[Project No. 14986-000]

Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications; California State University Maritime Academy

On April 17, 2019, the California State University Maritime Academy (Cal Maritime) filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Cal Maritime Marine Hydrokinetic Project (project). The proposed project would be located in a navigable cove of the Sacramento San Joaquin River (Carquinez Strait), located in the City of

Vallejo, in Solano County, California. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of a floating power platform located at Cal Maritime's property and use marine hydrokinetic technologies to generate approximately 41,610 megawatt hours annually. The floating platform would measure 120-feet-long by 40-feet-wide, and 14-feet-deep. Cal Maritime proposes to use the power generated by the project on its campus and distribute the excess power through an interconnect with Pacific Gas and Electric Company's Colgate-Oakland transmission line.

Applicant Contact: Franz Lozano, Vice President & CFO, California State University Maritime Academy, 200 Maritime Academy, Vallejo, CA 94590; phone: (707) 654-1038; or via email at: flozano@csu.edu.
