Title: Terrorism Risk Insurance Program—Rebuttal of Control Submissions under the Terrorism Risk Insurance Act.

Abstract: The Terrorism Risk Insurance Act of 2002, as amended (TRIA),¹ established the Terrorism Risk Insurance Program (TRIP),² which the Secretary of the Treasury administers, with the assistance of the Federal Insurance Office.³ Section 102(2) of TRIA defines an “affiliate” with respect to an insurer as “* * * any entity that controls, is controlled by, or is under common control with the insurer”. Section 102 (3) of the Act defines “control”. Section 102(6) defines “insurer” to include “* * * any affiliate thereof”. These definitions, taken together, comprise one element in calculating costs and payments to the insurer under the Program. As such, there could be questions as to whether an affiliate relation exists between specific insurers, which will turn on whether one insurer controls, is controlled by, or is under common control with the other insurer. The regulation, at 31 CFR 50.7 sets forth information which an insurer can provide to refute certain rebuttable presumptions of control described at 31 CFR 50.4(c). If not refuted, these rebuttable presumptions would lead to a determination that an affiliate relationship exists. This clearance

Affected Public: Business/Financial Institutions.

Estimated Number of Respondents: 10.

Estimated Average Time per Respondent: 4 hours.

Estimated Total Annual Burden Hours: 400 hours.

Request for Comments: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collections; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.
