**Title:** Futures Volume, Open Interest, Price, Deliveries and Purchases/Sales of Futures for Commodities or for Derivatives Positions (OMB Control No. 3038-0012). This is a request for extension of a currently approved information collection.

**Abstract:** Commission Regulation 16.01 requires the U.S. futures exchanges to publish daily information on the items listed in the title of the collection. The information required by this rule is in the public interest and is necessary for market surveillance. This rule is promulgated pursuant to the Commission's rulemaking authority contained in section 5 of the Commodity Exchange Act, 7 U.S.C. 7 (2010).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.<sup>2</sup> On April 22, 2019, the Commission published in the **Federal Register** notice of the proposed extension of this information collection

<sup>1</sup> 17 CFR 145.9.

and provided 60 days for public comment on the proposed extension, 84 FR 16663 ("60-Day Notice"). The Commission originally estimated that 15 entities would be affected by this rule, who would spend one hour daily on each response, 250 trading days per year, thus accumulating 3,750 hours annually in total burden hours. These numbers remain current, and the Commission did not receive any comments on the 60-Day Notice.

**Burden Statement:** The Commission is revising its estimate of the burden for this collection as the respondent burden for this collection is estimated to be as follows:

**Estimated Number of Respondents:** 15.

**Estimated Average Burden Hours per Respondent:** 1 hour.

**Estimated Total Annual Burden Hours:** 3,750 hours.

**Frequency of Collection:** Daily.

There are no known additional capital costs or operating and maintenance costs associated with this collection.

#### SUPPLEMENTARY INFORMATION:

**Title:** Large Trader Reports (OMB Control No. 3038-0009). This is a request for extension of a currently approved information collection.

**Abstract:** The reporting rules covered by OMB control number 3038-0009 ("the Collection") are structured to ensure that the Commission receives adequate information to carry out its market and financial surveillance programs. The market surveillance programs analyze market information to detect and prevent market disruptions and enforce speculative position limits. The financial surveillance programs combine market information with financial data to assess the financial risks presented by large customer positions to Commission registrants and clearing organizations.

The reporting rules are implemented by the Commission partly pursuant to the authority of sections 4a, 4c(b), 4g, and 4i of the Commodity Exchange Act ("the Act"). Section 4a of the Act permits the Commission to set, approve exchange-set, and enforce speculative position limits. Section 4c(b) of the Act gives the Commission plenary authority to regulate transactions that involve commodity options. Section 4g of the Act imposes reporting and recordkeeping obligations on registered entities and registrants (including futures commission merchants (FCMs), introducing brokers, floor brokers, or floor traders), and requires each registrant to file such reports as the Commission may require on proprietary and customer positions executed on any board of trade in the United States or elsewhere. Lastly, section 4i of the Act requires the filing of such reports as the Commission may require when positions made or obtained on designated contract markets or derivatives transaction execution facilities equal or exceed Commission-set levels.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. On April 9, 2019, the Commission published in the **Federal Register** notice of the proposed extension of this information collection and provided 60 days for public comment on the proposed extension, 84 FR 14097 ("60-Day Notice"). The Commission did not receive any relevant comments on the 60-Day Notice.

**Burden Statement:** The respondent burden for this collection is estimated to be 0.26 hour per response, on average. These estimates include the time to locate the information related to the

exemptions and to file necessary exemption paperwork. There are approximately 74,418 responses annually, thus the estimated total annual burden on respondents is 19,676 hours.

**Estimated Number of Respondents:** 480.

**Estimated Total Annual Burden Hours:** 19,676 hours.

**Frequency of Collection:** Periodically.

There are no capital costs or operating and maintenance costs associated with this collection.
