FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

[DOCKET NO. FMCSA–2019–0108]

AGENCY INFORMATION COLLECTION ACTIVITIES; RENEWAL AND REVISION OF AN APPROVED INFORMATION COLLECTION: COMMERCIAL DRIVER’S LICENSE DRUG AND ALCOHOL CLEARINGHOUSE

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget for its review and approval and invites public comment. The FMCSA requests to renew an ICR titled, “Commercial Driver’s License Drug and Alcohol Clearinghouse.” The Agency’s final rule, published December 5, 2016, titled “Commercial Driver’s License Drug and Alcohol Clearinghouse” (81 FR 87686) (Clearinghouse) established the regulatory requirements for the Clearinghouse. The compliance date of the final rule is June 1, 2020. Since the original ICR was approved, no data has yet been collected. With the upcoming compliance date, this ICR is needed to ensure that querying and reporting requirements are met to diminish the problem of Commercial Driver’s License (CDL) and Commercial Learner’s Permit (CLP) holders who test positive for drugs or alcohol and then continue to perform safety sensitive functions, including driving a commercial motor vehicle (CMV), without participating in the required return-to-duty process.

DATES: We must receive your comments on or before August 19, 2019.

ADDRESSES: You may submit comments identified by Federal Docket Management System (FDMS) Docket Number FMCSA–2019–0108 using any of the following methods:

FOR FURTHER INFORMATION CONTACT: Juan Moya, Compliance Division, Federal Motor Carrier Safety Administration, Department of Transportation, West Building 6th Floor, 1200 New Jersey Avenue SE, Washington, DC 20590.
Agency regulations at 49 CFR part 382 apply to persons and employers of such persons who operate CMVs in commerce in the United States and who are subject to the CDL requirements in 49 CFR part 383 or the equivalent CDL requirements for Canadian and Mexican drivers (49 CFR 382.103(a)). Part 382 requires that employers conduct pre-employment drug testing, post-accident testing, random drug and alcohol testing, and reasonable suspicion testing, as well as return-to-duty (RTD) testing and follow-up testing for those drivers who test positive or otherwise violate DOT drug and alcohol program requirements. Motor carrier employers are prohibited from allowing an employee to perform safety-sensitive functions, which include operating a CMV, if the employee tests positive on a DOT drug or alcohol test, refuses to take a required drug test, or otherwise violates the DOT or FMCSA drug and alcohol testing regulations.

Section 32402 of the Moving Ahead for Progress in the 21st Century Act (MAP–21) requires that the Secretary of Transportation establish, operate, and maintain a national clearinghouse for records relating to the misuse of alcohol or use of controlled substances by operators of CMVs. As noted above, FMCSA published a final rule on December 5, 2016, with an effective date of January 4, 2017, and a compliance date of January 6, 2020 to implement the requirements of the Clearinghouse. No information is currently being collected.

The Clearinghouse will function as a repository for records relating to the positive test results and test refusals of CMV operators and violations by such operators of prohibitions set forth in part 382, subpart B, of title 49, Code of Federal Regulations. An employer will utilize the Clearinghouse to determine whether current and prospective employees have incurred a drug or alcohol violation that would prohibit them from performing safety-sensitive functions, including operating a CMV.

The Clearinghouse will provide FMCSA and employers the necessary tools to identify drivers who are prohibited from operating a CMV and ensure that such drivers receive the required evaluation and treatment before resuming safety-sensitive functions. Specifically, information maintained in the Clearinghouse will ensure that drivers who commit a drug or alcohol violation while working for one employer and attempt to find work with another employer, can no longer conceal their drug and alcohol violations merely by moving on to the next job or the next state. Drug and alcohol violation records maintained in the Clearinghouse will follow the driver regardless of how many times he or she changes employers, seeks employment or applies for a CDL in a different State. The information in the Clearinghouse will be used by FMCSA and its State partners for enforcement purposes:

• Ensure employers are meeting their pre-employment investigation and reporting requirements.
• Place drivers out of service if drivers are found to be operating a CMV without completing the RTD process.
• Ensure Medical Review Officers (MROs) and Substance Abuse Professionals (SAPs) meet their reporting requirements.
• Only authorized users, including employers and their service agents, and Federal Enforcement personnel and State Driver Licensing Agencies (SDLAs) will be able to register and access the Clearinghouse for designated purposes. State enforcement personnel will receive the driver’s eligibility status to operate a CMV, based on Clearinghouse information, when they check Query Central or Nlets for driver information. FMCSA will share a driver’s drug and alcohol violation information with the National Transportation Safety Board when it is investigating a crash involving that driver.
• Drivers will be able to access their own information, but not information of other drivers. The Clearinghouse will meet all relevant federal security standards and FMCSA will continuously monitor compliance with applicable security regulations.

Employers must query the Clearinghouse for all prospective employees, as needed. In addition, employers report to the Clearinghouse alcohol confirmation tests with a concentration of 0.04 or higher, refusal to test (alcohol), refusal to test (drug) that is not determined by an MRO, actual knowledge, negative RTD testing, and completion of follow-up testing. Employer reporting must be completed by the close of the third business day following the date they obtained the information on a driver.
• MROs: Verified positive, adulterated or substituted drug test result and refusals to tests (drug) must be entered to the Clearinghouse on occasion, but no later than two business days after making a determination or verification.
• SAPs: Must enter the initial assessment date and the date the driver successfully complied with RTD requirements. SAPs are required to enter this information on occasion by the close of business day following the date of the initial assessment or completion of the RTD process.

The agency will summarize or include your comments in the request
for OMB’s clearance of this information collection.

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System

Under part 235 of Title 49 of the Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides the public notice that by a document dated May 30, 2019, the Belt Railway Company of Chicago (BRC) petitioned the Federal Railroad Administration (FRA) seeking approval to discontinue or modify a signal system. FRA assigned the petition Docket Number FRA–2019–0044.

Applicant: The Belt Railway Company of Chicago, Mr. Harold T. Kirman, Director Strategic Planning & Compliance, 6900 South Central Avenue, Bedford Park, IL 60638–6397.

Specifically, BRC requests permission to permanently remove signals 8R and 24RC within the interlocking at Lemoyne, Chicago, IL, located on BRC’s Kenton Line at milepost 6.7. Signals 8R and 24RC share a common mast and are a legacy configuration from the Canadian National Railway adopting centralized traffic control on the Joliet Subdivision.

BRC states the removal of these signals will eliminate superfluous signals with a commensurate reduction in the cost of maintaining the signals. The balance of the interlocking functionality will remain the same.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at http://www.regulations.gov.

[Docket Number FRA–2009–0078]

Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that on June 10, 2019, the American Short Line and Regional Railroad Association (ASLRRA) petitioned the Federal Railroad Administration (FRA) for an amended waiver of compliance from certain provisions of the Federal hours of service laws contained at 49 U.S.C. 21103(a)(4), which, in part, require a train employee to receive 48 hours off duty after initiating an on-duty period for 6 consecutive days. FRA assigned the petition Docket Number FRA–2009–0078.

Specifically, ASLRRA seeks to amend its existing waiver to add four member railroads that did not participate in the original waiver, but in the second quarter of 2019 determined that they now wish to participate. ASLRRA states the following railroads expressed a desire to participate in the waiver, and maintain at their headquarters supporting documentation of employee support as required:

- Black River & Western
- Belvidere and Delaware River Railroad
- Dover and Delaware River Railroad
- Dover and Rockaway River Railroad

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing.
