

consistent with the rest of the EIA website.

#### **Form EIA-812, Monthly Product Pipeline Report**

- In Parts 3 and 4, discontinue collection of residual fuel stocks and delete the row for residual fuel (product code 511). The data has shown that residual fuel oil is a product not typically moved by pipeline.
- In Parts 3 and 4, discontinue collection of renewable fuel movements, except ethanol. EIA has found that inter-regional pipeline movements of these renewable fuels seldom occur and these data have limited utility for assessing fuel supply conditions.

#### **Forms EIA-802, EIA-805, EIA-812, EIA-815, EIA-817**

Discontinue collection of stocks of refinery olefins. EIA determined that the collection of data on stocks of refinery olefins is no longer needed. Stocks of refinery olefins will continue to be collected on Forms EIA-800 and EIA-810 to maintain an overall refinery balance.

#### **Form EIA-815, Monthly Bulk Terminal Report**

Add collection of stocks of ethane, propane, normal butane, isobutene, and natural gasoline natural gas liquids (NGL) held at petrochemical plants. Petrochemical plant operators are a special class of end user storage because they are able to function in ways that are similar to the commercial terminals surveyed by EIA. Including petrochemical plant storage improves data accuracy and improves market assessments of NGL supply availability.

#### **Forms EIA-810, EIA-812, EIA-814, EIA-815, EIA-817**

Replace biofuel reporting categories identified on current surveys as *biomass-based diesel fuel*, *other renewable diesel fuel*, and *other renewable fuels* with the new categories *biodiesel*, *renewable diesel fuel*, and *other renewable fuels and intermediate products*. These changes clarify the products and improve the utility of U.S. and regional data.

(5) *Annual Estimated Number of Survey Respondents*: 4,490.

EIA-800 consists of 125 respondents  
EIA-802 consists of 46 respondents  
EIA-803 consists of 80 respondents  
EIA-804 consists of 100 respondents  
EIA-805 consists of 745 respondents  
EIA-809 consists of 156 respondents  
EIA-810 consists of 139 respondents  
EIA-812 consists of 100 respondents  
EIA-813 consists of 205 respondents  
EIA-814 consists of 360 respondents

EIA-815 consists of 1,485 respondents  
EIA-816 consists of 450 respondents  
EIA-817 consists of 40 respondents  
EIA-819 consists of 320 respondents  
EIA-820 consists of 139 respondents

(6) *Annual Estimated Number of Total Responses*: 102,431 total responses.

(7) *Annual Estimated Number of Burden Hours*: 207,080 total hours.

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden*: EIA estimates that there are no additional costs to respondents associated with the surveys other than the costs associated with the burden hours. The information collected on the forms is maintained by companies in their data systems during their normal course of business. The cost of burden hours to the respondents is estimated to \$16,259,922 (207,080 burden hours times \$78.52 per hour).

## **DEPARTMENT OF ENERGY**

### **Federal Energy Regulatory Commission**

**[Project No. 2804-035]**

#### **Goose River Hydro, Inc.; Notice of Availability of Environmental Assessment**

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for license for the Goose River Hydroelectric Project, located on the Goose River, in Waldo County, Maine, and has prepared an Environmental Assessment (EA) for the project. The project does not occupy federal lands.

The EA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on

the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), (866) 208-3676 (toll free), or (202) 502-8659 (TTY).

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

Any comments should be filed within 30 days from the date of this notice.

The Commission strongly encourages electronic filing. Please file comments using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support. In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. The first page of any filing should include docket number P-2804-035.

For further information, contact Julia Kolberg at (202) 502-8261.

Dated: June 18, 2019.
