

INFORMATION CONTACT or on the *Regulations.gov* website (see **ADDRESSES** above for instructions for accessing *Regulations.gov*).

In accordance with the Swine Health Protection Act (7 U.S.C. 3801 *et seq.*), APHIS regulates food waste containing any meat products fed to swine. Raw or undercooked meat may transmit numerous infectious or communicable diseases. Compliance with these regulations ensures that all food waste fed to swine is properly treated to kill disease organisms.

We are proposing to revise the regulations by moving the State status lists in § 166.15(a) through (d) from the regulations to the APHIS website. As a result of this proposed move, any subsequent additions, deletions, and other changes to a State's status would be made using a notice-based process.

The proposed rule, while facilitating changes to the State status lists, is not expected to have an economic impact on hog and pig farms.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action would not have a significant economic impact on a substantial number of small entities.

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. If this proposed rule is adopted: (1) All State and local laws and regulations that are in conflict with this rule will be preempted; (2) no retroactive effect will be given to this rule; and (3) administrative proceedings will not be required before parties may file suit in court challenging this rule.

NUCLEAR REGULATORY COMMISSION

10 CFR Chapter I

[NRC–2015–0167]

Withdrawal of Regulatory Issue Summary 2005–29 and its Draft Revision 1 Anticipated Transients That Could Develop Into More Serious Events

AGENCY: Nuclear Regulatory Commission.

ACTION: Regulatory issue summary; withdrawal.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is withdrawing the Regulatory Issue Summary (RIS) 2005–29 and its draft Revision 1, “Anticipated Transients that Could Develop into More Serious Events.” These documents are being withdrawn because the NRC staff identified several regulatory and technical positions within the RIS and draft Revision 1 that either required clarification, were no longer supported, or were identified as a new agency position.

DATES: The effective date of the withdrawal of the RIS 2005–29 and its draft Revision 1, “Anticipated Transients that Could Develop into More Serious Events,” is June 20, 2019.

ADDRESSES: Please refer to Docket ID NRC–2015–0167 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

SUPPLEMENTARY INFORMATION:

The NRC issued RIS 2005–29, “Anticipated Transients that Could Develop into More Serious Events,” (ADAMS Accession No. ML051890212) to notify licensees of the concern identified during reviews of power uprate license amendment requests related to licensing bases of certain licensees failing to demonstrate that anticipated transients will not progress to more serious events. The draft Revision 1 of RIS 2005–29 expanded on this concern and offered staff positions that provided technical guidance for the implementation of NRC regulation (ADAMS Accession No. ML15014A469). The NRC is withdrawing RIS 2005–29, and its draft Revision 1, because the staff identified several regulatory and technical positions within the documents that either required clarification, were no longer supported, or were identified as a new agency position. By memorandum, dated May 15, 2019, the NRC staff provides a summary of the basis for withdrawing RIS 2005–29, and its draft Revision 1 (ADAMS Accession No. ML19121A534).

The NRC’s generic communication website (<https://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/>) will be updated to reflect RIS 2005–29 as withdrawn.

Dated at Rockville, Maryland, this 12th day of June 2019.

For the Nuclear Regulatory Commission,
Tekia V. Govan,

Project Manager, ROP Support and Generic Communication Branch, Division of Inspection and Regional Support, Office of Nuclear Reactor Regulation.
