will not be elected if the underlying security

⁸ The Exchange notes that Cboe Options currently triggers the MOC and LOC orders three minutes prior to the market close.

⁹ See Rule 21.1(f)(3) which defines time-in-force of “Day” as an order, so designated, a limit order to buy or sell which, if not executed expires at market close. All bulk messages have a time-in-force of Day. See also Securities Exchange Act Release No. 84928 (December 21, 2018), 83 FR 67794 (December 31, 2018) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating To Adopt Definitions of Ports and Discontinue Bulk Order Functionality and Implement Bulk Message Functionality) (SR-CboeBZX-2018-092). Note Users may submit bulk messages within three minutes of the market close, which would ultimately be handled in the same manner as an LOC order.

¹⁰ See Cboe Options Rule 6.53, which defines a “market-on-close” order as a market or limit order to be executed as close as possible to the close of the market near to or at the closing price for the particular option series. The Exchange notes that in connection with migration, Cboe Options intends to propose the same definitions of market- and limit-on-close orders as proposed in this rule filing.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ 15 U.S.C. 78s(b)(3)(A)(iii).

⁴ 17 CFR 240.19b-4(f)(6).

⁵ The Exchange also notes that its affiliated exchanges, C2 and EDGX Options, are simultaneously proposing to make similar changes in order to align functionality with Cboe Options.

⁶ See Rule 16.1(a)(35) which defines the term “market close” as the time specified by the Exchange for the cessation of trading in contracts on the Exchange for options on that market day. The time specified by the Exchange for the cessation of trading is set out in Rule 21.2, which specifies that orders and bids and offers shall be open and available for execution as of 9:30 a.m. Eastern Time and shall close as of 4:00 p.m. Eastern Time except for option contracts on Fund Shares, on exchange-traded notes including Index-Linked Securities, and on broad-based indexes, which may close as of 4:15 p.m. Eastern Time. See Rule 21.2(a).

⁷ Rule 21.8 describes how the System processes orders and quotes in the Book.

is in a Limit or Straddle State three minutes prior to the market close. If the underlying security exits the Limit or Straddle State prior to the market close, the System will attempt to re-evaluate, elect, and execute the order. The Exchange notes that the proposed handling of MOC orders in a Limit or Straddle State is consistent with the Limit Up-Limit Down Plan and is based on the corresponding Cboe Options rule regarding handling of MOC orders,¹¹ as well as other order type definitions within the Exchange Rules that provide for similar additional handling during Limit and Straddle States.¹²

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the "Act") and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.¹³ Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)¹⁴ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)¹⁵ requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

In particular, the Exchange believes that the proposed adoption of MOC and LOC orders serves to benefit investors by allowing Users flexibility to have orders only be eligible for execution near the close, a time in which maximum significant number of participants interact on the Exchange. The Exchange believes that the proposed change promotes just and equitable principles of trade because it

encourages increased participation near the close, thereby contributing to enhanced price discovery and transparency that will result in a closing price point that more closely reflects the interest of market participants. The Exchange also believes that the proposed change will benefit investors by fostering increased liquidity near the close. As stated, the proposed change is based on Cboe Options rules.¹⁶

Furthermore, the Exchange believes specifying that the MOC and LOC may execute no more than three minutes from the market close removes impediments to and perfects the mechanism of a free and open market and national market system and protects investors because it will allow Users greater flexibility regarding the execution of their orders and/or their customers' orders. The Exchange believes this three minute time-frame prior to the market close is a reasonable time prior to the market close to trigger MOC and LOC orders, because it provides those orders with sufficient times to interact with contra-side interest and to potentially execute at a time close to the market close.

The Exchange also believes not permitting bulk messages to be MOC and LOC orders will remove impediments to and perfect the mechanism of a free and open market and protect investors because it is consistent with the purpose of bulk messages. As stated, bulk messages are currently restricted to designation as time-in-force of Day in order to encourage Users to provide liquidity to the Exchange's market during the trading day and update bulk messages in response to day-to-day changed market conditions.¹⁷ Because MOC and LOC orders are only available for execution for three minutes prior to the market close, as opposed to during the entire trading day, Exchange believes that not permitting bulk messages to be MOC or LOC orders ensures that functionality available to Users is consistent with the purpose of bulk messages.

Additionally, the Exchange believes that the proposed additional order handling for MOC during a Limit or Straddle State protects investors because it is consistent with the Limit Up-Limit Down Plan and prevents a market order from executing outside of the specified price bands. This order handling is consistent with that of Cboe Options rules,¹⁸ as well as other order

type definitions within the Exchange Rules that provide for similar additional handling during Limit and Straddle States.¹⁹

Lastly, the Exchange notes that the proposed rule change is generally intended to align the functionality offered by the Exchange with functionality currently offered by Cboe Options in order to provide a consistent technology offering for the Cboe Affiliated Exchanges.²⁰ A consistent technology offering, in turn, will simplify the technology implementation, changes, and maintenance by Users of the Exchange that are also participants on Cboe Affiliated Exchanges.²¹ The Exchange believes this consistency will promote a fair and orderly national options market system. When Cboe Options migrates to the same technology as that of the Exchange and other Cboe Affiliated Exchanges, Users of the Exchange and other Cboe Affiliated Exchanges will have access to similar functionality on all Cboe Affiliated Exchanges. As such, the proposed rule change would foster cooperation and coordination with persons engaged in facilitating transactions in securities and would remove impediments to and perfect the mechanism of a free and open market and a national market system.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe the proposed rule change will impose any burden on intramarket competition, as the proposed rule change will apply in the same manner to all orders submitted as MOC or as LOC. MOC and LOC orders will be available to all Users, and MOC and LOC orders from all Users will be handled in the same manner. The use of MOC and LOC orders will be voluntary. The Exchange does not believe the proposed rule change will impose any burden on intermarket competition because the proposed change is based on rules that allow for substantially the same order types that are available on another options exchange.²²

¹¹ See Cboe Options Rule 6.45(d)(2).

¹² See Rule 21.1(d)(5) and (d)(11), which provide additional order handling for Market Orders and Stop Orders, respectively, in a Limit and/or Straddle State. The Exchange notes that during a Limit or Straddle State limit orders are not impacted and continue to be eligible for execution.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act²³ and Rule 19b-4(f)(6) thereunder.²⁴

A proposed rule change filed under Rule 19b-4(f)(6)²⁵ normally does not become operative for 30 days after the date of filing. However, pursuant to Rule 19b-4(f)(6)(iii)²⁶ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest.

The Exchange has asked the Commission to waive the 30-day operative delay. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest as it will allow the Exchange to offer two order types that are substantially similar to order types that are currently available on Cboe Options. Thus, as represented by the Exchange, the proposed rule change does not introduce any new functionality or present any novel issues. For this reason, the Commission designates the proposed rule change to be operative on June 20, 2019, the day before the Exchange would like to implement MOC and LOC orders.²⁷

At any time within 60 days of the filing of the proposed rule change, the

Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-CboeBZX-2019-050 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-CboeBZX-2019-050. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-CboeBZX-2019-050 and

should be submitted on or before July 8, 2019.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²⁸

Eduardo A. Aleman,

Deputy Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-86082; File No. SR-CboeEDGX-2019-034]

Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating To Update Its Price Adjust Process To Allow for the Process To Apply to Bulk Messages

June 11, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on June 4, 2019, Cboe EDGX Exchange, Inc. (the "Exchange" or "EDGX") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Exchange filed the proposal as a "non-controversial" proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act³ and Rule 19b-4(f)(6) thereunder.⁴ The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe EDGX Exchange, Inc. (the "Exchange" or "EDGX Options") proposes to update its Price Adjust process to allow for the process to apply to bulk messages. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (http://markets.cboe.com/us/options/regulation/rule_filings/edgx/), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

²⁸ 17 CFR 200.30-3(a)(12).
