(i) Credit for Previous Actions

This paragraph provides credit for the actions specified in paragraph (g) of this AD, if those actions were performed before the effective date of this AD using Boeing Alert Service Bulletin 777–53A0081, dated September 8, 2016, or Boeing Alert Service Bulletin 777–53A0081, Revision 1, dated May 1, 2017.

(j) Alternative Methods of Compliance (AMOCs)

(1) The Manager, Seattle ACO Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your local Flight Standards District Office, as appropriate. If sending information directly to the manager of the certification office, send it to the attention of the person identified in paragraph (k)(1) of this AD. Information may be emailed to: 9-ANM-Seattle-ACO-AMOC-Requests@faa.gov.

(2) Before using any approved AMOC, notify your principal inspector, or lack a principal inspector, or that local Flight Standards district office, certificate holding district office.

(3) An AMOC that provides an acceptable level of safety may be used for any repair, modification, or alteration approved by this AD if it is approved by The Boeing Company Organization Designation Authorization (ODA) that has been authorized by the manager, Seattle ACO Branch, FAA, to make those findings. To be approved, the repair method, modification deviation, or alteration deviation must meet the certification basis of the airplane, and the approval must specifically refer to this AD.

(4) AMOCs approved previously for AD 2017–16–10 are approved as AMOCs for the corresponding provisions of Boeing Alert Service Bulletin 777–53A0081, Revision 2, dated March 29, 2019, that are required by paragraph (g) of this AD.

(5) Except as specified by paragraph (h)(2) of this AD: For service information that contains steps that are labeled as Required (RC), the provisions of paragraphs (j)(5)(i) and (j)(5)(ii) of this AD apply.

(i) The steps labeled as RC, including substeps under an RC step and any figures identified in an RC step, must be done to comply with the AD. If a step or substep is labeled “RC Exempt,” then the RC requirement is removed from that step or substep. An AMOC is required for any deviations to RC steps, including substeps and identified figures.

(ii) Steps not labeled as RC may be deviated from using accepted methods in accordance with the operator’s maintenance or inspection program without obtaining approval of an AMOC, provided the RC steps, including substeps and identified figures, can still be done as specified, and the airplane can be put back in an airworthy condition.

Food and Drug Administration

21 CFR Part 101

[Docket No. FDA–2018–D–0075]

The Declaration of Added Sugars on Honey, Maple Syrup, Other Single-Ingredient Sugars and Syrups, and Certain Cranberry Products; Guidance for Industry; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notification of availability.

SUMMARY: The Food and Drug Administration (FDA or we) is announcing the availability of a final guidance for industry entitled “The Declaration of Added Sugars on Honey, Maple Syrup, Other Single-Ingredient Sugars and Syrups, and Certain Cranberry Products.” This guidance provides clarification on the labeling requirements for single-ingredient packages and/or containers of pure honey, pure maple syrup, and other pure sugars and syrups, which are not required to bear the words “Includes Xg Added Sugars,” but must still include the percent Daily Value for added sugars on their labels. This guidance is also intended to advise food manufacturers of our intent to exercise enforcement discretion related to the use of a “†” symbol immediately following the percent Daily Value for added sugars on single-ingredient packages and/or containers of pure honey, pure maple syrup, and other pure sugars and syrups; the “†” symbol would lead the consumer to a statement that is truthful and not misleading in a footnote at the bottom of the Nutrition Facts label. The guidance also advises food manufacturers of our intent to exercise enforcement discretion with respect to the use of a “†” symbol immediately after the added sugars percent Daily Value information that leads the consumer to a statement that is truthful and not misleading outside of the Nutrition Facts label on certain dried cranberry and cranberry beverage products that are made up of cranberry juice sweetened with added sugars and that contain total sugars at levels no greater than comparable products with endogenous (inherent) sugars, but no added sugars. Further, this guidance advises of our intent to exercise enforcement discretion regarding compliance with Nutrition Facts label final rule and Serving Size final rule requirements until July 1, 2021, for the single-ingredient sugars and syrups as well as the cranberry products discussed in the guidance document.

DATES: The announcement of the guidance is published in the Federal Register on June 20, 2019.
