

professionals and cannot quantify the cost of compliance with the potential rule changes discussed herein. The *TFNPRM* proposes to require implementation by all voice service providers—wireline, wireless, and VoIP providers.

Steps Taken To Minimize Significant Economic Impact on Small Entities, and Significant Alternatives Considered

38. These proposed rules to codify that voice service providers may block telephone calls in certain circumstances to protect subscribers from illegal and unwanted calls are permissive and not mandatory. Small businesses may avoid compliance costs entirely by declining to block calls, or may delay their implementation of call blocking to allow for more time to come into compliance with the rules. However, the Commission intends to craft rules that encourage all carriers, including small businesses, to block such calls and the *TFNPRM* therefore seeks comment from small businesses on how to minimize costs associated with implementing the proposed rules. The *TFNPRM* poses specific requests for comment from small businesses regarding how the proposed rules affect them and what could be done to minimize any disproportionate impact on small businesses.

39. The Commission’s proposed rules allow voice service providers to block calls based on certain criteria, including where the Caller ID fails authentication. In addition, the proposed rules protect callers from the risk of their calls being blocked erroneously. The *TFNPRM* requests feedback from small businesses and seeks comment on ways to make the proposed rules less costly and minimize the economic impact of the Commission’s proposals.

40. The *TFNPRM* also seeks comment on the length of time the Commission should allow voice service providers to implement SHAKEN/STIR, whether smaller and medium-sized voice providers should be given additional time to implement this framework, and how to qualify and quantify voice providers’ sizes. Moreover, the Commission seeks updated information for entities of all sizes, including small entities, regarding the upfront and recurring costs to providers of implementing SHAKEN/STIR.

41. The Commission expects to consider the economic impact on small entities, as identified in comments filed in response to the *TFNPRM* and the IRFA, in reaching its final conclusions and taking action in this proceeding.

SUPPLEMENTARY INFORMATION:

I. Background

DoD, GSA, and NASA are proposing to amend the FAR to make inflation adjustments of statutory acquisition-related thresholds under 41 U.S.C. 1908 applicable to existing contracts and subcontracts in effect on the date of the adjustment. This FAR change will implement section 821 of the NDAA for FY 2018 (Pub. L. 115–91).

41 U.S.C. 1908, Inflation adjustment of acquisition-related dollar thresholds, requires an adjustment every five years of acquisition-related thresholds for inflation using the Consumer Price Index for all urban consumers, except for the Construction Wage Rate Requirements statute (Davis-Bacon Act), Service Contract Labor Standards statute, and trade agreements thresholds. See FAR 1.109. The last FAR case which raised the thresholds for inflation was 2014–022, a final rule published on July 2, 2015, effective October 1, 2015. The next final rule to be published raising thresholds for inflation under 41 U.S.C. 1908 will be effective October 1, 2020.

II. Discussion and Analysis

As required by section 821 of the NDAA for FY 2018, DoD, GSA, and NASA are proposing to revise thresholds subject to inflation adjustment so that the periodic inflation adjustments will apply to existing contracts and subcontracts that contain the revised clauses.

A. The following summarizes the proposed changes to FAR parts 1, 5, 8, 9, 12, 13, 15, 19, 22, 25, 30, and 50:

1. Adds a new paragraph at FAR 1.109, Statutory acquisition-related dollar thresholds—adjustment for

inflation, to explain the impact of section 821 of the NDAA for FY 2018.

2. Replaces numerical values, throughout the FAR text, that are based on the value of the micro-purchase threshold or the simplified acquisition threshold with the term “micro-purchase threshold” or “simplified acquisition threshold”.

3. Adds a statement at FAR 15.403–4 to explain that if a clause refers to the certified cost or pricing data threshold, and if the threshold is adjusted for inflation, then the changed threshold applies throughout the remaining term of the contract, unless there is a subsequent threshold adjustment.

4. Adds a statement at FAR 30.201–1 that the lower threshold for applicability of Cost Accounting Standards (CAS) is the amount set forth in 10 U.S.C. 2306a(a)(1)(A)(i), as adjusted for inflation.

B. The following summarizes proposed changes to FAR part 52.

1. Replaces, throughout part 52 as appropriate, numerical values that are based on the value of the micro-purchase threshold or the simplified acquisition threshold with the term “micro-purchase threshold” or “simplified acquisition threshold”. When the term “simplified acquisition threshold” or “micro-purchase threshold” is used, adds a reference to the definition in FAR 2.101.

2. Amends FAR 52.202–1, Definitions, to state that if the simplified acquisition threshold or micro-purchase threshold is adjusted for inflation, then the changed threshold applies throughout the remaining term of the contract, unless there is a subsequent threshold adjustment.

3. Replaces the numerical value for certain thresholds (other than the micro-purchase and simplified acquisition thresholds) with a reference to the applicable FAR text that specifies the numerical threshold.

4. Adds, to applicable clauses, the phrases “on the date of subcontract award,” “on the date of execution of the modification,” or “on the date of award of this contract”, to describe the date on which the applicable threshold value will be determined.

5. Adds a statement at FAR 52.214–28(b), 52.215–12(a), 52.215–13(b), and 52.215–21 that explains that if the threshold for submission of certified cost or pricing data is adjusted for inflation, then the changed threshold applies throughout the remaining term of the contract, unless there is a subsequent threshold adjustment.

6. Adds a reference, at FAR 52.230–1 through 52.230–5, to the lower CAS threshold specified at FAR 30.201–4(b).

III. Applicability to Contracts at or Below the Simplified Acquisition Threshold and for Commercial Items, Including Commercially Available Off-the-Shelf Items

This rule does not add any new solicitation provisions or clauses, or impact any existing provisions or clauses, except for the added references to acquisition-related thresholds in the FAR text.

IV. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule is not a significant regulatory action, and therefore, this rule was not subject to the review of the Office of Information and Regulatory Affairs under section 6(b) of E.O. 12866. This rule is not a major rule under 5 U.S.C. 804.

V. Executive Order 13771

This rule is not an E.O. 13771 regulatory action, because this rule is not significant under E.O. 12866.

VI. Regulatory Flexibility Act

DoD, GSA, and NASA do not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* However, an Initial Regulatory Flexibility Analysis (IRFA) has been performed and is summarized as follows:

DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to make inflation adjustments of statutory acquisition-related thresholds under 41 U.S.C. 1908(d) applicable to existing contracts and subcontracts in effect on the date of the adjustment that contain the revised clauses.

The objective is to implement section 821 of the National Defense Authorization Act for Fiscal Year (FY) 2018. The legal basis for this rule is 40 U.S.C. 121(c), 10 U.S.C. chapter 137, and 51 U.S.C. 20113.

This proposed rule will likely affect to some extent all small business concerns that submit offers or are awarded contracts by the Federal Government.

However, this rule is not expected to have any significant economic impact on small business concerns because this rule: (1) Is not creating any new requirements with which

small entities must comply, and (2) is only establishing the framework to apply the inflation adjustments of statutory acquisition-related thresholds under 41 U.S.C. 1908 to existing contracts and subcontracts in effect on the date of the adjustment. Any impact on small business concerns will be beneficial by preventing burdensome requirements from continuing to apply to smaller dollar value contracts when acquisition thresholds are increased during the period of performance.

As of September 30, 2017, there were 637,791 active entity registrations in *SAM.gov*. Of those active entity registrations, 452,310 (71 percent) completed all four modules of the registration, in accordance with FAR 52.204-7(a)(2), including Assertions (where they enter their size metrics and select their NAICS Codes) and Reqs & Certs (where they certify to the information they provided and the size indicator by NAICS).

Of the possible 452,310 active *SAM.gov* entity registrations, 338,207 (75 percent) certified to meeting the size standard of small for their primary NAICS Code. Therefore, this rule may be beneficial to 338,207 small business entities that submit proposals that may now fall under the micro-purchase threshold, the simplified acquisition threshold, or other applicable acquisition thresholds (e.g., contractor code of business ethics and conduct, reporting executive compensation and first-tier subcontract awards, equal opportunity for veterans) as a result of this rule.

The proposed rule does not include additional reporting or record keeping requirements.

The rule does not duplicate, overlap, or conflict with any other Federal rules.

There are no available alternatives to the proposed rule to accomplish the desired objective of the statute. DoD, GSA, and NASA do not expect this proposed rule to have a significant economic impact on a substantial number of small entities because the rule is not implementing any requirements with which small entities must comply.

The Regulatory Secretariat Division has submitted a copy of the IRFA to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the IRFA may be obtained from the Regulatory Secretariat Division. DoD, GSA, and NASA invite comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD, GSA, and NASA will also consider comments from small entities concerning the existing regulations in subparts affected by the rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (FAR Case 2018-007), in correspondence.

VII. Paperwork Reduction Act

The Paperwork Reduction Act (44 U.S.C. Chapter 35) does apply; however,

the proposed changes to the FAR do not impose new information collection requirements that require the approval of the Office of Management and Budget (OMB) under 44 U.S.C. 3501, *et seq.* The changes do not impose additional information collection requirements to the paperwork burden previously approved under the following OMB Control Numbers: 9000-0007, Subcontracting Plans; 9000-0018, Certification Of Independent Price Determination, Contractor Code of Business Ethics and Conduct, and Preventing Personal Conflicts of Interest; 9000-0027, Value Engineering Requirements; 9000-0094, Debarment, Suspension, and Other Responsibility Matters; 9000-0091, Anti-Kickback Procedures; 9000-0159, System for Award Management Registration (SAM); 9000-0136, Commercial Item Acquisitions; 9000-0034, Examination of Records by Comptroller General and Contract Audit; 9000-0013, Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data; 9000-0048, Authorized Negotiators and Integrity of Unit Prices; 9000-0173, Limitations on Pass-Through Charges; 9000-0045, Bid Guarantees, Performance, and Payments Bonds, and Alternative Payment Protection; 9000-0010, Progress Payments, SF 1443; 9000-0149, Subcontract Consent and Contractors' Purchasing System Review; 1235-0007, Labor Standards for Federal Service Contracts; 1235-0025, Nondisplacement of Qualified Workers Under Service Contracts, Executive Order 13495; 1250-0004, Office of Federal Contract Compliance Programs Recordkeeping and Reporting Requirements Under the Vietnam Era Veterans' Readjustment Assistance Act of 1974, as Amended; and 1250-0005, Office of Federal Contract Compliance Programs Recordkeeping and Reporting Requirements Under Rehabilitation Act of 1973, as Amended Section 503.
