

factor authentication for computer access; and securing areas where records are stored. Job-specific assigned roles control the release of data only to authorized users. All users of personal information in connection with the performance of their jobs protect information from public view and unauthorized personnel entering an unsupervised office.

4. *Risk assessment*: Risk assessments and continuous monitoring activities ensure that vulnerabilities, risks, and other security concerns are identified and addressed in the system design and throughout the life cycle of the project.

RECORD ACCESS PROCEDURES:

Record access procedures are the same as Requests in Person procedures below.

CONTESTING RECORD PROCEDURES:

To contest a record in the system, contact the System Manager at the address specified above and reasonably identify the record, stipulate the information being contested, state the corrective action sought and the reason(s) for requesting the correction, along with supporting documentation to show how the record is inaccurate, incomplete, untimely, or irrelevant.

NOTIFICATION PROCEDURES:

Requests must be made to the System Manager.

Requests by mail: Requests for information and/or access to records received by mail must contain information providing the identity of the writer, and a reasonable description of the record desired, and who it concerns. Written requests must contain the name and address of the requester, his/her date of birth and his/her signature for comparison purposes. Requests must be notarized to verify the identity of the requester, or the requester must certify that (s)he is the individual who (s)he claims to be and that (s)he understands that to knowingly and willfully request or acquire a record pertaining to another individual under false pretenses is a criminal offense under the Privacy Act subject to a \$5,000 fine. The requester should provide a reasonable description of the contents of the record being sought. Records will be mailed only to the requester's address that is on file unless a different address is demonstrated by official documentation.

Requests in person: An individual who makes a request in person shall provide to the System Manager at least one piece of tangible identification such as a driver's license, passport, alien or voter registration card, or union card to

verify his/her identity. If an individual does not have identification papers to verify identity, (s)he must certify in writing that (s)he is the individual (s)he claims to be and that (s)he understands that the knowing and willful request for, or acquisition of, a record pertaining to an individual under false pretenses is a criminal offense subject to a \$5,000 fine.

Requests on behalf of a minor/legally incompetent person: A parent or guardian who makes a request on behalf of a minor/legally incompetent person must verify his/her relationship to the minor/legally incompetent person as well as his/her own identity. If requesting a minor or legally incompetent person's medical records, the parent or guardian of a minor/legally incompetent person must designate a family physician or other health professional (other than a family member) to whom the records, if any, will be sent.

Requests by telephone/facsimile/electronic mail: Since positive identification of the requester cannot be established, telephone, facsimile, or electronic mail (email) requests will not be honored.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:
