**SUPPLEMENTARY INFORMATION:**

**I. Background**

Section 7(m) of the Small Business Act (15 U.S.C. 636(m)) authorizes the SBA to make direct loans to eligible intermediaries for the purpose of providing loans of up to \$50,000 to startup, newly established, or growing small business concerns for working capital or the acquisition of materials, supplies, or equipment. Section 7(m) also authorizes SBA to make grants to these intermediaries to provide small business borrowers with technical assistance. Eligible intermediaries include organizations that have at least one year of experience making microloans and providing technical assistance to borrowers and are one of the following entity types: (1) Private, nonprofit community development corporations, or other non-profit entities; (2) consortiums of private, nonprofit community development corporations or other nonprofit organizations; (3) quasi-governmental economic development entities, other than a state, county, municipal government or any agency thereof; and (4) agencies of, or nonprofit entities established by Native American Tribal Governments.

**II. Survey**

The NDAA 2019 requires SBA to study the level of participation by intermediaries that are eligible to participate in the Agency's Microloan Program. As required by law, this

survey has been approved by the Office of Management and Budget under Control Number 3245-XXXX. Based on information from the survey responses, SBA expects to deliver a report to Congress that includes: (1) Information on the operations of current Microloan Intermediaries and entities that are eligible to participate in the Microloan program but that do not participate; (2) the reasons why eligible entities choose not to participate in the Microloan program; (3) recommendations on how to encourage increased participation in the Microloan program by eligible entities; and (4) recommendations on how to decrease the costs associated with participation in the Microloan program for Intermediaries. Responses to this survey are voluntary, but strongly encouraged in order to gain valuable insights and improve the Microloan program in the future.
