

National Agricultural Statistics Service (NASS)

Title: Agricultural Resource Management and Chemical Use Surveys—Substantive Change.

OMB Control Number: 0535–0218.

Summary of Collection: General authority for these data collection activities is granted under U.S. Code Title 7, Section 2204 which specifies that “The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics . . .”. The primary objective of the National Agricultural Statistics Service (NASS) is to provide data users with timely and reliable agricultural production and economic statistics, as well as environmental and specialty agricultural related statistics. To accomplish this objective, NASS relies on the use of diverse surveys that show changes within the farming industry over time.

Using the Agricultural Resource Management Survey (ARMS) and the Fruit Chemical Use Survey, NASS collects environmental data which includes cropping practices, fertilizer applications, pesticide usage for weeds, insects, fungus, mold, etc., and the use of various pest management practices. NASS has entered into a cooperative agreement with the Office of Pest Management Policy to collect additional information for the 2019 crop production year. Additional questions have been added to the Pest Management Practices sections of each of these questionnaires. The surveys that will be targeted for 2019 are the Production Practices Report (spring wheat, winter wheat and durum wheat), the Production Practices and Costs Report (barley, cotton, and sorghum), and the Fruit Chemical Use Survey.

The additional questions will expand the scope of the pest management practices. NASS conducted cognitive interviews with farmers to streamline the questions in order to keep additional respondent burden to a minimum.

This substantive change resulted in an overall reduction in sample size by 3,600 but the additional questions added, on average about 10 minutes to each questionnaire. The new sample size for this group of surveys is 15,600 respondents with a net increase in respondent burden of 159 hours above the currently approved total.

Need and Use of the Information: The OPMP was created by the Agricultural Research, Extension, and Education Reform Act of 1998 in response to grower concerns about the implementation of the Food Quality

Protection Act of 1996 (FQPA). By 1998 statute, and as reauthorized in the Agricultural Act of 2014 (Pub. L. 113–79), OPMP “shall be responsible for

- The development and coordination of Department policy on pest management and pesticides;

- the coordination of activities and services of the Department, including research, extension, and education activities, regarding the development, availability, and use of economically and environmentally sound pest management tools and practices;

- assisting other agencies of the Department in fulfilling their responsibilities related to pest management or pesticides under the Food Quality Protection Act of 1996, the Federal Food, Drug and Cosmetic Act and other applicable laws;

- perform other functions as required by law of by request of the Secretary;

- ensure coordination of interagency activities with EPA and FDA and other Federal and state agencies; and

- consult with agricultural producers that may be affected by pest management or pesticide-related activities or actions of the Department or other agencies.”

The additional questions that will be added to the questionnaires will address the following topics:

- Growers practices used to reduce off-field pesticide drift,

- Growers participation in programs to manage pesticide drift,

- Grower decisions regarding application methods, nozzle choices, and spray tank management,

- Sources of information growers are using to inform their pest resistance management decisions,

- Grower practices employed to manage pesticide resistance,

- Grower Best Management Practices (BMPs) to prevent pesticide exposure to pollinators,

- Grower awareness of BMPs to prevent pesticide exposure to pollinators.

Description of Respondents: Farms.

Number of Respondents: 15,600.

Frequency of Responses: Reporting: Once.

Total Burden Hours: 11,981.

Kimble Brown,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Forest Service

Media Outlets for Publication of Legal and Action Notices in the Southern Region

AGENCY: Forest Service, USDA.

ACTION: Notice.

SUMMARY: This notice lists all newspapers that will be used by the Ranger Districts, Grasslands, Forests and the Regional Office of the Southern Region to publish notices. The intended effect of this action is to inform members of the public which newspapers will be used by the Forest Service to publish legal notices regarding proposed actions, notices of decisions and notices indicating opportunities to file objections.

DATES: Use of these newspapers for purposes of publishing legal notice of decisions and notices of the opportunity to object under 36 CFR 218 and 36 CFR 219 shall begin the first day after the date of this publication.

FOR FURTHER INFORMATION CONTACT: Shannon Kelardy, Administrative Review Coordinator, Southern Region, Planning, 1720 Peachtree Road NW, Atlanta, Georgia 30309, Phone: (404) 347–2719.

SUPPLEMENTARY INFORMATION: Responsible Officials in the Southern Region will give notice of the opportunity to object to a proposed project under 36 CFR part 218, or developing, amending or revising land management plans under 36 CFR 219 in the following newspapers which are listed by Forest Service administrative unit. The timeframe for filing a comment, appeal or an objection shall be based on the date of publication of the notice of the proposed action in the newspaper of record for projects subject to 36 CFR 218 or 36 CFR 219. Where more than one newspaper is listed for any unit, the first newspaper listed is the newspaper of record that will be utilized for publishing the legal notice of decisions and calculating timeframes. Secondary newspapers listed for a particular unit are those newspapers the Deciding Officer/Responsible Official expects to use for purposes of providing additional notice. The following newspapers will be used to provide notice:

Southern Region

Regional Forester Decisions

Affecting National Forest System lands in more than one administrative unit of the 15 in the Southern Region,

Atlanta Journal—Constitution, published daily in Atlanta, Georgia. Affecting National Forest System lands in only one administrative unit or only one Ranger District will appear in the newspaper of record elected by the National Forest, National Grassland, National Recreation Area, or Ranger District as listed below.
